ONE NEW ISSUE BOOK-ENTRY ONLY See "RATINGS" herein

In the opinion of Butler Snow LLP, Ridgeland, Mississippi ("Bond Counsel"), under existing laws, regulations, rulings and judicial decisions, interest on the Series 2017A Bonds (as defined herein) is excludable from gross income for federal tax purposes pursuant to Section 103 of the Code (as defined herein). However, see "TAX MATTERS" for a description of the alternative minimum tax on corporations and certain other federal tax consequences of ownership of the Series 2017A Bonds. Bond Counsel is further of the opinion that under existing laws, regulations, rulings and judicial decisions, interest on the Series 2017A Bonds is exempt from income taxation in the State (as defined herein). See "TAX MATTERS" herein and APPENDIX E - FORM OF OPINION OF BOND COUNSEL attached hereto.

# \$442,775,000 STATE OF MISSISSIPPI GENERAL OBLIGATION REFUNDING BONDS, SERIES 2017A

**Dated:** Date of Delivery **Due:** October 1, as shown on the inside front cover

Interest on the \$442,775,000 State of Mississippi General Obligation Refunding Bonds, Series 2017A (the "Series 2017A Bonds") will be payable on April 1 and October 1 of each year, commencing October 1, 2017. The State Bond Commission of the State of Mississippi (the "State") has designated the Office of the State Treasurer to serve as paying agent, transfer agent and registrar of the Series 2017A Bonds (in such capacity, the "Paying and Transfer Agent"). The Series 2017A Bonds will be issued as fully registered bonds in the denomination of \$5,000, or any integral multiple thereof, and registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York, which will act as securities depository for the Series 2017A Bonds. See "DESCRIPTION OF THE SERIES 2017A BONDS - Book-Entry-Only System" and APPENDIX F.

The Series 2017A Bonds are general obligations of the State and are secured by a pledge of the full faith and credit of the State.

The Series 2017A Bonds will be subject to optional redemption prior to their respective maturities. See "DESCRIPTION OF THE SERIES 2017A BONDS – Redemption Provisions."

THIS COVER PAGE CONTAINS CERTAIN INFORMATION FOR QUICK REFERENCE ONLY. IT IS NOT A SUMMARY OF THIS ISSUE. PROSPECTIVE INVESTORS MUST READ THIS ENTIRE OFFICIAL STATEMENT TO OBTAIN INFORMATION ESSENTIAL TO THE MAKING OF AN INFORMED INVESTMENT DECISION.

The Series 2017A Bonds are offered subject to the final approving opinion of Butler Snow LLP, Ridgeland Mississippi, Bond Counsel. Certain legal matters will be passed upon for the Underwriters (identified below) by their counsel, Balch & Bingham LLP, Jackson, Mississippi. Certain legal matters with respect to the State will be passed upon by the State's Attorney General, Jim Hood, Esq. FirstSouthwest, a division of Hilltop Securities, Dallas, Texas, is serving as Financial Advisor to the State in connection with the sale and issuance of the Series 2017A Bonds. It is expected that delivery of the Series 2017A Bonds in definitive form will be made on or about June 28, 2017.

NO DEALER, BROKER, SALES REPRESENTATIVE OR OTHER PERSON HAS BEEN AUTHORIZED BY THE STATE, THE STATE BOND COMMISSION OF THE STATE OR THE UNDERWRITERS SHOWN ON THE COVER HEREOF TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATIONS OTHER THAN THOSE CONTAINED HEREIN IN CONNECTION WITH THE OFFERING OF THE SERIES 2017A BONDS AND, IF GIVEN OR MADE, SUCH OTHER INFORMATION OR REPRESENTATION MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY ANY OF THE FOREGOING. THIS OFFICIAL STATEMENT DOES NOT CONSTITUTE AN OFFER TO SELL OR THE SOLICITATION OF AN OFFER TO BUY THE SERIES 2017A BONDS NOR SHALL THERE BE ANY SALE OF THE SERIES 2017A BONDS BY ANY PERSON IN ANY JURISDICTION IN WHICH IT IS UNLAWFUL FOR SUCH PERSON TO MAKE SUCH AN OFFER, SOLICITATION OR SALE.

THE INFORMATION SET FORTH HEREIN HAS BEEN OBTAINED FROM THE STATE AND OTHER SOURCES THAT ARE BELIEVED TO BE RELIABLE. THE INFORMATION SET FORTH HEREIN CONCERNING DTC HAS BEEN FURNISHED BY DTC AND NO REPRESENTATION IS MADE BY THE STATE OR THE UNDERWRITERS AS TO THE ACCURACY OR COMPLETENESS THEREOF. THE INFORMATION AND EXPRESSIONS OF OPINION HEREIN ARE SUBJECT TO CHANGE WITHOUT NOTICE, AND NEITHER THE DELIVERY OF THIS OFFICIAL STATEMENT NOR ANY SALE MADE HEREUNDER SHALL, UNDER ANY CIRCUMSTANCES, CREATE ANY IMPLICATION THAT THERE HAS BEEN NO CHANGE IN THE AFFAIRS OF THE STATE SINCE THE DATE HEREOF.

THIS OFFICIAL STATEMENT CONTAINS FORECASTS, PROJECTIONS AND ESTIMATES THAT ARE BASED ON EXPECTATIONS AND ASSUMPTIONS WHICH EXISTED AT THE TIME SUCH FORECASTS, PROJECTIONS AND ESTIMATES WERE PREPARED. IN LIGHT OF THE IMPORTANT FACTORS THAT MAY MATERIALLY AFFECT ECONOMIC CONDITIONS IN THE STATE, THE INCLUSION IN THIS OFFICIAL STATEMENT OF SUCH FORECASTS, PROJECTIONS AND ESTIMATES SHOULD NOT BE REGARDED AS A REPRESENTATION BY THE STATE THAT SUCH FORECASTS, PROJECTIONS AND ESTIMATES WILL OCCUR. SUCH FORECASTS, PROJECTIONS AND ESTIMATES ARE NOT INTENDED AS REPRESENTATIONS OF FACT OR GUARANTEES OF RESULTS.

IF AND WHEN INCLUDED IN THIS OFFICIAL STATEMENT, THE WORDS "EXPECTS," "FORECASTS," "PROJECTS," "INTENDS," "ANTICIPATES," "ESTIMATES" AND ANALOGOUS EXPRESSIONS ARE INTENDED TO IDENTIFY FORWARD-LOOKING STATEMENTS AND ANY SUCH STATEMENTS INHERENTLY ARE SUBJECT TO A VARIETY OF RISKS AND UNCERTAINTIES THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE PROJECTED. SUCH RISKS AND UNCERTAINTIES INCLUDE, AMONG OTHERS, GENERAL ECONOMIC AND BUSINESS CONDITIONS, CHANGES IN POLITICAL, SOCIAL AND ECONOMIC CONDITIONS, REGULATORY INITIATIVES AND COMPLIANCE WITH GOVERNMENTAL REGULATIONS, LITIGATION AND VARIOUS OTHER EVENTS, CONDITIONS AND CIRCUMSTANCES, MANY OF WHICH ARE BEYOND THE CONTROL OF THE STATE. THESE FORWARD-LOOKING STATEMENTS SPEAK ONLY AS OF THE DATE OF THIS OFFICIAL STATEMENT. THE STATE DISCLAIMS ANY OBLIGATION OR UNDERTAKING TO RELEASE PUBLICLY ANY UPDATES OR REVISIONS TO ANY FORWARD-LOOKING STATEMENT CONTAINED HEREIN TO REFLECT ANY CHANGE IN THE STATE'S EXPECTATIONS WITH REGARD THERETO OR ANY CHANGE IN EVENTS, CONDITIONS OR CIRCUMSTANCES ON WHICH ANY SUCH STATEMENT IS BASED.

INFORMATION HEREIN HAS BEEN OBTAINED FROM THE STATE, DTC, AND OTHER SOURCES BELIEVED TO BE RELIABLE, BUT THE ACCURACY OR COMPLETENESS OF SUCH INFORMATION IS NOT GUARANTEED BY THE UNDERWRITERS.

THE PRICES AT WHICH THE SERIES 2017A BONDS ARE OFFERED TO THE PUBLIC BY THE UNDERWRITER (AND THE YIELDS RESULTING THEREFROM) MAY VARY FROM THE INITIAL PUBLIC OFFERING PRICES OR YIELDS APPEARING ON THE INSIDE COVER PAGE HEREOF. IN ADDITION, THE UNDERWRITER MAY ALLOW CONCESSIONS OR DISCOUNTS FROM SUCH INITIAL PUBLIC OFFERING PRICES TO DEALERS AND OTHERS. IN ORDER TO FACILITATE DISTRIBUTION OF THE SERIES 2017A BONDS, THE UNDERWRITER MAY ENGAGE IN TRANSACTIONS INTENDED TO STABILIZE THE PRICE OF THE SERIES 2017A BONDS AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

THE UNDERWRITERS HAVE PROVIDED THE FOLLOWING SENTENCE FOR INCLUSION IN THIS OFFICIAL STATEMENT: "EACH UNDERWRITER HAS REVIEWED THE INFORMATION IN THIS OFFICIAL STATEMENT IN ACCORDANCE WITH, AND AS A PART OF, ITS RESPONSIBILITIES TO INVESTORS UNDER THE FEDERAL SECURITIES LAWS AS APPLIED TO THE FACTS AND

CIRCUMSTANCES OF THIS TRANSACTION, BUT THE UNDERWRITERS DO NOT GUARANTEE THE ACCURACY OR COMPLETENESS OF SUCH INFORMATION."

UPON ISSUANCE, THE SERIES 2017A BONDS WILL NOT BE REGISTERED BY THE STATE UNDER THE SECURITIES ACT OF 1933, AS AMENDED, ANY STATE SECURITIES LAW, AND WILL NOT BE LISTED ON ANY STOCK OR OTHER SECURITIES EXCHANGE. NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY OTHER FEDERAL, STATE OR OTHER GOVERNMENTAL ENTITY OR AGENCY WILL HAVE PASSED UPON THE ACCURACY OR ADEQUACY OF THIS OFFICIAL STATEMENT OR THE SERIES 2017A BONDS OFFERED FOR SALE BY THIS OFFICIAL STATEMENT.

THE ORDER AND PLACEMENT OF MATERIALS IN THIS OFFICIAL STATEMENT, INCLUDING THE APPENDICES, ARE NOT TO BE DEEMED A DETERMINATION OF RELEVANCE, MATERIALITY OR IMPORTANCE, AND THIS OFFICIAL STATEMENT, INCLUDING THE APPENDICES, MUST BE CONSIDERED IN ITS ENTIRETY. THE CAPTIONS AND HEADINGS IN THIS OFFICIAL STATEMENT ARE FOR CONVENIENCE OF REFERENCE ONLY, AND IN NO WAY DEFINE, LIMIT OR DESCRIBE THE SCOPE OR INTENT, OR AFFECT THE MEANING OR CONSTRUCTION, OF ANY PROVISION OR SECTIONS OF THIS OFFICIAL STATEMENT. THE OFFERING OF THE SERIES 2017A BONDS IS MADE ONLY BY MEANS OF THIS OFFICIAL STATEMENT.

THIS OFFICIAL STATEMENT IS BEING PROVIDED TO PROSPECTIVE PURCHASERS EITHER IN BOUND PRINTED FORM ("ORIGINAL BOUND FORMAT") OR IN ELECTRONIC FORMAT ON THE FOLLOWING WEBSITE: WWW.MUNIOS.COM. THIS OFFICIAL STATEMENT MAY BE RELIED UPON ONLY IF IT IS IN ITS ORIGINAL BOUND FORMAT OR IS PRINTED IN ITS ENTIRETY FROM SUCH WEBSITE.

## OFFICIAL STATEMENT SUMMARY

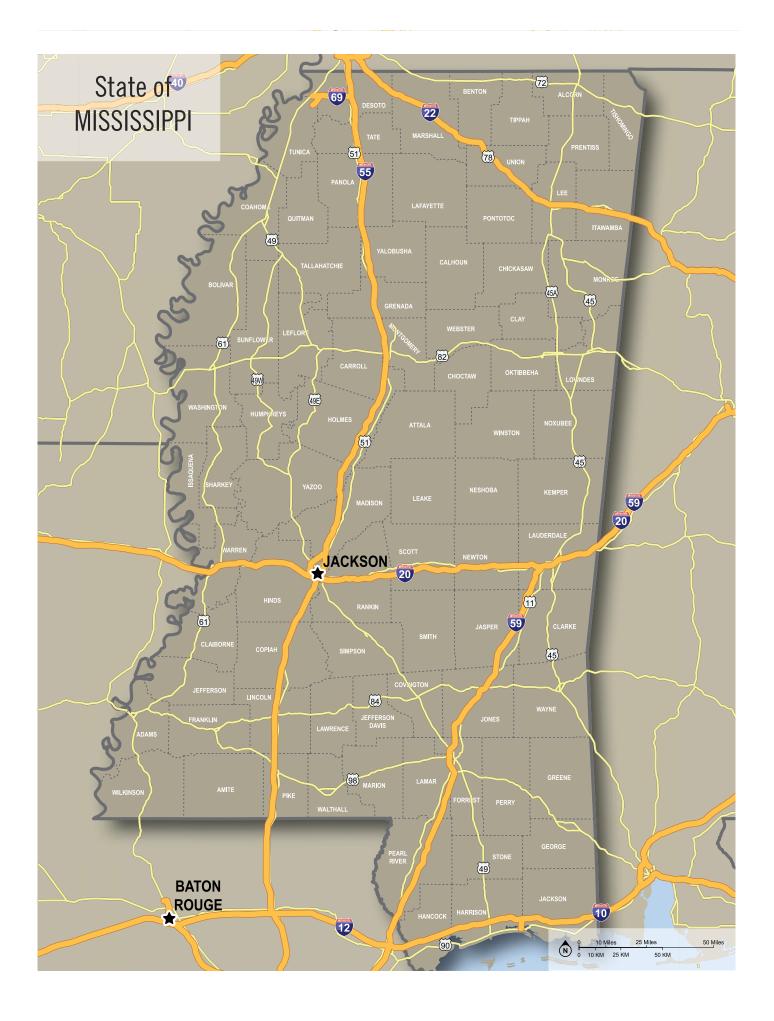

## THE OFFERING

## \$442,775,000 STATE OF MISSISSIPPI GENERAL OBLIGATION REFUNDING BONDS, SERIES 2017A

The Issuer	State of Mississippi (the "State").
Issue and Date	$$442,775,\!000$ State of Mississippi General Obligation Refunding Bonds, Series 2017A (the "Series 2017A Bonds"), dated their date of delivery.
Authority	The Series $2017A$ Bonds will be issued pursuant to the provisions of the Act (as defined herein) and the Resolution (as defined herein).
Purpose	The Series 2017A Bonds are being issued for the purpose of (a) advance refunding and defeasing certain discrete maturities of general obligation bonds previously issued by the State, as more particularly described herein, and (b) paying the costs incident to the sale and issuance of the Series 2017A Bonds, as authorized under Act.
Amounts and Maturities	The Series 2017A Bonds will mature on October 1 in the years and amounts as shown on the inside front cover.
Interest Payment Dates	Interest on the Series 2017A Bonds will be payable on April 1 and October 1 of each year, commencing October 1, 2017.
Redemption Provisions	The Series 2017A Bonds will be subject to optional redemption prior to their respective maturities (see "DESCRIPTION OF THE SERIES 2017A BONDS - Redemption Provisions," herein).
Security for Payment	Pursuant to the Act, the Series 2017A Bonds shall be general obligations of the State and are secured by a pledge of the full faith and credit of the State (see "DESCRIPTION OF THE SERIES 2017A BONDS - Security," herein).
Tax Matters	In the opinion of Bond Counsel (as defined herein), interest on the Series 2017A Bonds is excludable from gross income for federal and State tax purposes. However, see "TAX MATTERS" for a description of the alternative minimum tax on corporations and certain other federal tax consequences of ownership of the Series 2017A Bonds. See "TAX MATTERS," herein.

The above information is qualified in its entirety by the detailed information and financial statements appearing elsewhere in this Official Statement, including the Appendices.

## OFFICIAL STATEMENT

## \$442,775,000 STATE OF MISSISSIPPI GENERAL OBLIGATION REFUNDING BONDS, SERIES 2017A

#### INTRODUCTION

The purpose of this Official Statement, which includes the cover page, the inside cover and the Appendices herein, is to set forth certain information concerning the State of Mississippi (the "State" or "Mississippi") and the State's \$442,775,000 General Obligation Refunding Bonds, Series 2017A (the "Series 2017A Bonds").

#### **DESCRIPTION OF THE SERIES 2017A BONDS**

#### General

The Series 2017A Bonds will be dated the date of delivery, and will be issued as fully registered bonds in the denominations of \$5,000 or any integral multiples thereof, bearing interest at the rates per annum set forth on the inside front cover, payable April 1 and October 1 of each year, commencing on October 1, 2017, and computed on the basis of a 360-day year consisting of twelve, 30-day months. The State Treasurer of the State has been designated by the State Bond Commission of the State (the "Commission") to serve as paying agent, transfer agent and registrar of the Series 2017A Bonds (in such capacity, the "Paying and Transfer Agent"). The Series 2017A Bonds will be general obligations of the State and the full faith and credit of the State shall be pledged as security for the payment of the principal of and the interest on the Series 2017A Bonds.

The Series 2017A Bonds initially will be held in a book-entry-only system administered by The Depository Trust Company, New York, New York ("DTC"). Principal of and interest on the Series 2017A Bonds held in book-entry form shall be payable as described herein under the heading "DESCRIPTION OF THE SERIES 2017A BONDS - Book-Entry-Only System" and APPENDIX F - BOOK-ENTRY-ONLY SYSTEM.

The principal of and interest on the Series 2017A Bonds will be payable by the Paying and Transfer Agent to DTC, which will in turn remit such principal and interest to its Direct Participants (as hereinafter defined) and Indirect Participants (as hereinafter defined), which will in turn remit such principal and interest to the Beneficial Owners (as hereinafter defined) of the Series 2017A Bonds. If the date for payment is not a business day, then the payment shall be made on the next succeeding business day with the same force and effect as if made on the payment date. The record date for the payment of interest on the Series 2017A Bonds is the close of business on the date which shall be the 15th day (whether or not a business day) of the calendar month next preceding each interest payment date.

The Series 2017A Bonds will mature October 1 in the years and in the amounts set forth on the inside cover page hereto.

The Series 2017A Bonds will be issued pursuant to the provisions of Section 31-27-1 et seq., Mississippi Code of 1972, as amended and supplemented from time to time (the "Act") and a resolution adopted by the State Bond Commission of the State on October 26, 2016, as amended and restated on November 21, 2016 (the "Resolution") for the purpose of providing funds to (a) advance refund and defease certain maturities of the State's (i) \$167,315,000 (original principal amount) General Obligation Bonds (Community Heritage Preservation Grant Program, Local Governments and Rural Water Revolving Loan Fund, Water Pollution Control Revolving Fund, Department of Marine Resources Equipment and Facilities Fund, Mississippi Museum of Art, Local System Bridge Replacement and Rehabilitation Fund, Hillcrest Cemetery Repair Fund, Chalmers Institute Repair Fund, B. B. King Museum, Capital Improvements and GO Captens Series A (Tax-Exempt) Project), Series 2006D, dated as of November 1, 2006, (ii) \$299,020,000 (original principal amount) State of Mississippi General Obligation Bonds, Series 2007B (Capital Improvements Issue), dated as of December 1, 2007, (iii) \$133,545,000 State of Mississippi General Obligation Bonds, Series 2008A (Community Heritage Preservation Grant Program, Water Pollution Control Revolving Fund, Local System Bridge Replacement

Program, Mississippi Public Health Laboratory Project, Rural Fire Truck Acquisition Assistance Program, Bureau of Buildings Projects and Soil and Water Conservation Program), dated as of October 1, 2008, (iv) \$353,730,000 State of Mississippi General Obligation Bonds, Series 2011A (Capital Improvements Projects), dated October 26, 2011, (v) \$43,900,000 State of Mississippi General Obligation Refunding Bonds (Nissan North America, Inc. Project), Series 2012B, dated August 1, 2012, (vi) \$136,680,000 State of Mississippi General Obligation Bonds, Series 2012H, dated October 30, 2012, and (vii) \$159,225,000 State of Mississippi General Obligation Bonds, Series 2013B, dated December 3, 2013, and (b) pay the costs incident to the sale and issuance of the Series 2017A Bonds, as authorized under the Act (see "PLAN OF REFUNDING," herein).

#### Security

The Series 2017A Bonds will be general obligations of the State, and for the payment thereof, the full faith and credit of the State shall be irrevocably pledged. The Act provides that if the funds appropriated by the Legislature of the State shall be insufficient to pay the principal of and interest on the Series 2017A Bonds as they become due, the deficiency shall be paid by the State Treasurer from funds in the State Treasury not otherwise appropriated.

The qualified electors of the State voted in a general election held on November 7, 1995, to amend the Mississippi Constitution of 1890 (the "Constitution") to add the following new Section 172A (the "Amendment"):

SECTION 172A. Neither the Supreme Court nor any inferior court of this state shall have the power to instruct or order the state or any political subdivision thereof, or an official of the state or any political subdivision, to levy or increase taxes.

The Amendment does not affect the State's underlying obligation to pay the principal of and interest on the Series 2017A Bonds as they mature and become due nor does it affect the State's obligation to levy a tax sufficient to accomplish that purpose. However, even though it appears that the Amendment was not intended to affect bondholders' remedies in the event of a payment default, the Amendment potentially prevents bondholders from obtaining a writ of mandamus to compel the levying of taxes to pay the principal of and interest on the Series 2017A Bonds in a State court. It is not certain whether the Amendment would affect the right of a federal court to direct the levy of a tax to satisfy a contractual obligation. Other effective remedies are available to the bondholders in the event of a payment default with respect to the Series 2017A Bonds.

#### **Redemption Provisions**

Optional Redemption. The Series 2017A Bonds will be subject to optional redemption prior to their respective maturities on or after October 1, 2027, either in whole or in part on any date (as selected by the State among maturities and by lot within each maturity), at the principal amount thereof, together with the interest accrued thereon to the date fixed for redemption and without premium.

## Selection of Series 2017A Bonds to be Redeemed

<u>Held in Book-Entry Only System.</u> If less than all of the Series 2017A Bonds shall be called for redemption, the State shall notify DTC that the redemption shall be by lot in whole multiples of \$5,000. While DTC is the registered owner of the Series 2017A Bonds, partial redemptions of the Series 2017A Bonds of a particular maturity will be determined in accordance with DTC's procedures as in effect at the time of any such partial redemption.

<u>Not Held in Book-Entry Only System.</u> If less than all of the Series 2017A Bonds subject to redemption are called for redemption, the Paying and Transfer Agent shall select the Series 2017A Bonds to be redeemed from the outstanding Series 2017A Bonds subject to redemption and not previously called for redemption, by lot in any manner deemed reasonable by the Paying and Transfer Agent, provided that the unredeemed portion of the principal amount of any Series 2017A Bond shall be not less than \$5,000.

## Notice of Redemption

Notice of the call for any redemption (which may be a conditional notice), identifying the Series 2017A Bonds (or any portions thereof in authorized denominations) to be redeemed, will be given by the State at least 30 days but not more than 45 days prior to the date fixed for redemption by mailing a copy of the redemption notice by registered or certified mail to the Underwriters (as defined herein) and the registered owner of each

Series 2017A Bond to be redeemed at the address shown on the records of the Paying and Transfer Agent. Failure to mail such notice to any particular owner of Series 2017A Bonds, or any defect in the notice mailed to any such owner of Series 2017A Bonds, will not affect the validity of any proceeding for the redemption of any other Series 2017A Bonds. So long as DTC or its nominee is the registered owner of the Series 2017A Bonds, notice of the call for any redemption will be given to DTC, and not directly to Beneficial Owners. See the caption, "DESCRIPTION OF THE SERIES 2017A BONDS -- Book-Entry-Only System" and APPENDIX F -BOOK-ENTRY-ONLY SYSTEM.

#### **Defeasance**

Under the Resolution, all Series 2017A Bonds for the payment of which sufficient moneys or, to the extent permitted by the laws of the State, (a) direct obligations of, or obligations the payment of the principal of and interest on which are unconditionally guaranteed by, the United States of America or any of its agencies ("Government Obligations"), or (b) certificates of deposit fully secured by Government Obligations, or (c) evidences of ownership of proportionate interests in future interest or principal payments on Government Obligations held by a bank or trust company as custodian, under which the owner of the investment is the real party in interest and has the right to proceed directly and individually against the obligor on the Government Obligations and which Government Obligations are not available to satisfy any claim of the custodian or any person claiming through the custodian or to whom the custodian may be obligated (all of which collectively, with Government Obligations, "Defeasance Securities"), shall have been deposited with an escrow agent appointed for such purpose, which may be the Paying and Transfer Agent, all to the extent provided in the Resolution, shall be deemed to have been paid, shall cease to be entitled to any lien, benefit or security under the Resolution and shall no longer be deemed to be outstanding thereunder, and the registered owners shall have no rights in respect thereof except to receive payment of the principal of, premium, if any, and interest on such Series 2017A Bonds from the funds held for that purpose. Defeasance Securities shall be considered sufficient under the Resolution if said investments, with interest, mature and bear interest in such amounts and at such times as will assure sufficient cash to pay currently maturing interest and to pay principal and premium, if any, when due on such Series 2017A Bonds.

## Registration

<u>Series 2017A Bonds Subject to the Book-Entry-Only System.</u> For so long as DTC acts as securities depository for the Series 2017A Bonds, the registration and transfer of ownership interests in Series 2017A Bonds shall be accomplished by book entries made by DTC and the Direct Participants and, where appropriate, the Indirect Participants, as described herein under the heading "DESCRIPTION OF THE SERIES 2017A BONDS-Book-Entry-Only System."

<u>Series 2017A Bonds Not Subject to Book-Entry-Only System.</u> Should the Series 2017A Bonds no longer be held in book-entry form, each Series 2017A Bond shall be thereafter evidenced by a bond certificate in fully registered form and transferable only upon the registration records of the State maintained by the Paying and Transfer Agent, by the registered owner thereof or by such registered owner's attorney, duly authorized in writing, upon surrender thereof, together with a written instrument of transfer satisfactory to the Paying and Transfer Agent, duly executed by the registered owner or such registered owner's duly authorized attorney. Upon the transfer of any Series 2017A Bond, the State shall issue, in the name of the transferee, a new Series 2017A Bond or Series 2017A Bonds of the same interest rate and maturity of like tenor and effect in any authorized denomination equal to the unpaid principal amount of the surrendered Series 2017A Bond.

Series 2017A Bonds, upon surrender thereof at the office of the Paying and Transfer Agent with a written instrument of transfer satisfactory to the Paying and Transfer Agent duly executed by the registered owner or such registered owner's duly authorized attorney, may be exchanged for a principal amount of Series 2017A Bonds of the same interest rate and maturity and of like tenor and effect in any authorized denomination equal to the unpaid principal amount of the surrendered Series 2017A Bonds. The Paying and Transfer Agent will not be required to register the transfer of or exchange any Series 2017A Bond after the mailing of notice calling such Series 2017A Bond for redemption has been given as provided in the Resolution, nor during the period of 15 days next preceding the giving of such notice of redemption.

#### **Book-Entry-Only System**

The State has determined that it will be beneficial to have the Series 2017A Bonds held by a central depository system and to have transfers of the Series 2017A Bonds handled by a book-entry system on the

records of DTC. Unless and until the book-entry-only system has been discontinued, the Series 2017A Bonds will be available only in book-entry form in principal amounts of \$5,000 or any integral multiple thereof. DTC will initially act as securities depository for the Series 2017A Bonds. The Series 2017A Bonds will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee). One fully registered Series 2017A Bond will be issued for each maturity of the Series 2017A Bonds, and will be deposited with DTC. See APPENDIX F - BOOK-ENTRY-ONLY SYSTEM, for a detailed discussion of the book-entry-only system and DTC.

In the event the book-entry-only system is discontinued, principal and interest on the Series 2017A Bonds will be payable by check or draft of the Paying and Transfer Agent as described under the heading "DESCRIPTION OF THE SERIES 2017A BONDS - Registration."

#### PLAN OF REFUNDING

The Series 2017A Bonds are being issued under and pursuant to the Act and the Resolution for the purpose of (a) advance refunding and defeasing certain maturities of the State's (i) \$167,315,000 (original principal amount) General Obligation Bonds (Community Heritage Preservation Grant Program, Local Governments and Rural Water Revolving Loan Fund, Water Pollution Control Revolving Fund, Department of Marine Resources Equipment and Facilities Fund, Mississippi Museum of Art, Local System Bridge Replacement and Rehabilitation Fund, Hillcrest Cemetery Repair Fund, Chalmers Institute Repair Fund, B. B. King Museum, Capital Improvements and GO Captens Series A (Tax-Exempt) Project), Series 2006D, dated as of November 1, 2006, (ii) \$299,020,000 (original principal amount) State of Mississippi General Obligation Bonds, Series 2007B (Capital Improvements Issue), dated as of December 1, 2007, (iii) \$133,545,000 State of Mississippi General Obligation Bonds, Series 2008A (Community Heritage Preservation Grant Program, Water Pollution Control Revolving Fund, Local System Bridge Replacement Program, Mississippi Public Health Laboratory Project, Rural Fire Truck Acquisition Assistance Program, Bureau of Buildings Projects and Soil and Water Conservation Program), dated as of October 1, 2008, (iv) \$353,730,000 State of Mississippi General Obligation Bonds, Series 2011A (Capital Improvements Projects), dated October 26, 2011, (v) \$43,900,000 State of Mississippi General Obligation Refunding Bonds (Nissan North America, Inc. Project), Series 2012B, dated August 1, 2012, (vi) \$136,680,000 State of Mississippi General Obligation Bonds, Series 2012H, dated October 30, 2012, and (vii) \$159,225,000 State of Mississippi General Obligation Bonds, Series 2013B, dated December 3, 2013 (collectively, the "Refunded Bonds"), and (b) paying certain costs incident to the sale and issuance of the Series 2017A Bonds.

In order to effect the advance refunding and defeasance of the Refunded Bonds in accordance with the Resolution, a portion of the proceeds of the Series 2017A Bonds will be deposited in an irrevocable trust fund (the "Escrow Account") to be created pursuant to an escrow trust agreement to be dated as of the date of delivery thereof (the "Escrow Agreement") between the State and Whitney Bank, doing business as Hancock Bank, Gulfport, Mississippi, as escrow trustee thereunder (the "Escrow Trustee"). The Escrow Trustee shall invest a portion of the moneys on deposit in the Escrow Account in direct obligations of or obligations unconditionally guaranteed by the United States of America (the "Investment Securities"). The remainder of such moneys shall be held in the Escrow Account as uninvested cash. The calculation of the adequacy of the maturing principal and interest payments from the Investment Securities, along with any uninvested cash, to pay the principal of and interest on the Refunded Bonds when due will be verified by Causey Demgen & Moore P.C. (the "Verification Agent") (see "VERIFICATION OF ARITHMETICAL AND MATHEMATICAL COMPUTATIONS," herein). Neither the principal of nor the interest on the Investment Securities will be available for payment of the Series 2017A Bonds. A portion of the proceeds of the Series 2017A Bonds will be deposited in an irrevocable trust fund (the "Cost of Issuance Account") to be created pursuant to the Escrow Agreement and will be used to pay the costs incident to the sale and issuance of the Series 2017A Bonds.

## SOURCES AND USES OF FUNDS

The following is a summary of the estimated sources and uses of proceeds of the Series 2017A Bonds.

#### Sources

Par Amount Plus Original Issue Premium Total Sources \$442,775,000.00 <u>85,981,484.95</u> \$<u>528,756,484.95</u>

## $\mathbf{Uses}$

For Deposit to Escrow Account \$527,727,818.75 For Deposit to the Cost of Issuance Account 434,073.05For Underwriters' Discount 594,593.15Total Uses \$528,756,484.95

#### DEBT STRUCTURE AND CHARACTERISTICS

#### General

All debt of the State must be authorized by legislation governing the specific programs or projects to be financed. In most instances, such legislation provides the Commission authority to approve and authorize the sale and issuance of State debt. The Commission is comprised of the Governor as Ex officio Chairman, the Attorney General as Ex officio Secretary and the State Treasurer as an Ex officio Member.

#### **Short-Term Indebtedness**

The Commission, acting on behalf of the State, is authorized to issue in any given fiscal year general obligation short-term notes in an amount not to exceed 7.5% of the total appropriation made by the Legislature in such fiscal year. Such short-term notes may be issued for the purpose of offsetting any temporary cash flow deficiencies in the State's General Fund and to maintain a working balance therein. The State has never issued tax anticipation notes.

The Commission also has the authority to establish lines of credit or issue short-term notes to provide temporary financing for certain projects for which the Commission is otherwise authorized to issue bonds. No such line of credit is presently outstanding. In July 2016, the State issued its \$80,000,000 Taxable General Obligation Note, Series 2016A (the "Series 2016A Note") to provide temporary financing for a portion of the costs of a project for Continental Tire The Americas, LLC to be located in Hinds County, Mississippi. There is currently \$20,000,000 outstanding under the Series 2016A Note. The Series 2016A Note matures July 7, 2018. The State anticipates refinancing the Series 2016A Note with long term bonds prior to maturity thereof.

## **Long-Term Indebtedness**

The State's long-term indebtedness is composed of general obligation bonds and revenue bonds issued to finance specific programs and projects. As used in this Official Statement, the terms Gross Debt, Gross Direct Debt and Net Direct Debt are part of the State's long-term debt and have the following meanings.

"Gross Debt" means all bonded debt of the State, both general obligation bonds and revenue bonds.

"Gross Direct Debt" means only bonded debt of the State to which the full faith, credit and taxing power of the State is pledged.

"Net Direct Debt" means that amount of Gross Direct Debt, which is serviced only by appropriations from the State's General Fund or by specific sources of revenue, which would otherwise accrue to the State's General Fund except for the servicing of such debt.

Includes, among other expenses, rating agency fees, and financial advisor and legal fees. Payment of such fees is contingent upon the issuance of the Series 2017A Bonds.

The following table summarizes the outstanding principal amount of debt of the State.

## STATE OF MISSISSIPPI LONG TERM INDEBTEDNESS (1) As of May 1, 2017

## Lease Purchase Agreements

Pursuant to the authority granted the State by Section 31-7-10, Mississippi Code of 1972, as amended and supplemented (the "Lease Purchase Act"), the Department of Finance and Administration has entered into a master lease purchase agreement to finance new personal property leased by various agencies, boards, departments and commissions of the State (the "Agency Leases"). The Agency Leases require the State to make periodic payments of rent sufficient to pay the principal and interest due thereunder. The lease payments are subject to annual appropriation and are not a full faith and credit obligation of the State. The Commission has authorized the State, through the Department of Finance and Administration, to enter into Agency Leases in an amount not to exceed \$65,000,000 to be outstanding at any one time. There was an outstanding balance under the Agency Leases at May 31, 2017 of \$18,228,498.94.

Under the Lease Purchase Act, the Department of Finance and Administration is also authorized to enter into lease purchase agreements (the "School Leases" and "Community College Leases") to finance personal property to be subleased by school districts and community colleges in the State (the "Subleases"). The School Leases require the State to make periodic payments of rent sufficient to pay the principal and interest due thereunder (the "Lease Payments"). The Subleases require the school districts and community colleges to make payments to the State sufficient to make the Lease Payments. The Lease Payments are subject to annual appropriation and are not a full faith and credit obligation of the State. The Commission has authorized the State, through the Department of Finance and Administration, to enter into School Leases and Community

College Leases in an amount not to exceed \$50,000,000 to be outstanding at any one time. There was an outstanding balance under the School Leases at May 31, 2017 of \$3,668,790.42 and an outstanding balance under the Community College Leases of \$62,460.39.

## **Certificates of Participation**

Sections 47-5-1201 *et seq.*, Mississippi Code of 1972, as amended and supplemented, created the State Prison Emergency Construction and Management Board (the "SPECM Board") for the purpose of expediting the contracting and construction of public and private prison facilities in the State and the removal of State inmates from county jails. The SPECM Board entered into a Lease and Option to Purchase by and between the Marshall County Correctional Facilities Financing Corporation (the "Marshall County Lease"), as lessor, and the State, as lessee, in the principal amount of \$24,215,000, on June 1, 1995 to finance the construction and equipping of a 1,000-bed correctional facility to be located in Marshall County. In connection with the refunding of the outstanding amounts under the Marshall County Lease, the Marshall County Lease has been amended and restated and assigned to secure the payment of the \$18,575,000 Mississippi Development Bank Special Taxable Obligation Bonds, Series 2010A (MDOC – Marshall County Correctional Facility Refunding Bonds Project), dated May 21, 2010. The Marshall County Lease currently expires on August 1, 2018.

Section 47-5-941 of the Mississippi Code of 1972, as amended and supplemented, authorizes the Wilkinson County Industrial Development Authority (the "Wilkinson Authority") to contract with the Mississippi Department of Corrections ("MDOC"), acting for and on behalf of the State, for the private incarceration of inmates of the State. The Wilkinson Authority entered into a Lease-Purchase Agreement, dated as of December 1, 1996, with MDOC (the "Wilkinson County Lease") in the principal amount of \$31,435,000 to finance the construction of a 500-bed correctional facility to be located in Wilkinson County, which facility presently has 1,000 beds as a result of a subsequent expansion. In connection with the refunding of the outstanding amounts under the Wilkinson County Lease, the Wilkinson County Lease has been amended and restated and assigned to secure the payment of the \$20,100,000 Mississippi Development Bank Special Taxable Obligation Bonds, Series 2010B (MDOC - Wilkinson County Correctional Facility Refunding Bonds Project), dated May 21, 2010. The Wilkinson County Lease currently expires on August 1, 2021.

House Bill 1719, Local and Private Laws of the 1996 Regular Session of the Mississippi Legislature authorized the Board of Supervisors of Lauderdale County, Mississippi to create the East Mississippi Correctional Facility Authority (the "East Mississippi Authority") for the purpose of contracting with MDOC for the private incarceration of inmates of the State. The East Mississippi Authority entered into a Lease-Purchase Agreement, dated as of December 15, 1997, with MDOC (the "East Mississippi Lease") in the principal amount of \$34,520,000 to finance the construction of a 500-cell correctional facility to be located in Lauderdale County. In 2007, the East Mississippi Lease was amended to cover a 500-cell expansion of the facility and bonds were issued in the principal amount of \$39,000,000 to finance such expansion. In connection with the refunding of the outstanding amounts under the East Mississippi Lease, the East Mississippi Lease has been amended and restated and assigned to secure the payment of the (a) \$68,830,000 (original aggregate principal amount) Mississippi Development Bank Special Obligation Bonds, Series 2010D (MDOC - East Mississippi Correctional Facility Refunding Bonds Project), dated July 20, 2010, (b) \$26,685,000 (original aggregate principal amount) Mississippi Development Bank Special Obligation Bonds, Series 2016C (Mississippi Department of Corrections East Mississippi Correctional Facility Refunding Bond Project), dated July 29, 2016, and (c) \$20.340,000 (original aggregate principal amount) Mississippi Development Bank Taxable Special Obligation Bonds, Series 2016D (Mississippi Department of Corrections East Mississippi Correctional Facility Refunding Bond Project), dated July 29, 2016. The East Mississippi Lease currently expires on August 1, 2027.

House Bill 1878, Local and Private Laws of the 1998 Regular Session of the Mississippi Legislature authorized the Town of Walnut Grove to create the Walnut Grove Correctional Authority (the "Walnut Grove Authority") for the purpose of contracting with MDOC for the private incarceration of inmates of the State. The Walnut Grove Authority entered into a Lease-Purchase Agreement, dated as of November 1, 1999, with MDOC (the "Walnut Grove Lease") in the principal amount of \$41,420,000 to finance the construction of a 1000-bed correctional facility (the "Walnut Grove Facility") to be located in the Town of Walnut Grove. In 2007, the Walnut Grove Lease was amended to cover a 500 cell expansion of the Walnut Grove Facility and bonds were issued in the principal amount of \$40,000,000 to finance such expansion. In connection with the refunding of the outstanding amounts under the Walnut Grove Lease, the Walnut Grove Lease has been amended and restated and assigned to secure the payment of the (a) \$93,580,000 (original aggregate principal amount) Mississippi Development Bank Special Obligation Bonds, Series 2010C (Mississippi Department of Corrections Walnut Grove Correctional Facility Refunding Bonds Project), dated July 20, 2010, (b) \$34,995,000 (original

aggregate principal amount) Mississippi Development Bank Special Obligation Bonds, Series 2017A (Mississippi Department of Corrections Walnut Grove Correctional Facility Refunding Project), dated July 29, 2016 and (c) \$26,235,000 (original aggregate principal amount) Mississippi Development Bank Taxable Special Obligation Bonds, Series 2016B (Mississippi Department of Corrections Walnut Grove Correctional Facility Refunding Project), dated July 29, 2016. The Walnut Grove Lease currently expires on August 1, 2027. On June 10, 2016, MDOC notified the Walnut Grove Authority of the termination of the residential services agreement between MDOC and the Walnut Grove Authority providing for the housing of inmates at the Walnut Grove Facility, effective on September 15, 2016. MDOC ceased housing inmates at the Walnut Grove Facility on September 15, 2016 and such facility was shut down. The closure of the Walnut Grove Facility did not terminate the Walnut Grove Lease or the obligation of the State to make rental payments under the Walnut Grove Lease.

The obligations of the State to make rental payments under the Marshall County Lease, the Wilkinson County Lease, the East Mississippi Lease, and the Walnut Grove Lease are subject to annual appropriation and do not constitute general obligations or a pledge of the full faith and credit of the State or any political subdivision or agency thereof within the meaning of any constitutional or statutory provision or limitation.

#### **Debt Limitation**

Section 115, Paragraph 2 of the Mississippi Constitution of 1890 provides:

"Neither the State nor any of its direct agencies, excluding the political subdivisions and other local districts, shall incur a bonded indebtedness in excess of one and one-half (1½) times the sum of all the revenue collected by it for all purposes during any one of the preceding four fiscal years, whichever year might be higher."

In accordance with current practice and interpretation, revenues included in the foregoing debt limitation are restricted to the following General Fund revenues and Special Fund receipts: taxes; license fees and permits; investment income and rents; service charges, including net income from the Alcoholic Beverage Control Division; and fines, forfeitures and penalties. As of May 1, 2017, the State's Gross Debt was \$4,343,770,000. The following table shows the State's constitutional debt limit for the previous ten years and forecasts the State's constitutional debt limit for fiscal year 2017 and the next three fiscal years.

Fiscal Year Ending June 30	$Revenues^{(1)}$	Constitutional Debt Limit	Outstanding Gross Debt
2007	\$8,006,244,243	\$10,930,261,350	\$3,140,150,000
2008	8,295,079,853	12,009,366,365	3,365,750,000
2009	7,960,861,538	12,451,109,180	3,426,630,000
2010	7,698,390,482	12,451,109,180	3,480,067,000
2011	7,956,269,318	12,451,109,180	3,780,490,000
2012	8,336,735,857	12,451,109,180	4,131,465,000
2013	8,549,281,153	12,505,103,786	4,063,805,000
2014	8,874,795,859	12,823,921,730	4,150,775,000

## Annual Debt Service Requirements on Net Direct General Obligation Bonded Debt

The following table shows the annual debt service requirements on the State's Net Direct Debt as of May 1, 2017.

Fiscal Year Ending June 30	$\mathbf{Principal^{(1)(2)}}$	$\mathbf{Interest}^{(1)(2)(3)}$	$\begin{array}{c} \textbf{Total Annual} \\ \textbf{Debt Service}^{(1)(2)(3)} \end{array}$
2017	\$ 6,005,000	\$ 12,071,885	\$ 18,076,885
2018	434,390,000	173,429,337	607,819,337
2019	268,520,000	158,354,485	426,874,485
2020	240,515,000	148,836,988	389,351,988
2021	229,960,000	139,792,640	369,752,640
2022	222,365,000	130,902,385	353,267,385
2023	216,785,000	122,419,187	339,204,187
2024	205,740,000	114,199,278	319,939,278
2025	198,525,000	105,859,508	304,384,508
2026	206,595,000	97,056,845	303,651,845
2027	193,475,000	87,989,157	281,464,157
2028	192,465,000	78,713,626	271,178,626
2029	178,245,000	69,467,829	247,712,829
2030	179,580,000	60,579,232	240,159,232
2031	164,515,000	52,319,030	216,834,030
2032	213,205,000	43,683,381	256,888,381
2033	203,970,000	34,124,572	238,094,572
2034	200,370,000	24,351,929	224,721,929
2035	182,845,000	14,776,977	197,621,977
2036	143,980,000	6,729,026	150,709,026
2037	65,125,000	1,625,700	66,750,700
TOTAL	\$4,147,175,000	\$1,677,282,999	\$ <u>5,824,457,999</u>

<sup>(1)</sup> Of the principal amounts outstanding, \$161,255,000 is currently outstanding as floating rate notes with a maturity date in fiscal year 2018. At that time, the State intends to either refinance the notes or convert the balance to fixed rate bonds. The interest due on the floating rate notes is indeterminable at this time and is not reflected in this table.

## **Revenue Bonds**

On October 22, 2015 the State issued its \$200,000,000 Gaming Tax Revenue Bonds, Series 2015E (the "Series 2015E Bonds") to provide funds to the State to finance the costs of the repair, rehabilitation, replacement, construction and/or reconstruction of State maintained bridges within the State. The Series 2015E Bonds are limited obligations of the State and payable from all or a portion of the Dedicated Gaming Tax Revenue (which is defined for purposes of the Series 2015E Bonds as the first \$3,000,000.00 of all taxes, fees, interest, penalties, damages, fines or other monies collected monthly by the Mississippi Department of Revenue in accordance with Section 75-76-177(c), Mississippi Code (1972), as amended, in connection with all gaming operations in the State). The full faith and credit of the State is not pledged for the repayment of the Series 2015E Bonds.

<sup>(2)</sup> Does not include the effect of the Series 2017A Bonds.

<sup>(3)</sup> These amounts do not include any subsidy payments due to the State from the United States Treasury pursuant to and in accordance with Section 1531 of the Title 1 of Division B of the American Recovery and Reinvestment Act of 2009 (Pub. L. No. 111-5, 123 Stat. 115 (2009)) (the "Recovery and Reinvestment Act") and Sections 54AA(g) and 6431 of the Code (as defined herein). Pursuant to the requirements of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, refund payments to certain state and local government filers claiming refundable credits under Section 6431 of the Code applicable to certain qualified bonds are subject to sequestration. The IRS Office of Tax Exempt Bonds (TEB) has announced that the sequester reduction percentage for payments to issuers of direct pay bonds for FY 2015 will be 7.3%. The reduction rate will be applied unless and until a law is enacted that cancels or otherwise impacts the sequester, at which time the sequestration reduction rate is subject to change. The State has made arrangements to pay the additional debt service on bonds issued under the Recovery and Reinvestment Act.

## **Moral Obligation Bonds**

The Mississippi Development Bank (the "Development Bank"), a body corporate and politic of the State, issues various series of Mississippi Development Bank Special Obligation Bonds (the "Development Bank Bonds") which may carry a pledge of the moral obligation of the State. The Development Bank Bonds are issued pursuant to the terms and provisions of Sections 31-25-1 et seq., Mississippi Code of 1972, as amended and supplemented (the "Bank Act"), to provide financing for governmental projects of political subdivisions of the State. The Bank Act provides that, in order to assure the maintenance of the debt service reserve requirement in a debt service reserve fund for certain Development Bank Bonds carrying the moral obligation pledge of the State, the Legislature of the State may, but is not obligated to, appropriate to the Development Bank for deposit in any such debt service reserve fund such sum as necessary to restore such debt service reserve fund to the debt service reserve requirement. As required by the Bank Act, any such amount must be certified by the Development Bank on or before January 1 of any year to the Governor of the State and then as required by the Bank Act transmitted by a request from the Governor to the Legislature of the State.

Nothing in these provisions or any other provision of the Bank Act creates a debt or liability of the State to make any payments or appropriations to or for the use of the Development Bank or in connection with any Development Bank Bonds. There is no assurance under the Bank Act (a) that the request by the Governor transmitted to the Legislature of the State, stating the amount of a deficiency in any debt service reserve fund, would be taken up for consideration by the Legislature of the State, (b) that upon consideration of any such request, the Legislature would determine to appropriate funds to reduce or eliminate such deficiency, or (c) that in the event the Legislature determined to make such an appropriation, the amounts thus appropriated would be forthcoming as of any particular date. As of the date hereof, no such request has been made by the Development Bank to fund any debt service reserve fund on Development Bank Bonds carrying the State's moral obligation pledge.

As of May 1, 2017, the Development Bank Bonds outstanding carrying a moral obligation pledge of the State totaled \$404,480,000. Except for these Development Bank Bonds, no bonds of the State are outstanding as of the date of this Official Statement which carry a pledge of the moral obligation of the State or which contemplate the appropriation by the Legislature of any amount as may be necessary to make up any deficiency in any debt service reserve fund in connection with indebtedness issued by or on behalf of a political subdivision of the State.

#### Record of No Default

Except as set forth below, there has been no default on general obligations of the State as to payment of either principal or interest during the last 100 years.

On May 3, 2017, the State gave notice of the optional call, on June 5, 2017, of \$75,000 principal amount of its State of Mississippi General Obligation Bonds (Mississippi Small Enterprise Development Finance Act Issue 2003 Series A through C) (the "Series 2003 Bonds"). As a result of a clerical error by the State and its paying agent, the payment of the principal and interest on that portion of the Series 2003 Bonds was not made until June 7, 2017. The State has taken action to ensure that such an error will not occur in the future.

## **Annual Debt Service Requirements**

Annual debt service requirements for the Series 2017A Bonds are set forth on page A-1 in APPENDIX A hereto.

## FISCAL OPERATIONS OF THE STATE

## The Budgetary Process

Capital Improvement Budget. Beginning in mid-spring, the Office of Building, Grounds and Real Property Management performs on-site visits, tours and inspects every State building, facility and campus, noting problems and seeing first-hand the requested and necessary projects. The projects are placed into priority guidelines as to the projects (i) preserving and improving the quality of human life, (ii) protecting existing capital investment, (iii) supporting education to compete in the global economy, (iv) providing resources to maintain or gain specific accreditations, and (v) maximizing the State's fiscal opportunities. After consideration, these projects are included in a five-year capital improvement plan and presented to the

Legislature for consideration. Funding is requested for a single year, with projections for the succeeding four years presented for informational purposes only.

Operating Budget Preparation. The State operates on a fiscal year beginning July 1 and ending June 30. The budget cycle begins on or about August 1 when all State agencies and institutions requesting appropriations submit budget requests to the Governor's Budget Office and the Legislative Budget Office. Agencies justify their requested budget in hearings held during September and October. At the close of the hearings, the Governor's Budget Office and the Legislative Budget Office receive information prepared by the State Department of Revenue, the University Research Center and the respective budget staffs regarding the financial outlook for the upcoming fiscal year. Based on this information, the budget offices adopt a consensus revenue estimate. This action enables both branches to use the same revenue estimate as the basis for their budget recommendations. It is a statutory requirement that both the Governor and Legislature submit balanced budgets for consideration. The Executive Budget is prepared and submitted to the Legislature by November 15, except that every four years after a statewide election, the Executive Budget is prepared and submitted to the Legislature by January 15. The Legislative Budget is submitted to the Legislature at its regular session, which begins on the first Tuesday after the first Monday in January of each year. At the close of each annual regular session, the Legislature will have acted on approximately 150 separate appropriation bills that constitute the budget for the upcoming year beginning July 1. All General Fund, Education Enhancement Fund and most Special Fund expenditures are appropriated annually by the Legislature and those Special Funds that are not appropriated are subject to the approval of the Department of Finance and Administration.

**Revenue Projections.** Five independently derived projections form the basis of the State's official revenue forecast. The Department of Revenue, the Legislative Budget Office, the Office of the State Treasurer, the Department of Finance and Administration and the University Research Center present and discuss their initial revenue forecasts and reach a consensus projection. This process is carried out for each major revenue category. Estimating techniques consist of econometric modeling and various forms of extrapolation.

Each October, the revenue estimate for the next fiscal year is finalized and presented to the Joint Legislative Budget Committee and the Governor's Budget Office. The estimate may be revised if circumstances warrant upon a consensus being reached by the five revenue-estimating agencies. If revenues fall short of projections, the Department of Finance and Administration is empowered to directly cut expenditures. All State agencies receiving general and/or special funds are subject to funding reductions of up to 5%. No agency receives a cut in excess of 5% unless all have been reduced by this percentage. Tax collections for fiscal year 2014 exceeded expectations in excess of \$252 million or 5.1%. Tax collections for fiscal year 2015 exceeded expectations in the amount of \$25 million or .05%. Tax collections for fiscal year 2016 were less than expectations in an amount of \$207 million or -3.71%. For fiscal year 2017, tax collections have been less than expectations in an amount of \$154 million or -3.18% through May 2017.

If at any time during a fiscal year, the revenues received for that year fall below 98% of the Legislative Budget Office's General Fund revenue estimate, the Department of Finance and Administration, State Fiscal Officer may at any time but shall after October or any month thereafter, reduce allocations to all State agencies to keep expenditures within the actual General Fund receipts including any transfers, which may be made from the Working Cash-Stabilization Fund. Transfers from the Working Cash-Stabilization fund may not exceed \$50.0 million in any fiscal year. Senate Bill 2001 of the Second Extraordinary Session of the 2016 State Legislature removed the \$50.0 million limitation for fiscal year 2016. Senate Bill 2649 of the 2017 Regular Legislative Session provided not more than \$100 million may be transferred in fiscal year 2017.

Budget Implementation. The second phase of the budget process is the implementation of the budget based on the Legislature's appropriation bills. The establishment of any State agency's expenditure authority is a function of the Executive Director of the Department of Finance and Administration (the "Executive Director"). The Executive Director sets two six-month expenditure allotments based on seven major expenditure categories and their funding sources. These initial allotments must be approved by the Executive Director prior to July 1 of each fiscal year.

**Budget and Accounting Controls.** Based on the budget implemented by the Department of Finance and Administration, the Bureau of Financial Control pre-audits all invoices and supporting documents and issues warrants for payment of the legal debts of the State. No agency is allowed to exceed either the total fund allotment or major expenditure category allotment as established by the Executive Director. All payments

made through the Bureau of Financial Control, except those classified as personal services and utilities, must have an approved encumbrance or purchase order on file and are charged against the allotment.

The Department of Finance and Administration has the authority to make limited revisions to agency budgets during the course of the fiscal year in the form of transfers and escalations. If an agency has a line item budget, transfers from one major object of expenditure to another major object of expenditure are limited to a maximum increase of 10% of the receiving major object of expenditure; transfer authority is not applicable to the salary category or to an increase in the equipment category. If an agency has a lump sum appropriation, transfers are not limited. Escalation authority applies to Special Funds only if funded with 100% federal funds. An escalation of nonfederal funds may be made if allowed within the appropriation bill for such requesting agency.

The Department of Finance and Administration maintains a dual fiscal management system, in that control is exercised over the total State budget as well as individual agency budgets. The Department of Finance and Administration may restrict, in its discretion, an agency to monthly allotments when it becomes evident that an agency's rate of expenditure will deplete its appropriation prior to the close of the fiscal year. In addition, should revenue collections fall below the amount estimated for collection during that period of the fiscal year, the Department of Finance and Administration may reduce allocations to all agencies in an amount necessary to keep expenditures within actual General Fund receipts. If it is determined that a deficit in revenues may occur in the General Fund at the end of a fiscal year, the Executive Director shall direct the transfer of such funds as necessary but not more than \$50.0 million from the Working Cash-Stabilization Fund to the General Fund. For fiscal year 2017, the State Legislature provided that not more than \$100 million may be transferred. Should any unexpended Special Fund cash balance exist at the end of a fiscal year, the balance may be retained for use by the respective agency in its accounts with the State Treasurer unless otherwise specified by law.

The State Department of Audit is responsible for and performs a post audit of all public entities under the jurisdiction of the State Auditor and investigates exceptions to spending practices discovered during the audit process. The State Department of Audit has the authority to recover any funds found to have been spent illegally.

## **GAAP Accounting**

The State prepares its Comprehensive Annual Financial Report of the State ("CAFR") in accordance with Section 27-104-4, Mississippi Code of 1972, as amended and supplemented. The CAFR presents information on the financial position and operations of State government as one reporting entity. The various agencies, departments, boards, commissions and funds of State government, which constitute the State reporting entity, are governed by criteria established by the Governmental Accounting Standards Board. This Official Statement also includes financial data that was not prepared according to CAFR specifications but on a budgetary basis. The audited general purpose financial statements of the State for the fiscal year ended June 30, 2016, prepared in accordance with Generally Accepted Accounting Principles ("GAAP"), are presented in this Official Statement as APPENDIX B. The Government Finance Officers Association of the United States and Canada (the "GFOA") has awarded a Certificate of Achievement for Excellence in Financial Reporting to the State for its CAFR for the fiscal years ended June 30, 1987 through 2015 which is the highest form of recognition in the area of governmental financial reporting.

## **Investment and Cash Management**

The State Treasurer is custodian of all State funds including all cash in the General Fund, Education Enhancement Fund and all Special Funds and is responsible for the investment of all such monies. The State Treasurer serves as custodian for securities, which are pledged to the State to secure deposits of State funds, and for other securities, which are held by various State agencies in accordance with specific State statutes.

As revenues are received from various agencies, they are deposited, and funds not immediately needed for payment are invested in interest-bearing demand accounts and then are normally placed into longer-term investments. Funds of the State invested in certificates of deposit with Mississippi financial institutions are fully collateralized by authorized United States of America and State obligations for amounts in excess of the FDIC coverage. Fiscal records of receipts, deposits and disbursements of all State funds, including federal funds received by the State, are maintained in the State Treasury as well as detailed and current records of the

State's bonded indebtedness. All payments of State-obligated bonds and interest due are made by the State Treasurer.

Pursuant to Section 27-105-33, Mississippi Code of 1972, as amended and supplemented, it is the duty of the State Treasurer and the Executive Director of the Department of Finance and Administration on or before the tenth day of each month and at any other time when necessary to analyze the amount of cash in the State's General Fund and in the Special Funds credited to any special purpose designated by the Legislature. They also must determine when the cash in such funds is in excess of the amount needed to meet the current needs and demands on such funds for the next seven days and report the findings to the Governor. The State Treasurer's Office is directed to invest such excess funds in certificates of deposit, United States Treasury Obligations, United States Government agency obligations or in direct security repurchase agreements with approved depositories of the State at a rate of interest numerically equal to the bond equivalent yield on direct obligations of the United States Treasury with a similar length of maturity.

#### **Accounting Systems**

Through June 30, 2014, the State operated a Statewide Automated Accounting System ("SAAS"), a comprehensive financial management system that met all GAAP, State budget and other financial management reporting requirements.

As of July 1, 2014, the State implemented a new system known as MAGIC (Mississippi's Accountability System for Government Information and Collaboration), an Enterprise Resource Planning (ERP) software to implement Financial, Procurement, Human Resource, and Payroll functions into a single, integrated software system. MAGIC has met new functional and data requirements; reduces inefficiencies and costs associated with multiple stand-alone systems at the statewide and agency levels; maintains enterprise data on a consistent, "real-time" basis; replaces aging, incompatible technology; and uses state of the art technology based on best business practices. Once MAGIC is fully implemented, it will replace the following legacy systems: SPAHRS (Statewide Payroll and Human Resource System) and ACE (Access Channel for Employees). All other systems utilized by the State prior to the implementation of MAGIC has been discontinued including SAAS (Statewide Automated Accounting Systems); WebProcure; MERLIN (Mississippi Executive Resource Library and Information Network); MELMS (Mississippi Enterprise Learning Management System); and PATS (Project Accounting and Tracking System).

Through the use of various funds, the Office of Fiscal Management of the Department of Finance and Administration accounts for operations of the State on a modified cash basis for budgetary purposes and on the modified accrual basis for GAAP purposes.

## Overview of State Funds

The accompanying tables present a summary of receipts, disbursements and beginning and ending cash balances of the General Fund, Education Enhancement Fund and Special Funds.

Receipts and disbursements of the General Fund and Special Funds, as shown in the tables, may differ substantially from budgetary resources and appropriations for a number of reasons, including the following:

- (a) Capital improvements authorized in a given fiscal year's budget may require several years to complete, so that the amounts appropriated for capital improvements in a particular fiscal year do not necessarily correspond to actual disbursements for capital improvements in that fiscal year. In such cases, unused money is reappropriated each fiscal year; and
- (b) Appropriations by the Legislature for current purposes in a particular fiscal year constitute an authorization to spend up to a certain amount, but no more. In most cases, the amount actually disbursed will be below that limit.

The General Fund. Revenues of the State for general operating purposes are derived principally from sales, income and use taxes, gaming taxes and fees, plus smaller amounts from other taxes, profits from wholesale sales of alcoholic beverages, interest earned on investments, proceeds from sales of various supplies and services, service charges and license fees. For the fiscal year ended June 30, 2016, sales taxes accounted for 37.4%, individual income taxes for 32.1% and corporation income and franchise taxes for 10.8% of the total receipts allocated to the General Fund. A comparison of the amounts received by the various revenue sources

(budgetary basis) of the General Fund is detailed in the Revenues section of the accompanying table entitled "STATE OF MISSISSIPPI GENERAL FUND - Results of Operations - Budgetary Basis."

The General Fund appropriation is limited to 98% of the official revenue estimate and estimated prior fiscal year ending cash balance; unless waived by an act of the State Legislature. The 2015 State Legislature waived this rule for fiscal year 2016 and appropriated 100% of the revenue estimate pursuant to House Bill 434. The 2016 State Legislature waived this rule for fiscal year 2017 and appropriated 100% of the revenue estimate. The 2017 State Legislature waived this rule for fiscal year 2018 and appropriated 99% of the revenue estimate. For the fiscal year ending June 30, 2016, appropriation for educational purposes accounts for 54% of the General Fund Budget. This includes State contributions to local school and community college districts. However, this percentage does not include certain State contributions such as maintenance funds for local school districts, shared taxes or local assistance. Other principal disbursements include costs related to welfare, public health, health care and hospitals and certain State operations. General Fund (budgetary basis) expenditures are detailed in the Disbursements section of the accompanying table entitled "STATE OF MISSISSIPPI GENERAL FUND - Results of Operations - Budgetary Basis."

The General Fund, as shown in the 2016 financial statements in APPENDIX B, is defined in Note 1 of the Notes to the Financial Statements on Significant Accounting Policies. The 2016 financial statements as set forth in APPENDIX B reflect all funds of the State, not just those that are budgeted.

At each fiscal year end, the General Fund unencumbered cash balance is distributed in the following order: (1) an amount not to exceed \$750,000 to the Municipal Revolving Loan Fund; (2) an amount equal to 50% of the remaining balance, not to exceed 10% of the General Fund appropriations for the fiscal year that the unencumbered balance represents, to the Working Cash Stabilization Reserve Fund; and (3) any remaining amount to the Capital Expense Fund.

As of April 30, 2017, the Working Cash Stabilization Fund had a fund balance of \$290,769,599.43.

State of Mississippi General Fund Results of Operations-Budget Basis for Fiscal Year Ended June 30 (In Thousands)

<sup>(1)</sup> Public Education reflects all educational activities.

Source: Department of Finance and Administration.

*Education Enhancement Fund.* Of the total sales tax revenue collected, \$1,666,666 each month is paid into the State Public School Building Fund, 2.266% to be credited to the School Ad Valorem Tax Reduction Fund, 9.073% to the Education Enhancement Fund, 18.5% to be allocated to the municipality in which the funds were collected and the remainder to the General Fund.

Of the amount credited to the Education Enhancement Fund, \$16 million is to be appropriated to all of the school districts in proportion to attendance, 34.19% must be appropriated for textbooks, educational materials, transportation and maintenance, uniform millage assistance and instructional and computer software, 22.09% for the purpose of supporting institutions of higher learning and 14.41% for the purpose of providing support to community and junior colleges. Of the remaining balance, \$25 million is to be credited to the Working Cash-Stabilization Fund until the balance reaches the maximum of 10% of the General Fund appropriation for that fiscal year and the remaining balance to remain in the Education Enhancement Fund for appropriation for other educational needs.

#### Special Funds

*General.* The major sources of Special Fund receipts are federal grants-in-aid and diversion of State taxes for special purposes. Special Fund receipts are not estimated on a statewide basis. Expenditures are limited by the receipt of revenues. A portion of both motor vehicle privilege taxes and motor fuel excise taxes is deposited to a special fund for highway construction, and the balance of the privilege and excise tax collections is diverted to counties and municipalities.

For the fiscal year ended June 30, 2016, Special Funds received approximately \$6,753.2 million from the federal government which includes \$680.9 million for public education and \$496.1 million for highways. In addition, State tax receipts of \$1,466.6 million were diverted into Special Funds for particular purposes as provided by State law.

*Health Care Trust Fund.* The Health Care Trust Fund (the "Health Care Trust Fund") is a special fund established pursuant to 43-13-401 et seq., Mississippi Code of 1972, as amended and supplemented, for the deposit of funds received by the State as a result of the national tobacco litigation settlement. The Mississippi Legislature declared that such funds received by the State should be applied toward improving the health and health care of the citizens and residents of the State.

The Health Care Trust Fund began fiscal year 2000 with a balance of \$280,000,000. All subsequent tobacco settlement annual payments were to be deposited into the Health Care Trust Fund. Each year, a specified amount of funds from the Health Care Trust Fund are transferred to the "Health Care Expendable Fund", and those funds are available for expenditure by appropriation of the Legislature exclusively for health care purposes. If the interest and dividends from the investment of the Health Care Trust Fund are insufficient to fund the transfer to the Health Care Expendable Fund, the State Treasurer will transfer from the annual installment payment an amount sufficient to fully fund the transfer as required.

The 2011 Mississippi Legislature further amended the law and required annual transfers from the Health Care Trust Fund to the Health Care Expendable Fund for appropriation for health care needs. The annual transfer provided in the law is as follows:

Fiscal Year	<b>Annual Transfer</b>		
2006	\$186,000,000		
2007	186,000,000		
2008	106,000,000		
2009	92,254,000		
2010	112,000,000		
2011	112,000,000		
2012	56,263,438		
2013	97,450,332		
2014	23,100,000		
2015	3,055,564		
2016	18,762		

Source: Department of Finance and Administration.

A board of directors, consisting of thirteen members, is statutorily responsible for investing the funds in the Health Care Trust Fund and the Health Care Expendable Fund. The board voted in May 2010 to discontinue meeting regularly since the assets were being gradually liquidated to satisfy the appropriations approved by the State Legislature. Upon receipt of the annual tobacco settlement payments on December 31, 2015 and in April 2016, the combined balance of both payments was transferred into the Expendable Fund by the end of fiscal year 2016. Future payments from the annual tobacco settlement will be transferred directly into the Expendable Fund.

Mississippi Prepaid Affordable College Tuition Fund. The Mississippi Prepaid Affordable College Tuition ("MPACT") program is a trust fund managed for the payment of tuition as required by contracts between the State and purchasers of the contracts. Monies received from purchasers of the MPACT contracts provide some of the cash flow used to satisfy the payment of benefits to institutions of higher learning on behalf of matriculating students. In addition to the payments received from the purchasers of MPACT contracts, the program is also funded in part from the dividends, interest and gains from the assets under management. The MPACT fund is managed within an actuarial framework, so the fund does have a target rate of return in order to grow the fund to a size that will be able to accommodate future obligations. All MPACT contracts carry the full faith and credit of the State. The relevant statute governing the MPACT Fund is Section 37-155-1 to Section 37-155-27, Mississippi Code of 1972, as amended and supplemented.

The MPACT Fund is overseen by the College Savings Plans of Mississippi Board of Directors (the "Board") of which the State Treasurer serves as Chairman. Any action taken with regard to the investments of the funds, including changes in investment management, investment policy, asset allocation, etc., must be approved by the Board.

On August 23, 2012, the Board voted to defer the 2012 enrollment effective September 1, 2012 and contract for the performance of an actuarial audit. Results of the audit were communicated to the Board at its April 30, 2013 Board meeting. Over the following 18 months, the Board held numerous planning sessions to review and approve changes to the program and the actuarial funding assumptions. The program reopened for enrollment on October 1, 2014. Utilizing the revised actuarial assumptions, as of June 30, 2016, the MPACT Fund-Legacy Plan had \$306.1 million in assets under management with a funded status of 72.1%. The value of expected liabilities of the trust exceeded the value of the assets, including the value of future payments by contract holders, by \$126.5 million. As of June 30, 2016, the MPACT Fund-Horizon Plan had \$16.8 million in assets under management with a funded status of 117.2%. The value of assets of the trust exceeded the value of the expected liabilities, including the value of future payments by contract holders, by \$4.2 million. The liability amounts are based on actuarial assumptions approved by the Board.

**Budget Contingency Fund.** The Budget Contingency Fund is a special fund created by the Legislature to handle non-recurring budget shortfalls. During the 2016 legislative session, the Legislature directed the initial \$150 million deposit of the BP Litigation Settlement to the Budget Contingency Fund, and

appropriated \$42.5 million to various coastal projects. The \$150 million settlement payment was received in early fiscal year 2017. At the end of fiscal year 2017, it is projected that the fund balance will be \$108,550,000.

*Education Improvement Trust Fund*. The Education Improvement Trust Fund is legally restricted to the extent that only earnings, and not principal, may be used for the purpose of educating elementary and secondary school students and for vocational training in the State. As of April 30, 2017, the Education Improvement Trust Fund had a balance of \$48,422,209.86.

## Potential Claims Related to Federal Grants

The State is aware of several potential claims against the State by federal agencies for the reimbursement of certain federal grant monies. The State believes that the maximum aggregate exposure for the repayment of these grants, if any, will not exceed \$104,000,000. The State is in the process of gathering information which it believes will mitigate this exposure to the federal government.

#### DESCRIPTION OF STATE TAXES

State operations are funded by General Fund revenues, Education Enhancement Fund revenues and Special Fund receipts. Mississippi's tax base receives its major support from general sales and use taxes, personal income taxes, corporate income and franchise taxes, petroleum excise taxes, motor vehicle privilege taxes, insurance premium taxes and excise levies on tobacco and alcohol. The major sources of General Fund revenues are sales and use taxes, personal income taxes and corporate income and franchise taxes.

Sales Taxes. Sales taxes are imposed at a general tax rate of 7% (see "FISCAL OPERATIONS OF THE STATE - Education Enhancement Fund" herein). The State returns to the municipalities 18.5% of the retail sales tax collected within each municipality. Major exemptions from the sales tax include: (i) sales to governments; (ii) sales of raw materials to manufacturers, large vessels, barges and rail rolling stock; (iii) sales of livestock; (iv) sales of property for foreign export; (v) sales of seed, feed, fertilizer and agricultural chemicals; (vi) sales of farm products by a producer, except when sold by a producer through a regular place of business; (vii) sales of certain utility services for residential, industrial and farm use; (viii) sales of motor fuel; (ix) sales of food purchased with food stamps; (x) sales to non-profit hospitals and infirmaries; (xi) sales of newspapers; and (xii) sales of prescription drugs and medicines. The tax rate for construction contracts exceeding \$10,000, except residential construction, is 3.5%. The tax rate for the sale of automobiles, light trucks and motor homes is 5%.

The tax rate for the sale of aircraft, semi-trailers and mobile homes is 3%. The tax rate for the sale of manufacturing machinery and equipment, farm implement and farm tractors is 1.5%. Sales to electric power associations are taxed at 1%.

*Use Taxes.* Use taxes are imposed at the same rate as sales taxes on personal property from out-of-state sources for use, consumption or storage in the State. Credit is allowed for taxes paid to another state if the property has been used in another state prior to being brought into the State for use. Exemptions for use taxes are the same as those for sales taxes.

Personal Income Taxes. Personal income taxes are imposed at a rate of 3% on the first \$5,000 of taxable income, 4% on the second \$5,000 and 5% on the remainder. Single taxpayers are allowed a \$6,000 exemption. Married taxpayers are allowed a \$12,000 joint exemption. Heads of household taxpayers with one or more dependents living in the home are allowed an \$8,000 exemption. The exemption for each dependent is \$1,500, plus an additional \$1,500 exemption for taxpayers who are blind or over age 65. The Mississippi Taxpayer Pay Raise Act of 2016 (the "Taxpayer Pay Raise Act") passed during the 2016 Legislative Session will gradually eliminate the 3% tax bracket. Under the current plan, \$1,000 of the first \$5,000 of taxable income would be exempted in 2018, with another \$1000 each year until the bracket is phased out by 2022.

Corporate Income and Franchise Taxes. Franchise taxes are currently imposed at a rate of \$2.50 per \$1,000 of capital employed in the State. The Taxpayer Pay Raise Act will gradually eliminate the franchise tax. Beginning in 2018, the first \$100,000 of taxable capital will be exempt from the franchise tax. In 2019, the tax cut reduces the rate by 25 cents every year until the franchise tax is fully repealed by January 1, 2028. Certain nonprofit and not-for-profit organizations are exempt from corporate income taxes and franchise taxes, such as (i) religious, charitable, educational and scientific associations and institutions; (ii) business leagues, labor organizations, chambers of commerce; (iii) civic leagues and social clubs operated for promotion of social welfare; (iv) non-profit agricultural associations such as farmers' or fruit growers' cooperatives; and (v) non-profit cooperative electric power associations. A small business corporation having a valid election in effect under Subchapter S of the Code is exempt from State income tax, except for that portion of income that might be allocable to shares of stock owned by nonresidents of the State.

Gaming Taxes and Fees. Gaming taxes and fees are imposed on gaming establishment gross revenue at a rate of 4% on the first \$50,000 per month, 6% of the next \$84,000 per month and 8% of all over \$134,000 per month.

Other Taxes. The Department of Revenue also collects other taxes that provide significant amounts of revenue. The tobacco tax is imposed on sales of all tobacco products in the State, including cigarettes, which are taxed at 68 cents per package of 20 cigarettes, all other tobacco products are taxed at 15% of the manufacturer's list price. Other taxes include gas and oil severance, beer excise, insurance premium, and finance company privilege taxes.

The Alcoholic Beverage Control Division of the Department of Revenue that controls the sale and consumption of distilled spirits and wine contributes to the General Fund through the collection of State excise taxes, markups, permit license fees (one half goes to the city or county where the permittee is located), permit application fees and interest earned on demand deposits.

## RETIREMENT SYSTEM

In accordance with State statutes, the Public Employees' Retirement System (the "System") Board of Trustees (the "Board of Trustees") administers 24 programs and plans, including 22 defined benefit plans and two defined contribution plans. The defined benefit plans include the Mississippi Public Employees' Retirement System ("PERS"), a cost-sharing multiple-employer public employee retirement system established in 1952, the Mississippi Highway Safety Patrol Retirement System ("MHSPRS"), a single-employer public employee retirement system established in 1958, the Supplemental Legislative Retirement Plan ("SLRP"), established in 1989, and the Municipal Retirement Systems ("MRS") made up of 17 fire and police and two municipal employee plans placed under the administration of the System on July 1, 1987. MRS is an agent multiple-employer defined benefit public employees' retirement system.

The defined contribution plans include the Optional Retirement Program ("ORP"), established in 1990 in accordance with Section 401(a) of the IRS Code as an alternative for membership in PERS for certain teaching faculty and certain administrative staff of the State's eight colleges and universities, and the Mississippi Deferred Compensation Plan and Trust ("MDCPT") created in 1973 in accordance with Section 457 of the IRS Code. The System has no liability for losses under the ORP or the MDCPT but does have fiduciary responsibilities for both plans related to the administration and selection of investment vehicles.

Any political subdivision or judicial entity within the State may elect to have its employees covered by PERS or participate in the MDCPT. As of June 30, 2016, the System covered 8,817 public entities within the State.

## Total System Covered Employers and Members as of June 30, 2016

The State neither contributes to MRS nor assumes any liability for benefits payable to members but does have the duty of due care required of an ordinary prudent investor. The plans under MRS were closed from 1975 through 1987 and the administration transferred to PERS in 1987.

On July 1, 1989, the Legislature established the SLRP for the purpose of providing supplemental retirement allowances and other benefits for elected members of the State Legislature and the President of the Senate and their beneficiaries. Each legislator and the President of the Senate must contribute 3% of all compensation or remuneration paid, except mileage allowance. The contribution rate by the State is 7.4%.

On July 1, 1990, ORP was established for employees of the State's nine colleges and universities who hold certain teaching or administrative faculty positions and who are appointed or employed after July 1, 1990. These participants have rejected membership into PERS. Title 25, Article 11 of the Mississippi Code states that the System will provide for administration of the ORP Program. ORP participants direct the investment of

their funds. Benefits payable to plan participants are not obligations of the State. As such, ORP is not considered part of the System's reporting entity for financial reporting purposes.

Membership in PERS is a condition of employment and eligibility is granted upon hiring for all State agency and university employees not participating in ORP. For those employed by political subdivisions and instrumentalities of the State, membership is contingent upon the PERS Board of Trustees' approval of the entity's participation in the plan. If approved, membership is a condition of employment and eligibility is granted upon hiring.

Participating employees who retire at or after age 60 with four years of credited service if hired before July 1, 2007 or for those that were hired on July 1, 2007 or after, who retire at or after age 60 with eight years of credited service or those who retire regardless of age with at least 25 years of credited service if hired prior to July 1, 2011 or 30 years for those that were hired on July 1, 2011 or after are entitled to an annual retirement allowance, payable monthly for life. The retirement allowance is an amount equal to 2% of their average compensation for each year of credited service up to and including 25 years and 2.5 % for each year of credited service over 25 years, if hired prior to July 1, 2011. If hired on July 1, 2011 or after they are entitled to an annual retirement allowance, payable monthly for life, in an amount equal to 2% of their average compensation for each year of credited service up to and including 30 years and 2.5 % for each year of credited service over 30 years. There is an actuarial reduction for each year of creditable service below 30 or for each year of age below age 65, whichever is less for those hired on July 1, 2011 or after. "Average compensation" is the average of the employee's earnings during the four highest compensated years of credited service. A member may elect an option for a reduced allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of four years of credited service for those hired prior to June 30, 2007 and vest with completion of eight years of credited service for those hired on or after July 1, 2007. PERS also provides certain death and disability benefits. Retirees and beneficiaries have the option of maintaining health and other coverage at their own expense. Benefit provisions are established by Section 25-11-1 et seq., Mississippi Code of 1972, as amended, and may be amended and supplemented from time to time only by the State Legislature.

The System incurs no expense for post-retirement health benefits. See Note 16 in the Excerpts from 2016 Audited Financial Statements of the State included in APPENDIX B hereto for a complete discussion of the State's other post-employment benefits.

Membership in MHSPRS is a condition of employment and eligibility is granted upon hiring for all officers of the Mississippi Highway Safety Patrol (the "Highway Patrol") who have completed a course of instruction in an authorized highway patrol training school on general law enforcement and who serve as uniformed officers of the Highway Patrol. Participating employees in MHSPRS who withdraw from service at or after age 55 with at least five years of membership service or, after reaching age 45 with at least 20 years of credited service, or with 25 years of credited service at any age are entitled to an annual retirement allowance, payable monthly for life, in an amount equal to 2.5% of their average compensation during the four highest consecutive years of earnings reduced 3% for each year below age 55 or 3% for each year under 25 years of service, whichever is less. MHSPRS also provides certain death and disability benefits. Retirees and beneficiaries have the option of maintaining health and other coverage at their own expense. Benefit provisions for MHSPRS are established by Section 25-13-1 et seq., Mississippi Code of 1972, as amended, and may be amended from time to time only by the State Legislature.

Employees covered by PERS are required to contribute 9.0% of their salaries, as of July 1, 2010. Employees of MHSPRS are required to contribute 7.25%, as of July 1, 2008. Members of SLRP are required to contribute an additional 3% of their compensation. Beginning July 1, 2013, the employers of PERS are required to contribute 15.75%; MHSPRS, 37.00%; and SLRP, remains at 7.40%, since January 1, 2012.

During a special session, the 2010 Mississippi Legislature passed House Bill 1 ("House Bill 1") which amended Sections 25-11-123, 25-11-109 and 25-11-115, Mississippi Code of 1972, and increased the percent of earned compensation as stated above from 7.25% to 9% (as a percentage of gross salary) and members who retire on or after July 1, 2010 will receive credit for ½ day of leave for each full year of membership service accrued after June 30, 2010. Also, a new option for members of PERS for payment of a member's retirement allowance provides that upon the retired member's death, ¾ of the member's reduced retirement allowance will be continued throughout the life of the employee's beneficiary.

Actuarial assumptions at June 30, 2016 were:

- (a) Rate of return on investment of 7.75%;
- (b) Projected Wage inflation rates 3.75%;
- (c) Projected salary increases of 3.75% to 19.0% per year for PERS, 4.25% to 9.31% for MHSPRS and 3.75% for SLRP attributable to seniority/merit;
- (d) Assumption that post-retirement benefits will increase 3.0% per year for PERS and SLRP; calculated 3% simple interest to age 55, compounded each year thereafter; and 3.0% for MHSPRS; calculated 3% simple interest to age 60, compounded each year thereafter;
- (e) Entry age for actuarial cost method; and
- (f) Five-year smoothed market asset valuation method.

Employer contribution rates for PERS and SLRP are set by the PERS Board of Trustees in accordance with the adopted Funding Policy following the annual actuarial valuation and projection reports. State statute. The employer contribution rate for MHSPRS is set by the MHSPRS Advisory Board in accordance with the adopted Funding Policy following the annual actuarial valuation and projection reports. The PERS Board of Trustees revised the Funding Policy for PERS and SLRP in 2012 with the focus on contribution stability with an objective of producing a projected funded ratio of at least 80% in 2042. Unfunded actuarial accrued liabilities are amortized as a level percent of the active member payroll, at a rate designed to produce a projected funded ratio of at least 80% in 2042. The MHSPRS Funding Policy provides that unfunded actuarial accrued liabilities are amortized as a level percent of active member payroll at a rate designed to produce a projected funded ratio of at least 80% in 2042. These benchmarks are reviewed annually and should the projected funded ratio be less than 60% in 2042 or projected to be less than 75% in 2042 following two consecutive annual actuarial valuations (70% following three consecutive annual actuarial valuations for MHSPRS), a contribution rate increase will be determined that is sufficient to generate a funded ratio of 85% in 2042. The employer contribution rate so computed, expressed as a percent of active member payroll, is designed to accumulate sufficient assets to pay benefits when due. For MRS, as closed plans, with declining active and retired memberships, the contribution is determined as a percentage of each municipality's assessed property valuation that generates an ultimate asset reserve level equal to a reasonable percentage (100 to 150 percent) of the next year's projected benefit payments, with the objective of developing a pattern of contribution rates that will develop the required funds needed to meet the objective of paying all benefits when due with little, if any, residual asset value.

House Bill 1 increased the PERS member contribution rate from 7.25% to 9.0% (as a percentage of gross salary) effective July 1, 2010. Employer contribution rate increases scheduled to go into effect July 1, 2011, were delayed six months. At its October 2010 scheduled meeting, the Board approved rate increases from 12 to 12.93 % for PERS-covered employers, 6.65 to 7.40 % for the SLRP and 30.30 to 35.21 % for the MHSPRS. However, in response to a request from leaders in the Mississippi Legislature, the Board of Trustees took action at its February 2011 meeting and the MHSPRS Administrative Board voted in March 2011 to delay any employer contribution rate increase until January 1, 2012. Effective July 1, 2012, the PERS employer contribution rate increased from 12.93% to 14.26% and the MHSPRS from 35.21% to 37.0%. Effective July 1, 2013, the PERS employer contribution rate increased from 14.26% to 15.75%.

### PERS Contribution Rate Change History

Source: PERS Actuarial Valuation Report

The defined benefit plans administered by the System were actuarially funded at an average of 60.0% as of June 30, 2016, a decrease from the comparative average of 60.4% as of June 30, 2015.

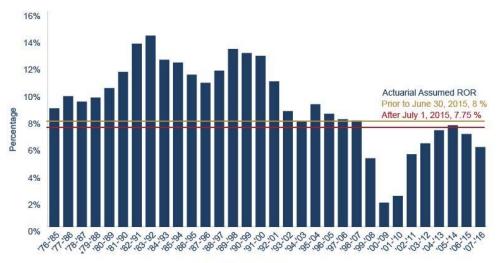

### Investment Performance

### Investment Annualized Rates of Return

Source: Callan Investment Measurement Service Quarterly Review for June 30, 2016

Historical Returns as of June 30, 2016 1-Year.......1.16%

3 -Year ...... 7.44% 5 -Year ..... 5.93% 10 -Year .... 5.93% 20 -Year .... 6.95% 25 -Year .... 7.91%

30-Year ..... 8.19%

Rolling 10-Year Periods

\*Calculated - Actual data not available

The market value of assets, smoothed over a five-year period, is used in determining the actuarial funding status of the System and in establishing the contribution rates necessary to accumulate assets to meet benefit obligations when due.

For fiscal year 2016, the combined net assets of all the defined benefit plans administered by PERS decreased by \$799.2 million, or (3.1)%.

At June 30, 2016, the plans' net pension benefit liabilities were as follows (\*in thousands).

	PERS*	MHSPRS*	SLRP
Total actuarial accrued liability	\$41,997,513	\$494,101	\$21,259
Market value of Assets	24,135,016	311,612	15,768
Net Pension Liability	\$17,862,497	\$182,489	\$ 5,491

Funding policies for PERS, MHSPRS and SLRP provide for periodic employer contributions at actuarially determined rates that are adequate to accumulate sufficient assets to pay benefits when due. Actuarial valuations prepared as of June 30, 2016, the most recent valuation date, indicate that the unfunded (overfunded) accrued liability amortization periods of PERS, MHSPRS and SLRP are 36.6, 42.9 and 22.6 years, respectively, using an open amortization approach.

In October 2012, the Board of Trustees adopted a revised funding policy aimed at stabilizing the employer contribution rate that set the PERS rate at 15.75% and the SLRP rate at 7.4% effective July 1, 2013. The funding policy also established a goal for the PERS to be 80.0% funded by 2042. Under the revised funding policy, the volatility of the employer contribution rate will be reduced providing a predictable contribution rate for employers. The actuarial value of assets includes smoothing actuarial gains and losses over five years. The System incorporated the requirements of GASB Statement 67, Financial Reporting for Pension Plans beginning in its fiscal year-end 2014 financial reports which no longer requires a 30-year amortization period for the unfunded accrued liability.

### PERS Actuarial Accrued Liability and Funded Ratio

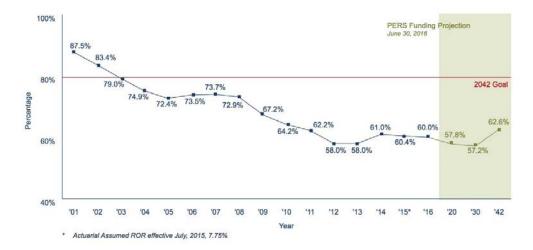

### PERS Funded Ratio

Source: PERS Actuarial Valuation Report

Funded Ratio: The ratio of the assets of a pension plan to its liabilities. The ratio is determined by dividing the actuarial value of assets by the actuarial accrued liability.

Below is the annual funded ratio of PERS since 2001 and the projected funded ratio with the 2012 revision of the PERS Funding Policy by the Board of Trustees, which set a goal of being 80 percent funded by 2042. This projection assumes PERS will earn at an 7.75 percent rate of return on investments. Over the past 30 years, PERS has earned, on average, a 8.19 percent rate of return.

PERS Average Annual Benefit: \$22,607

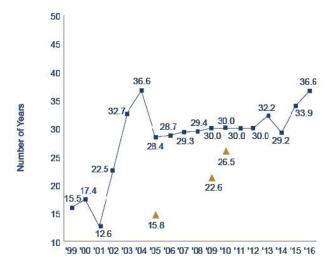

## PERS Amortization Period of Unfunded Accrued Liability

Source: PERS Actuarial Valuation Report

Amortization: Paying off an interest-bearing liability by means of periodic payments of interest and principal, as opposed to paying it off with a lump-sum payment.

Unfunded Accrued Liability: The difference between the actuarial accrued liability and valuation of assets.

Fiscal Year

Actuary estimate of UAL period without benefit improvements implemented 1999 - 2002 with the employer contribution rate at 9.75% and the member rate at 7.25%

### ORGANIZATION OF STATE GOVERNMENT

The State Constitution separates the legal powers of State government into three distinct branches, the legislative, the executive and the judicial.

### Legislative Branch

Legislative power is vested in the Senate and the House of Representatives, which jointly comprise the Legislature of the State. The Senate is composed of 52 members, and the House of Representatives consists of 122 members. Each member of each chamber is elected to a four-year term.

The Legislature convenes annually on the first Tuesday after the first Monday in January. Regular sessions last 90 days in all years of an administration except for the first session after a new governor has been elected, when a 125-day session is held, which last occurred in January 2016. Any regular session may be extended by a concurrent resolution adopted by a 2/3 vote of the membership of both the House and the Senate. The Governor may convene the Legislature by a proclamation whenever, in the Governor's opinion, the public safety or welfare requires it, or upon written application of 3/5 of the members of each legislative body. The Legislature has the authority to enact legislation to complement the constitutional duties and powers of the executive branch of government.

### **Executive Branch**

The Governor is vested with the chief executive powers of the State. The Governor is elected to a four-year term and may be elected for one additional four-year term. The Governor recommends to the Legislature, by message at the commencement of each session, the passage of such measures as the Governor deems appropriate; appoints, by and with the advice and consent of the Senate, certain officers of State government; may remit fines and penalties; grant reprieves, commute sentences, and grant pardons and paroles after convictions; and is Commander-in-Chief of the military forces of the State and, as such, may call out the National Guard to enforce laws, suppress insurrections and repel invasion.

Specific administrative functions are performed by the other statewide elected officials: the Lieutenant Governor, the Secretary of State, the Attorney General, the State Treasurer, the State Auditor, the State Insurance Commissioner and the State Commissioner of Agriculture and Commerce. For example, legal services are provided by the Attorney General; audit functions are performed under the direction of the State Auditor; and the Secretary of State maintains official records of the State, regulates the securities industry in the State and performs other statutory duties.

Other activities of State government are conducted through various boards and commissions created by the Legislature and accountable to either or both the legislative and executive branches. These include, among others:

- (1) The Department of Transportation includes the State Highway Department, the Aeronautics and Rail Division, the weight inspection stations and portable scales from the Department of Revenue and the State Aid Engineer and the Division of State Aid Road Construction. The three elected members of the Mississippi Transportation Commission (one from each Supreme Court District of the State) select an executive director who serves as the administrative head of the Department of Transportation. The primary responsibilities of the department are the maintenance of highways and roads within the State and to promote the coordinated and efficient use of all available and future modes of transportation, to study means of encouraging travel and transportation of goods by the combination of motor vehicle and other modes of transportation. For operational purposes, the department is divided into six districts with maintenance and construction engineers in each district. However, certain functions, such as right-of-way acquisition, relocation assistance, bridge design, property control, research and development and testing are controlled at the departmental level. Other transportation related agencies are the Department of Public Safety and the Public Service Commission.
- (2) Mississippi has a number of agencies that perform activities related to public health and welfare. Among those agencies are the State Department of Health, the Department of Human Services, the Department of Rehabilitation Services, the Division of Medicaid, Child Protective Services and the Parole Board. The Department of Health administers programs involving disease control, family health and environmental health. It also inspects sewer and water facilities, factories, food processing plants and conditions in State institutions. The Department of Human Services administers assistance payments to families of dependent children and makes determination of Medicaid eligibility. Additional services are provided through the Child Support, Food Assistance, Child Protective Services and Social Services Programs. The Office of Child Protective Services investigates reports of child abuse and administers the State's foster care system. The Division of Medicaid, within the Office of the Governor, administers the activities of all health related programs under Title XIX of the Social Security Act.
- (3) The construction, maintenance and repair of State buildings are administered by the Office of Building, Grounds and Real Property Management, within the Department of Finance and Administration. In order to fulfill its responsibilities, pursuant to authority granted by the Legislature, the Office of Building, Grounds and Real Property Management has the authority to acquire real and personal property by lease or purchase and to exercise the right of eminent domain. Short and long-range public plans are subject to the approval of the Public Procurement Review Board of the Department of Finance and Administration.
- Under the supervision of three-elected commissioners, one from each Supreme Court district of the State, the Public Service Commission supervises and regulates various activities of utilities and motor carriers operating within the State. It has the authority and responsibility of prescribing rates and charges that will allow the utilities a fair and reasonable rate of return on investment under efficient operating conditions while protecting at all times the interest and welfare of the public. In the case of motor carriers, the Public Service Commission is charged with the responsibility of enforcing the provisions of the Motor Regulatory Act of

1938 on a fair and equitable basis by assuring that proper tags are purchased, that proper commodities are transported at proper rates, that franchise provisions are strictly adhered to and that each carrier has full and adequate insurance coverage.

### **Judicial Branch**

The Judicial Branch of State government consists of a Supreme Court, a Court of Appeals, Chancery District Courts and Circuit District Courts. The Supreme Court is an appellate court with members elected from three districts for terms of eight years. The Court of Appeals is an intermediate appellate court comprised of ten appellate judges, two elected from each congressional district, to serve for a period of eight years. There are 20 Chancery District Courts and 22 Circuit District Courts in the State, subject to change by the Legislature, with judges elected from each district for terms of four years. County Court judges in certain counties, and Justice Court judges in every county, are elected for four-year terms.

### **Local Governments**

County and municipal governments and other political subdivisions have no sovereign powers in the State. In the State's counties and municipalities, the major sources of revenues are shared revenues from sales taxes and property taxes assessed on all local real and personal property, subject to certain exemptions. State agencies, however, provide various important services to political subdivisions, including the following: the State Department of Health works in an advisory capacity with local health departments; the State Department of Education provides guidance and aid for county and municipal Superintendents of Education; the Department of Transportation provides funding and technical assistance for county and urban road and bridge construction; and the Mississippi Development Authority is authorized to provide many economic development services.

#### **EDUCATION**

### **Elementary/Secondary Education**

Public Education in Mississippi has seen dramatic changes during the past 30 years, with the 1982 Education Reform Act serving to trigger much of that change. A statewide core curriculum has also been established, outlining objectives school districts are expected to include in their instruction. The State has been a leader in developing a performance-based accreditation model, with both schools and districts receiving an annual accreditation level. The State is home to the Mississippi School for Mathematics and Science, the fourth of its kind in the nation when it opened in 1988, which provides intensive training in math, science and technology to certain high school juniors and seniors. The Mississippi School of Fine Arts, which opened in the fall of 2003, offers certain high school juniors and seniors training in the various fine arts. During the 2015-2016 school year, public elementary schools (K-6) enrolled 271,315 students and public secondary schools enrolled 209,195 students. The enrollment for public elementary and secondary students was a combined total of 480,510 students. The State's public schools employed 32,100 full-time equivalent classroom teachers. State and local boards of education are responsible for governing public elementary and secondary education. At the State level, a nine-member State Board of Education administers these responsibilities. The State Superintendent of Education, appointed by the State Board of Education, serves as its secretary and chief operating officer.

### **Community Colleges**

The State was the first state to establish a system of public two-year colleges and has 15 community colleges located on 34 campuses and centers in every area of the State. These two-year institutions offer university level courses of study as well as vocational and technical programs. There is a wide variety of specialized programs for industry start-up and industry training, which are offered Statewide. Total headcount enrollment (unduplicated) at the public community and junior colleges for 2015-2016 school year was 95,575. Public community colleges are governed by local boards of trustees, with State coordination by a ten member State Board for Community and Junior Colleges.

### **Universities and Colleges**

Eight institutions of higher learning, including a medical center, are supported by the State. These institutions offer courses and programs statewide. The 2015-2016 academic year enrollment in the State

supported institutions of higher learning was approximately 95,449. The State's eight institutions of higher learning are administered by a 12 member Board of Trustees of State Institutions of Higher Learning and a Commissioner of Higher Education.

### THE ECONOMY

#### Location and Geography

The State is centrally located in the southern region of the United States of America. It is bounded on the east by Alabama, on the north by Tennessee, on the west by the Mississippi River, which separates it from Arkansas and Louisiana, and by Louisiana and the Gulf of Mexico on its southern boundary. The State encompasses 47,715 square miles and ranks 32nd in physical size among the states. Jackson, located in the central part of the State, is the capital and the largest city.

The State has a temperate to subtropical climate. The temperature ranges from a high mean temperature throughout the State of 84.5 degrees during July to a low mean temperature of 45.6 degrees in January. The State has an average rainfall of 53.9 inches. The topography of the State ranges from flat to hilly, with a maximum elevation of 806 feet in the northeastern corner of the State.

### The State's Economy (as of June 2017)

The Mississippi economy continues to lack momentum. According to preliminary estimates by the Bureau of Economic Analysis, (BEA) the Mississippi economy grew 0.8% in 2016. This gain followed a 0.3% gain in 2015, based on revised data. The 2016 gain, though modest, marks the first time since the recession of 2008 that the State has experienced two consecutive years of growth. The State's annual GDP growth has exceeded 1% only once since 2008 (in 2012). Between 2009 and 2016, the Mississippi economy grew a total of 1.7%. During the same period, the national economy grew 15.6%. Annual job growth between 2009 and 2016 was 4.3% in the State and 9.9% in the nation. As of April, the State remains almost 17 thousand jobs below the pre-recession peak of 2008.

The State added an average of 10,875 jobs in 2016 over 2015. The largest contributor to job gains was eating places, followed by retail trade. These were followed by health services, professional services and manufacturing. The largest decline occurred in the construction sector.

Real incomes grew 2.0% in 2016, up from the 1.7% in 2015. This was the strongest gain since 2012 and only the second year that income growth reached 2.0% or better since the 2008 recession. Despite the improvement, income growth remains below the National average. While the State's unemployment rate has fallen, many of the job gains have been in low-wage sectors. Beyond the income data as reported, a substantial number of Mississippians have historically worked in other states in the oil and gas sector. The jobs and incomes associate with these individuals are not counted in any data within the State, but much of their income is spent in the State. When oil prices collapsed many lost their job and those who kept their jobs took pay cuts. This has contributed to the sluggish growth in retail sales, sales tax, and the State's economy in general.

Since the end of 2016, the Mississippi economy appears to be flat to slightly declining. Employment has dipped modestly in the last two months, but has been relatively flat since mid-2016. Manufacturing workweek length fell below 40 hours for the first time since 2011 in April 2017. This may prove to be a temporary dip as the National indicators continue to show the industry in an expansion phase. Mississippi building permits however, have improved in the second half of 2016 and have remained strong in 2017.

Mississippi's gaming sector is off to a slow start for 2017. In 2016 the coastal casinos saw a 2.6% growth in real revenue while the river casinos experienced a 3.4% decline. The net was a nearly flat growth for the State's gaming sector after adjusting for inflation. For the first four months of 2017 however, the real gaming revenue for the coastal counties has fallen 3.3%, the river casinos have seen a 8.5% decline, and the net impact is a 5.5% decline in State as a whole in real gaming revenue.

### **Short-Term Outlook**

The national economy started the year out with a 1.2% gain in real GDP. This is expected to improve as the year progresses with 2017 coming in with a 2.2%-2.5% growth rate. Fueled by improved job growth and disposable income, consumer spending is expected to be an engine for growth. A growth rate in the 2.2%-2.5%

range would be an improvement over the 1.6% observed in 2016. Current projections show growth strengthening modestly in 2018 but remaining in the 2.2-2.5% range over the next few years.

Like the nation, the State's economy is expected to make gradual improvement. Current projections have the 2017 State economy growing around 1.5%. Growth is expected to improve slightly over the next few years but with projections for modest national growth, the State will likely remain below 2%.

#### State Economic Structure

About 83% of the State's roughly 1.1 million wage and salary workers are in service-producing industries and the remaining 17% are employed in goods-producing industries. Almost 78.6% of total nonfarm employment is in the private sector while government employs the remaining 21.4%. Nationally, the government represents slightly more than 15.5% of the workforce. Mississippi also depends relatively more on the manufacturing sector than the U.S. with 12.5% of employment concentrated in manufacturing compared to the national average of slightly less than 8.4%. Because of the strong linkages to the rest of the economy, the manufacturing sector is a driver of significant economic activity in other sectors in the State as well.

### **Economic Development**

The Mississippi Development Authority ("MDA") was created to improve the quality of life for Mississippians through the creation of productive employment opportunities and the enhancement of the State's tax base. To accomplish its mandate, MDA concentrates on recruiting new industries into the State, encouraging expansion of existing industries, expanding world markets for State products, seeking international business investment, assisting in the development of minority businesses, and providing training and retraining programs for the State's work force to meet the needs of today's business.

A variety of services are available to individuals and businesses to stimulate jobs and income growth in the State. MDA provides financial, management and technical assistance services. Some of these include tax incentives, loan programs and bond financing programs for industries, small businesses and agribusinesses.

### **Banking and Finance**

There are 79 financial institutions in the State, consisting of 2 FDIC supervised federal and State chartered thrifts, 10 national-chartered commercial banks, 3 State-chartered commercial savings banks, and 64 State-chartered banks. The total number of branches for these institutions stands at 1,215. Total assets held by the State's financial institutions as of April 1, 2017, were \$92,360,200,000.

The State's largest financial institution, Whitney Bank, has assets of over \$25 billion. There are eleven financial institutions with assets over \$1.0 billion and whose combined assets total \$72,785,249,000. Of the total deposits in the State, these financial institutions control approximately 79%.

Statewide banking has been in existence since 1986, with "de novo" branching as well as mergers. Since 1990, reciprocal interstate acquisitions are permitted, but only with states in the southeast. Effective September 29, 1995, the State Legislature allowed the State to participate in nationwide banking effective with the enactment of the Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994, Public Law 103-328. Beginning December 1, 1997, by legislation passed in 1996, State banks were able to have branches out-of-state, as well as, out-of-state banks being able to branch into the State.

### Manufacturing

The manufacturing sector is a leading employer in the State. Approximately 141,900 persons are employed in more than 2,400 manufacturing facilities. About one-fourth of these facilities have 100 or more employees and account for 80% of all manufacturing workers. The State has eighteen (18) manufacturing companies with 1,000 or more employees.

Every county in the State has a manufacturing facility. Hinds County has the largest number of manufacturing plants followed by Lee County, Rankin County, DeSoto County and Harrison County. The leading product groups in the State are apparel, electrical machinery and equipment, food products, furniture and fixtures, lumber and wood products and transportation equipment.

In November 2000, Nissan North America, Inc. ("Nissan") announced the location of a \$930 million automobile manufacturing facility in Madison County, Mississippi. In June 2002, while the original facility was still under construction, Nissan announced that it would expand the facility to 2.5 million square feet with an additional investment of \$500 million. When the plant began production, 2,040 people were employed and has grown to present employment of approximately 6,000. The 3.5 million-square-foot plant has a capacity to produce 400,000 vehicles per year.

In March 2007, Toyota Motor Engineering & Manufacturing North America, Inc. ("Toyota") announced its plans to locate a new manufacturing plant near the town of Blue Springs, Mississippi. Toyota directly employs approximately 2,000 and represents an \$800 million investment. Since the plant began production during November of 2011, Mississippians have been successfully producing Toyota's best-selling model, the Corolla, for the U.S. market and is at full production today.

Huntington Ingalls Industries is the State's largest manufacturing employer through its shipyards located in Pascagoula and Gulfport. With current employment above 11,000, Huntington Ingalls Industries has an annual payroll of approximately \$580 million. The company develops and produces technologically advanced warships for the United States Navy, Coast Guard, Marine Corps and for foreign and commercial customers. It has operated in the State since 1938.

PACCAR, a global leader in the design and manufacture of premium light-, medium- and heavy-duty trucks, constructed its newest engine manufacturing and assembly plant on a 394-acre site in Lowndes County.

Yokohama selected West Point, Mississippi as the location for its new tire manufacturing facility opening the \$300 million commercial truck tire facility October 5, 2015, just a little over 24 months after breaking ground on the site. The modern, one-million-square-foot facility located on more than 500 acres of land has hired more than 260 employees and plans to eventually reach 500. The company plans to produce up to one million tires annually when running at full capacity.

Continental Tire The Americas, LLC has announced its plans to locate a commercial vehicle tire manufacturing plant in Hinds County, Mississippi. Continental has committed to investing \$1.45 billion and creating 2,500 jobs and expects to begin production in 2020.

### **Tourism and Gaming**

Since 1992, the total capital investment in the State by the gaming industry has exceeded \$4.5 billion. The gross gaming revenues for the 28 State-licensed casinos in fiscal year 2015 was \$2,085,378,989.61 and for the 28 State-licensed casinos in fiscal year 2016 was \$2,107,117,794.93. The State's gaming industry reported 20,928 State-licensed and casino hotel employees for the fourth quarter of fiscal year 2016. In addition, the Mississippi Band of Choctaw Indians employs an estimated 2,795 persons at its casino hotels.

According to the Mississippi Department of Revenue, gross gaming revenues for the first ten months of fiscal year 2017 were \$1,744.962.572.88.

#### **Agriculture and Forestry**

Agriculture is one of the State's leading industries, employing approximately 17% of the State's workforce either directly or indirectly. Agriculture in the State is a \$6.88 billion industry with a \$12.7 billion economic impact each year. There are approximately 42,300 farms in the State covering 11 million acres. The average size farm is composed of 262 acres. Agriculture makes a significant contribution to all 82 counties. The primary agricultural products in Mississippi are poultry, forestry, soybeans, corn, rice, catfish, hay, cattle and calves, cotton, hogs, horticulture crops, mill, sweet potatoes, wheat and peanuts.

Forestry and forestry products contribute a total impact of \$17.4 billion to the State's economy. 19.8 million acres or about 65% of the total land in the State is devoted to forest production. Mississippi ranks number one in the nation in the number of certified tree farms with more than 3,200. The forestry sector, which includes pulp mills, paper mills, wood furniture, employs 25% of the State's manufacturing workforce.

### Construction

The construction industry plays a powerful role in sustaining economic growth, in addition to producing structures that add to productivity and quality of life. In 2014, construction contributed \$5 billion (5.0%) of the State's GDP of \$105 billion, making construction's contribution to the State's GDP more than the industry's 3.8% share of United States GDP. Private non-residential construction spending in the State totaled \$2.5 billion in 2015 while nonresidential starts in the State totaled \$2.4 billion in 2014. Construction employment in April 2017 totaled 41,100. Construction worker's pay in the State averaged \$46,400, 27% more than all private sector employees in the State.

During the period 2011 through 2016, building permits issued for residential construction averaged 6,450 annually, with an average annual valuation of \$968 million. The following chart presents annual data for residential building activity.

# RESIDENTIAL CONSTRUCTION BUILDING ACTIVITY (Valuation in Millions)

### **Transportation**

The Mississippi Department of Transportation ("MDOT") is the lead agency to meet the transportation needs of the State. MDOT is committed to providing a transportation system - a network of highways, airports, public transit systems, ports, weight enforcement offices and rail systems - that will provide for the safe and efficient movement of people and goods. Much of the success of the transportation system can be attributed to the AHEAD program enacted in 1987, which promises to link every Mississippian to a four-lane highway within 30 miles or 30 minutes. In the spring of 2002, the Mississippi Legislature enacted Vision 21 - MDOT's Proposed Highway Program for the 21st Century. This pay-as-you-go highway program has been and will continue to upgrade existing roadways or build new highways where they are needed most, without burdening the public with new taxes.

The State's 81 public and private airports provide facilities for both commercial and private aircraft and play a vital part in the economic development of the small communities in the State. The mission of the MDOT Aeronautics Division is to assist airport owners in developing a safe and effective air transportation system in the State.

The State's public ports continue to play a vital role in the State's transportation system and the State's economy. Currently, there are 16 public ports in the State which include the State controlled Port of Gulfport in Harrison County and Yellow Creek State Inland Port in Tishomingo County. The remaining 14 ports are locally owned and operated. These ports contribute \$1.4 billion to the State economy, representing almost 3% of the State's GDP and including some 34,000 direct and indirect jobs paying \$765 million in wages and salaries. On average, over 47.7 million tons of cargo moved through the public and private terminals within the State's ports annually.

Mississippi has 2,542 miles of mainline railroad providing service between major centers throughout the State. This mileage is comprised of five Class-I Railroads (large rail systems extending from the Gulf of Mexico into Canada) and 24 Class-III Railroads (short intrastate rail systems) utilizing the Mississippi Rail System.

### Population

According to the 2010 Census, the population of the State was 2,967,297.

TOTAL RESIDENT POPULATION FOR MISSISSIPPI AND THE UNITED STATES (In Thousands)

### **Employment**

The service producing industries are the leading employers within the State employing 959,900 people or 84% of total non-agricultural employment as of April 2017. Other large employment sectors are government, trade and transportation, and manufacturing with each employing 248,100, 230,700, and 141,900, respectively, as of April 2017. Within the goods producing industry, the durable goods segment of the industry employed 93,900 and the nondurable goods segment employ 48,000. The leading manufacturers by product category are transportation equipment which includes ship building (45,600), food manufacturing (23,000) and furniture manufacturing (18,800). Although its importance has declined, agriculture continues to contribute significantly to the State's economy. The total employment in agriculture as of April 2017 was 34,100.

TEN LARGEST MISSISSIPPI MANUFACTURING EMPLOYERS(1)

Manufacturer	<b>Major Product</b>	2016 Employment

<sup>(1)</sup> On October 7, 2013, accounting for sales tax converted to new computing technology. As part of that conversion, the Mississippi Department of Revenue's system for collecting sales tax data by industry type changed. Prior to Fiscal Year 2014, the Mississippi Department of Revenue used the Standard Industrial Classification (SIC) System to classify and organize industries. However, with the implementation of new technology, Mississippi Department of Revenue began using the North American Industry Classification System (NAICS) when classifying industry types for sales tax collections. NAICS was developed in 1997 by the federal government and replaced the Standard Industrial Classification (SIC) System throughout the United States as the primary system for collecting statistical data. As a result of the conversion, the previous Fiscal Year data included in prior year sales tax reports are not comparable to earlier reports.

### RATINGS

Fitch Ratings ("Fitch"), Moody's Investors Service, Inc. ("Moody's") and Standard & Poor's Financial Services LLC ("S&P"), have assigned ratings of "AA (stable outlook)," "Aa2 (negative outlook)," and "AA (negative outlook)," respectively, to the Series 2017A Bonds. An explanation of the significance of such ratings may be obtained from the agencies which assigned the ratings.

There is no assurance that present or future ratings will continue for any given period of time or that they will not be revised downward or withdrawn entirely by such rating agencies, if in the judgment of any or all of such rating agencies, circumstances so warrant. Any such downward revision or withdrawal of any or all of such ratings may have an adverse effect on the market price of the Series 2017A Bonds.

A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

#### CONTINUING DISCLOSURE

Securities and Exchange Commission ("SEC") Rule 15c2-12 (the "Rule"), which was originally adopted by the SEC in 1989 under the Securities Exchange Act of 1934, sets forth certain disclosure requirements relating to a primary offering of municipal securities. The Rule requires that, prior to purchasing or selling

municipal securities, brokers, dealers and municipal securities dealers must reasonably determine that the issuer of such municipal securities, together with any other "obligated persons," within the meaning of the Rule, have entered into an undertaking for the benefit of bondholders to make certain information available to bondholders on a continuing basis. The State is an "obligated person" with respect to the Series 2017A Bonds within the meaning of the Rule.

The State will enter into a written undertaking for the benefit of the bondholders for the Series 2017A Bonds to deliver, or cause to be delivered, to (a) the Municipal Securities Rulemaking Board (the "MSRB") through MSRB's Electronic Municipal Market Assess system at http://emma.msrb.org ("EMMA") in the electronic format then prescribed by the SEC pursuant to the Rule, and (b) any public or private repository or entity designated by the State as a State repository, if any, for the purposes of the Rule, the information described in the undertaking, including, but not limited to, annual financial reports and notices of certain material events, together with any identifying information or other information then required to accompany the applicable filing. This information will be made available free to securities brokers and others through EMMA. For the procedures for all filings and notices due to the MSRB, instructions will be provided on the following website for MSRB: http://emma.msrb.org.

For a summary of the State's undertaking, see "APPENDIX C - FORM OF CONTINUING DISCLOSURE CERTIFICATE".

The State is current in all material respects with its previous continuing disclosure undertakings under the Rule. However, there have been some instances in the previous five years in which the State filed its annual undertakings late. Due to the change in the State's accounting system (see ""FISCAL OPERATIONS OF THE STATE – Accounting Systems" herein), although the State's unaudited financial statement was filed timely along with its annual report, the State's CAFR for fiscal year 2015 was not filed on EMMA until May 31, 2016. In addition, although the State timely filed a notice of failure to timely file its CAFR for fiscal year 2016, the State's CAFR for fiscal year 2016 was not filed on EMMA until May 5, 2017. Likewise, the State has in the past failed to timely file certain event notices such as ratings changes and refunding notices and has also on occasion failed to link its filings to all of its CUSIPs. The State has taken steps to ensure that it will timely comply with all undertakings in the future. Specifically, the State has approved a "State of Mississippi Debt Management Policy" which provides detailed procedures for the timely filing of continuing disclosure by the State. Also, the State has engaged FSC Disclosure Services, a division of First Southwest Company, LLC, Dallas, Texas, as dissemination agent to assist with compliance with the terms of its undertakings.

### LITIGATION

The Attorney General's Office has reviewed the status of pending litigation involving the State. The State is party to various legal proceedings that arise in the normal course of governmental operations.

It is anticipated, regardless of the ultimate outcome of any litigation, that neither the courts nor the Mississippi Legislature will act inconsistently with the State's financial ability to pay all outstanding bonded indebtedness and the interest thereon. It is not anticipated that the ultimate outcome of any or all of the pending litigation will result in obligations exceeding the financial resources of the State, so that in all events it is reasonable to expect that the State will remain in a sufficiently viable financial position to meet all of these obligations, including, but not limited to, the Series 2017A Bonds provided the same are issued, sold and delivered. To predict with any degree of accuracy the ultimate outcome of any litigation would be conjectural.

### UNDERWRITING

The Series 2017A Bonds are initially being purchased for reoffering by Morgan Stanley & Co., LLC and RBC Capital Markets, LLC (together, the "Underwriters"). The Underwriters have agreed to purchase the Series 2017A Bonds at a purchase price of \$528,161,891.80, representing \$442,775,000.00 par amount, less an underwriters' discount of \$594,593.15 and plus an original issue premium of \$85,981,484.95. The bond purchase agreement pursuant to which the Underwriters expect to purchase the Series 2017A Bonds provides that the Underwriters will purchase all the Series 2017A Bonds if any are purchased. The obligation of the Underwriters to accept delivery of the Series 2017A Bonds is subject to various conditions stated in such bond purchase agreement.

The Underwriters may offer and sell the Series 2017A Bonds to other dealers and other purchasers at prices lower than the public offering prices stated on the insider cover page hereto. The initial public offering prices may be changed from time to time by the Underwriters.

The Underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. The Underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various investment banking services for the State for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the State.

The Underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

Morgan Stanley, parent company of Morgan Stanley & Co., LLC., one of the Series 2017A Underwriters, has entered into a retail distribution arrangement with its affiliate Morgan Stanley Smith Barney LLC. As part of the distribution arrangement, Morgan Stanley & Co., LLC may distribute municipal securities to retail investors through the financial advisor network of Morgan Stanley Smith Barney LLC. As part of this arrangement, Morgan Stanley & Co., LLC may compensate Morgan Stanley Smith Barney LLC for its selling efforts with respect to the Series 2017A Bonds.

### VALIDATION

Prior to issuance, the Series 2017A Bonds will be validated before the Chancery Court of the First Judicial District of Hinds County, Mississippi, as provided in Sections 31-13-1 *et seq.*, Mississippi Code of 1972, as amended and supplemented from time to time.

### APPROVAL OF LEGAL PROCEEDINGS

Certain legal matters incident to the authorization and issuance of the Series 2017A Bonds are subject to the approving legal opinion of Butler Snow LLP, Ridgeland, Mississippi, Bond Counsel, whose approving legal opinion will be available at the time of delivery of the Series 2017A Bonds (see APPENDIX E, herein). Certain legal matters with respect to the State will be passed upon by the State Attorney General, Jim Hood, Esq. (see APPENDIX D, herein). Certain legal matters will be passed upon for the Underwriters for the Series 2017A Bonds by their counsel Balch & Bingham LLP, Jackson, Mississippi.

### FINANCIAL ADVISOR

The State has retained FirstSouthwest, a division of Hilltop Securities, Dallas, Texas, as independent municipal advisor (the "Financial Advisor") in connection with the sale and issuance of the Series 2017A Bonds. In such capacity the Financial Advisor has provided recommendations and other financial guidance to the State with respect to the preparation of documents, the preparation for the sale of the Series 2017A Bonds and of the time of the sale, tax-exempt and taxable bond market conditions and other factors related to the sale of the Series 2017A Bonds. Although the Financial Advisor performed an active role in the drafting of this Official Statement, it has not independently verified any of the information set forth herein.

### VERIFICATION OF ARITHMETICAL AND MATHEMATICAL COMPUTATIONS

The accuracy of the mathematical computations supporting the conclusions (a) that the principal amounts and the interest thereon of the Investment Securities to be deposited in trust with the Escrow Trustee, along with any univested cash deposited in the Escrow Account (see "PLAN OF REFUNDING" herein), are

adequate to provide for the payment when due and upon redemption thereof, of the principal of, premium, if any, and interest on the Refunded Bonds, and (b) that the Series 2017A Bonds are not "arbitrage bonds" under Section 148 of the Code (as defined herein) will be verified by Causey Demgen & Moore P.C., independent certified public accountants, as Verification Agent. Such verification will be based, in part, upon information supplied to the Verification Agent by the State and the Financial Advisor.

### TAX MATTERS

The Internal Revenue Code of 1986, as amended and supplemented from time to time (the "Code"), includes requirements which the State must continue to meet after the issuance of the Series 2017A Bonds in order that interest on the Series 2017A Bonds not be includable in gross income for federal income tax purposes. The State's failure to meet these requirements may cause interest on the Series 2017A Bonds to be includable in gross income for federal income tax purposes retroactive to its date of issuance. The State has covenanted in the Resolution and certain certificates to comply with the requirements of the Code in order to maintain the excludability of interest on the Series 2017A Bonds from gross income for federal income tax purposes.

In the opinion of Bond Counsel, assuming compliance by the State with the tax covenants referred to above, under existing statutes, regulations, rulings and court decisions, interest on the Series 2017A Bonds is excludable from gross income for federal income tax purposes. Interest on the Series 2017A Bonds is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations; however, interest on the Series 2017A Bonds is taken into account in determining adjusted current earnings for purposes of computing the alternative minimum tax imposed on corporations.

Bond Counsel is further of the opinion that under existing laws, regulations, rulings and judicial decisions, interest on the Series 2017A Bonds is exempt from income taxation in the State.

Except as described above, Bond Counsel will express no opinion regarding the federal income tax consequences resulting from the ownership of, receipt or accrual of interest on, or disposition of the Series 2017A Bonds. Ownership of tax-exempt obligations such as the Series 2017A Bonds may result in collateral federal income tax consequences to certain taxpayers, including, without limitation, financial institutions, property and casualty insurance companies, certain foreign corporations, certain S corporations, individual recipients of Social Security or railroad retirement benefits and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations. Prospective purchasers of the Series 2017A Bonds should consult their tax advisors as to the applicability and impact of any such collateral consequences.

### **Premium Bonds**

The initial public offering prices of the Series 2017A Bonds maturing on October 1 of the years 2028 through and including 2036 are more than the amounts payable at the maturity dates thereof as set forth on the inside front cover of this Official Statement. Such Series 2017A Bonds are hereinafter referred to as the "Series 2017A Premium Bonds." Under the Code, the difference between the principal amount of a Series 2017A Premium Bond and the cost basis of such Series 2017A Premium Bond to its owner (other than an owner who holds such a Series 2017A Premium Bond as inventory, stock in trade or for sale to customers in the ordinary course of business) is "bond premium." Bond premium is amortized over the term of such a Series 2017A Premium Bond for federal income tax purposes. The owner of a Series 2017A Premium Bond is required to decrease its basis in such Series 2017A Premium Bond by the amount of amortizable bond premium attributable to each taxable year he holds the Series 2017A Premium Bond. The amount of the amortizable bond premium attributable to each taxable year is determined on an actuarial basis at a constant interest rate compounded on each interest payment date. The amortizable bond premium attributable to a taxable year is not deductible for federal income tax purposes.

Owners of Series 2017A Premium Bonds should consult their own tax advisors with respect to the precise determination for federal income tax purposes of the treatment of bond premium upon sale, redemption or other disposition of such Series 2017A Premium Bonds and with respect to the state and local tax consequences of owning and disposing of such Series 2017A Premium Bonds.

### **Future Legislation**

The federal government is considering various legislative proposals for reducing the federal budget deficit and the federal debt and promoting economic growth, and some of these proposals, if enacted, could affect the tax-exempt status of state and local bonds, such as the Series 2017A Bonds. Owners of the Series 2017A Bonds should consult their own tax advisors as to the applicability and effect on their federal income taxes of the alternative minimum tax, the environmental tax, the branch profits tax and the tax on passive investment income of corporations, as well as the applicability and effect of any other collateral federal income tax consequences.

#### **Backup Withholding**

As a result of the enactment of the Tax Increase Prevention and Reconciliation Act of 2005, interest on tax-exempt obligations such as the Series 2017A Bonds is subject to information reporting in a manner similar to interest paid on taxable obligations. Backup withholding may be imposed on payments made after March 31, 2007 to any bondholder who fails to provide certain required information including an accurate taxpayer identification number to any person required to collect such information pursuant to Section 6049 of the Code. The new reporting requirement does not in and of itself affect or alter the excludability of interest on the Series 2017A Bonds from gross income for federal income tax purposes or any other federal tax consequence of purchasing, holding or selling tax-exempt obligations.

### **MISCELLANEOUS**

Any statements in this Official Statement involving matters of opinion or estimates, whether or not expressly so stated, are intended as such and not as representations of fact. No representation is made that any of the predictions and estimates will be realized.

The references, excerpts and summaries of all documents referred to herein do not purport to be complete statements of the provisions of such documents, and reference is directed to all such documents for full and complete statements of all matters of fact relating to the Series 2017A Bonds, the security for the payment of the Series 2017A Bonds and the rights and obligations of the registered owners thereof.

References herein to the Resolution, the State's Constitution, the Act and all other legislative acts referred to herein are only summaries, excerpts or brief outlines of certain provisions thereof and do not purport to summarize or describe all provisions thereof. Additional information may be obtained upon request from the Office of the State Treasurer, 1101 Woolfolk Building, Suite A, 501 North West Street, Jackson, Mississippi, 39201, (601) 359-3600, Attention: Mr. Jesse Graham or from the Department of Finance and Administration, 1301 Woolfolk Building, Suite A, 501 North West Street, Jackson, Mississippi 39201, (601) 359-3402, Attention: Mr. Steven McDevitt.

The execution of this Official Statement has been duly authorized by the Commission.

### APPENDIX B

EXCERPTS FROM 2016 AUDITED FINANCIAL STATEMENTS

### STATE OF MISSISSIPPI OFFICE OF THE STATE AUDITOR STACEY E. PICKERING

AUDITOR

### INDEPENDENT AUDITOR'S REPORT

The Governor, Members of the Legislature and Citizens of the State of Mississippi

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of Mississippi (the State), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of:

### Government-wide Financial Statements

### • Governmental Activities

the Department of Environmental Quality Clean Water State Revolving Loan Fund, the Department of Health Local Governments and Rural Water Systems Improvements Revolving Loan Fund, the Mississippi Authority for Educational Television, the State Agencies Self-Insured Workers' Compensation Trust Fund, the Department of Marine Resources and selected funds at the Department of Corrections, the Department of Employment Security, the Department of Environmental Quality, the Department of Finance and Administration – Office of Insurance, the Department of Information Technology Services, the Military Department, the Mississippi Development Authority, the Mississippi Emergency Management Agency, the Department of Public Safety, the Department of Rehabilitation Services and the Department of Wildlife, Fisheries and Parks, the Mississippi Department of Health, the Mississippi Department of Education, the Mississippi Department of Human Services which, in the aggregate, represent 7% and 17%, respectively, of the assets and revenues of the governmental activities;

### Business-type Activities

AbilityWorks, Inc. within the Department of Rehabilitation Services, the Port Authority at Gulfport, the Mississippi Prepaid Affordable College Tuition Program, the Veterans' Home Purchase Board, the Mississippi Department of Corrections Canteen Fund and the Unemployment Compensation Fund which, in the aggregate, represent 96% and 47%, respectively, of the assets and revenues of the business-type activities;

### Component Units

the Universities and the nonmajor component units.

### Fund Financial Statements

#### Governmental Funds

the Department of Environmental Quality Clean Water State Revolving Loan Fund, the Department of Health Local Governments and Rural Water Systems Improvements Revolving Loan Fund, the Mississippi Authority for Educational Television, the Department of Marine Resources, and selected funds at the Department of Corrections, the Department of Employment Security, the Department of Environmental Quality, the Department of Information Technology Services, the Military Department, the Mississippi Development Authority, the Mississippi Emergency Management Agency, the Department of Public Safety, the Department of Rehabilitation Services, and the Department of Wildlife, Fisheries and Parks, the Mississippi Department of Health, the Mississippi Department of Education, the Mississippi Department of Human Services which, in the aggregate, represent 18% and 13%, respectively, of the assets and revenues of the General Fund:

### • Proprietary Funds

 the Port Authority at Gulfport, the Mississippi Prepaid Affordable College Tuition Program and the Unemployment Compensation Fund which are considered major enterprise funds;

### • Aggregate Remaining Funds

- the State Agencies Self-Insured Workers' Compensation Trust Fund and selected funds at the Department of Information Technology Services and the Department of Finance and Administration – Office of Insurance within the Internal Service Fund;
- nonmajor enterprise funds for AbilityWorks, Inc. within the Department of Rehabilitation Services and the Veterans' Home Purchase Board;
- the Pension Trust Funds;
- the Private-Purpose Trust Funds of the Mississippi Affordable College Savings Program;

all of which represent 99% and 99%, respectively, of the assets and revenues of the aggregate remaining funds.

Those financial statements were audited by other auditors whose reports thereon have been furnished to us; and our opinions, insofar as they relate to the amounts included for those agencies, funds, and component units, are based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we express no such opinion. The financial statements of the Mississippi State University Foundation, Inc., the University of Mississippi

Foundation, the University of Southern Mississippi Foundation, the University of Mississippi Medical Center Educational Building Corporation, the University of Mississippi Educational Building Corporation, the University of Mississippi Medical Center Tort Claims Fund, the State Institutions of Higher Learning Self-Insured Workers' Compensation Fund and the State Institutions of Higher Learning Tort Liability Fund, which were audited by other auditors upon whose reports we are relying, were audited in accordance with auditing standards generally accepted in the United States of America, but not in accordance with *Government Auditing Standards*. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we and other auditors have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Mississippi, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Budgetary Comparison Schedule and corresponding notes, the Schedules of Employer Contributions and corresponding notes, the Schedules of Changes in the Net Pension Liability, the Schedule of Proportionate Share of the Net Pension Liability and the Schedule of Funding Progress – Other Postemployment Benefits listed in the accompanying table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Mississippi's basic financial statements. The introductory section, the supplementary information such as the combining and individual fund financial statements and supporting schedules and the statistical section as listed in the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and supporting schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described previously, and the reports of the other auditors, the combining and individual fund financial statements and supporting schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 21, 2017, on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control over financial reporting and compliance.

STEPHANIE C. PALMERTREE, CPA, CGMA

Stephanie C. Palmerter

Director, Financial and Compliance Audit Division

Jackson, Mississippi April 21, 2017

### **Management's Discussion and Analysis**

The following discussion and analysis of the State of Mississippi's financial performance provides an overview of the State's financial activities for the fiscal year ended June 30, 2016. Readers are encouraged to consider the information presented here in conjunction with the transmittal letter, which is located in the Introduction of this report, and the State's financial statements, which immediately follow this discussion and analysis.

### **Financial Highlights**

**Government-wide** - The assets and deferred outflows of resources of the State exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$13,952,286,000 (reported as "net position"). Of this amount, a negative \$5,400,624,000 was reported as "unrestricted net position", which means that it would be necessary to convert a portion of the restricted component of net position to unrestricted if the government's ongoing obligations to citizens and creditors were immediately due and payable. The State had \$4,431,757,000 in restricted net position. Net position of governmental activities and business-type activities increased by \$839,150,000 and \$127,082,000, respectively.

**Fund Level** - At the end of the fiscal year, the State's governmental funds reported combined ending fund balances of \$4,361,868,000, which is \$158,039,000 more than the previous year. Federal government revenues continued their downward trend with many programs ending and others not being renewed. Revenues from taxes also decreased while charges for services and court assessments and settlements increased. Expenditures continued to rise slightly over the prior year.

**Long-term Debt** - The total outstanding net long-term bonds and notes were \$5,681,741,000 at June 30, 2016. During the year, the State issued \$626,348,000 in bonds and notes, net of premiums. These bonds and notes were issued primarily for refunding and capital improvements.

#### **Overview of the Financial Statements**

This discussion and analysis serves as an introduction to the State's basic financial statements, which include government-wide financial statements, fund financial statements, and the notes to the financial statements. This report also contains required supplementary information and other supplementary information.

#### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide the reader with a broad overview of the State's finances. These statements consist of the statement of net position and the statement of activities, which are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The statement of net position presents all of the State's nonfiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in the State's net position may serve as a useful indicator of whether its financial position is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements for the primary government report two types of activities:

**Governmental Activities** - The State's basic services are reported here, including general government; education; health and social services; law, justice and public safety; recreation and resource development; regulation of business and professions; and transportation. Taxes and federal grants finance most of these activities.

**Business-type Activities** - The cost of providing goods or services to the general public, which is financed or recovered primarily through user charges, is reported here. State fair and coliseum operations; home mortgage loans to veterans; port facilities; and unemployment compensation services are examples of these activities.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The State, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The State's funds are divided into three categories: governmental funds, proprietary funds, and fiduciary funds. These categories use different accounting approaches and should be interpreted differently.

**Governmental Funds** - Most of the State's general activities are reported in governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements.

However, governmental funds are accounted for using the modified accrual basis of accounting and the flow of current financial resources measurement focus. This approach focuses on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at year end. The governmental fund statements provide a detailed view of the State's near-term financing requirements. Governmental funds are comprised of the General Fund, which is presented separately as a major fund, and permanent funds.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it may be useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may gain a better understanding of the long-term impact of the State's near-term financing decisions. Both the governmental fund balance sheet and statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

**Proprietary Funds** - The State maintains two types of proprietary funds: enterprise and internal service. Enterprise funds charge fees for services to outside customers. They are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting, and are used to report the same functions presented as business-type activities in the government-wide financial statements. Internal service funds provide personnel, insurance, and information technology services to other state agencies, as well as other governmental entities, on a cost reimbursement basis. Because these services primarily benefit governmental rather than business-type functions, they have been included in governmental activities on the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Unemployment Compensation Fund, the Port Authority at Gulfport Fund, and the Prepaid Affordable College Tuition Fund are presented separately as major funds, with the nonmajor enterprise funds combined into a single column. The internal service funds are presented in a single column on the proprietary fund statements as well. The eight nonmajor enterprise funds and the three internal service funds are presented in detail in the combining financial statements.

**Fiduciary Funds** - Fiduciary funds are used to account for resources held for the benefit of parties outside the state government. Because these resources are not available to support the State's own programs, fiduciary funds are not reported in the government-wide financial statements. The State's fiduciary activities are presented in a statement of fiduciary net position and a statement of changes in fiduciary net position, with related combining financial statements. These funds, which include pension trust funds, private-purpose trust funds, and agency funds, are reported using the accrual basis of accounting.

### Reconciliation of Government-wide and Fund Financial Statements

The financial statements include two schedules that reconcile the amounts reported on the governmental fund financial statements (modified accrual basis of accounting) with government-wide financial statements (accrual basis of accounting). The following summarizes the major differences between the two statements:

Capital assets used in governmental activities are not reported on governmental funds financial statements. Capital outlay spending results in capital assets on government-wide financial statements, but is reported as expenditures on the governmental funds financial statements.

Bond and note proceeds result in liabilities on the government-wide financial statements, but are recorded as other financing sources on the governmental funds financial statements. Certain other outflows represent either increases or decreases in liabilities on the government-wide financial statements, but are reported as expenditures on the governmental funds financial statements.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the component unit financial statements.

#### Other Information

This report also contains the following required supplementary information (RSI): the Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) - All Budgetary Funds, the Schedule of Employer Contributions, the Schedules of the Proportionate Share of the Net Pension Liability, and the Schedules of Funding Progress for other post-employment benefits, along with the accompanying notes. The combining financial statements are presented as supplementary information immediately following RSI.

### **Request for Information**

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the State of Mississippi's finances and to demonstrate the State's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact: Department of Finance and Administration, Office of Financial Reporting, P. O. Box 1060, Jackson, MS 39215.

### **Government-wide Financial Analysis**

#### **Net Position**

The State's combined net position for governmental and business-type activities increased \$966,232,000 in fiscal year 2016. Current year net position is \$13,952,286,000 in contrast to the prior year balance of \$12,986,054,000. The majority of the increase can be attributed to a court assessment arising from The Deepwater Horizon Incident. The State was awarded \$750,000,000 over a period of 18 years. Business-type activities reported positive balances in all three components of net position, while governmental activities and the State as a whole continued to reflect a negative balance in the unrestricted component of net position.

Net position consisted primarily of investment in capital assets such as land, buildings, machinery and equipment, and infrastructure, less any outstanding debt used to acquire those assets. The State uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the State's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

Net investment in capital assets increased \$627,435,000 from the previous year. The governmental activities' increase of \$472,210,000 was primarily due to additions to construction in progress related to building projects, as well as additions to infrastructure for roads, highways, and bridges. The business-type activities' increase of \$155,225,000 can be attributed to ongoing construction projects at the Port Authority at Gulfport.

Restricted net position represents resources that are subject to externally imposed restrictions. Restricted net position decreased by \$84,910,000 during fiscal year 2016. The decrease is a result of a reclassification of tax revenues from restricted to unrestricted.

The remaining net position is classified as unrestricted. As of June 30, 2016, the State had a deficit unrestricted net position of \$5,400,624,000. The deficit is due, in part, to the State issuing debt on behalf of component units and other entities for construction, repair and renovation of non-state capital assets. The positive unrestricted balance of \$131,592,000 in business-type activities may be used to meet ongoing obligations to citizens and creditors; however, internally imposed designations of certain resources further limit the purposes for which those resources may be used.

### **Changes in Net Position**

Operating grants and contributions of \$7,066,304,000 and taxes of \$6,886,235,000 were the State's major revenue sources. Together, they accounted for 78.4 percent of total revenues. Revenue from taxes decreased \$49,764,000 and operating grants and contributions increased by \$4,237,000 over the prior year. As in the prior year, the majority of the State's total expenses were related to the health and social services function at \$7,851,381,000 or 46.6 percent. Expenses within this function rose over the prior year by \$171,486,000 as medical expenses continued their upswing. Unemployment compensation expenses were down by \$8,023,000 as fewer claims were filed driven by an improving economy.

#### **Governmental Activities**

Governmental activities increased the State's net position by \$839,150,000 for fiscal year 2016. Charges for services increased by \$781,976,000, in comparison to the prior year. The majority of both expenses and program revenues were in the health and social services function at \$7,851,381,000 and \$6,377,077,000, respectively. Education expenses of \$3,647,055,000 exceeded program revenues of \$726,303,000 resulting in a negative \$2,920,752,000 to be funded from general revenues.

### **Governmental Activities - Revenues by Source**

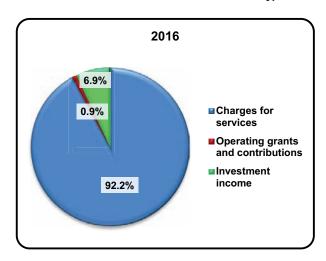

#### Governmental Activities - Expenses and Program Revenues

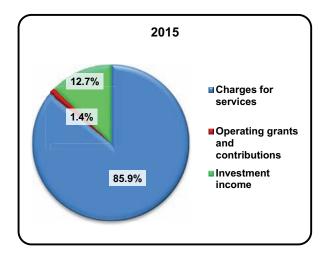

### **Business-type Activities**

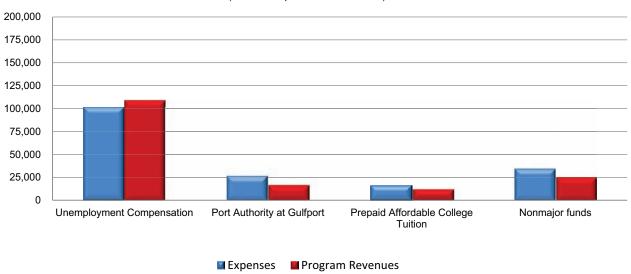

Business-type activities increased the State's net position by \$127,082,000. The percentage of revenues from charges for services continued to decrease as federal revenue for the Emergency Unemployment Compensation program diminished. The amount of investment income decreased from the prior year, as did the investment income as a percentage of total revenues, due to market conditions. For the current year, the Unemployment Compensation Fund had decreases in both program revenues and expenses with a positive change in net position of \$21,351,000 as the trend continued with fewer people filing for unemployment benefits.

#### **Business-type Activities - Revenues by Source**

### **Business-type Activities - Expenses and Program Revenues**

### Financial Analysis of the State's Individual Funds

As noted earlier, the State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### **Governmental Funds**

At June 30, 2016, the governmental funds reported combined fund balances of \$4,361,868,000, indicating an increase of \$158,039,000 from the prior year. Within fund balances, \$109,201,000 or 2.5 percent was classified as nonspendable. The majority of the fund balance, \$3,653,892,000 or 83.8 percent was restricted. Committed fund balance equaled \$41,724,000 or one percent of the total. Assigned fund balance comprised \$10,072,000 or .2 percent while the remaining 12.5 percent, or \$546,979,000, of fund balance was unassigned.

The General Fund is the chief operating fund of the State. The General Fund increased its fund balance by \$156,699,000 from the prior year to an ending fund balance of \$4,297,854,000. Overall, taxes decreased \$77,192,000 or 1.1 percent. There was a \$117,896,000 decrease in corporate income and franchise tax revenues resulting from weak corporate tax collections. Sales and use tax revenues rose \$50,979,000 while gasoline and other motor fuel revenues increased by 1.2 percent. Federal government revenues decreased by \$5,461,000 as several federal grant programs reached the end of their funding periods. Court assessments and settlements revenue increased 134.3 percent due to the State's share of a settlement agreement between the Gulf States and the BP entities with respect to economic and other claims arising from the Deepwater Horizon Incident.

Health and social services expenditures increased slightly during fiscal year 2016, rising by 1.6 percent over the prior fiscal year. Medicaid inflation was the main contributor for the increase in expenditures. The Centers for Medicare and Medicaid Services estimated inflation at 4.1 percent. The Federal Medical Assistance Percentage also rose creating an increase in medical expenditures.

### **Proprietary Funds**

The Unemployment Compensation Fund experienced an increase in net position of \$21,351,000 as compared to the prior year. Assessments' revenue decreased by 21.7 percent due to legislation that allowed certain employers to pay a zero percent tax rate. Operating expenses decreased by \$8,023,000 from the prior year as a result of a reduction in claims and benefits expense as the economy continued to gradually improve. As a result of the end of the Emergency Unemployment Compensation program, federal revenue declined by \$1,410,000.

The Port Authority at Gulfport Fund increased net position by \$112,922,000 as compared to an \$84,855,000 increase reported in the prior year. Operating revenues and expenses increased slightly by \$2,037,000 and \$1,346,000 respectively. The increase in net position is attributable to the \$122,023,000 received in federal pass through grants from other state agencies which enabled the Port to continue the implementation of its facility restoration plan.

The Prepaid Affordable College Tuition Fund's net position decreased by \$12,387,000. Tuition receipts increased by 2.9 percent over the prior year. The 43.3 percent decrease in claims and benefits expense was directly related to changes in the program's actuarially determined present value of future tuition obligations and a slight reduction in the assumed rate of tuition increases that was implemented in the actuarial valuation. Investment income decreased due to the change in market conditions.

#### **General Fund Budgetary Highlights**

The original estimated growth rate for fiscal year 2016 General Fund revenues was 1.7 percent. This estimate was revised to sine die, which reflected a 1.1 percent growth, and revised in April 2016 to reflect a growth of 1.6 percent. Actual fiscal year 2016 General Fund revenue collections were \$22,217,000 or .4 percent lower than the prior year. These revenues were \$145,690,000 below estimated amounts. Revenue from sales tax grew by \$27,818,000 or 1.4 percent. Individual income tax increased by \$26,004,000 or 1.5 percent. However, corporate income and franchise tax decreased \$117,826,000 or 16.5 percent.

The final expenditure budget was \$33,605,000 less than the original budget and actual expenditures were \$4,412,000 less than the final budget. Amounts budgeted but not expended during the year are reappropriated in the following year or are retained in the General Fund and made available for the subsequent year budget allocations.

During the 2016 budget process, an estimate of the amount of funds available from the prior year was included with current year revenue projections to determine the amounts to be budgeted in the current year. The overstatement of the beginning fund balance resulted in a deficit in the original budget ending balance.

### **Capital Assets and Debt Administration**

#### **Capital Assets**

The State's investment in capital assets for governmental and business-type activities as of June 30, 2016 were \$21,384,829,000, less accumulated depreciation of \$5,064,231,000, resulting in a net book value of \$16,320,598,000. For the current fiscal year, governmental activities and business-type activities increased by \$379,096,000 and \$153,262,000, respectively. These changes amount to 2.5 and 37.1 percent increases, respectively, over the prior year.

Major capital asset events during fiscal year 2016 included the following:

Construction in progress for governmental activities had the largest increases and decreases of any asset class with \$818,248,000 and \$618,943,000, respectively. Mississippi Department of Transportation accounts for the majority of the increase with \$731,452,000. The Department of Finance and Administration added \$55,236,000 which included building projects for the Department of Public Safety Central Mississippi Crime Lab, the Mississippi Museum's Civil Rights and History Museum, and the Mississippi Department of Health Lab addition. Decreases to construction in progress are primarily for completed Mississippi Department of Transportation projects moved to infrastructure.

Governmental activities added \$472,864,000 to infrastructure for roads, highways and bridges. These additions included pavement rehabilitation projects in Hinds, Jackson, Scott, and Clarke counties. Bridges were constructed and rehabilitatied in Washington, Holmes, Clarke, Perry, and Hinds counties. The Surface Transportation Program (Urban street projects) were completed in Prentiss, Attala, and Madison counties. Interstate and highway projects were completed in Jefferson Davis, Marshall, Lincoln, Hinds, and Boliver counties.

During fiscal year 2016, net capital assets for business-type activities increased by \$153,262,000. The Port Authority at Gulfport added \$161,552,000 to construction in progress, which includes continuation of the West Pier Wharf upgrades, the Bulk Storage Facility, and the Tenant Maintenance and Repair Shop. Construction of the three rail mounted gantry crane is nearing completion. Projects completed and moved to infrastructure and land improvements included the East Pier Retaining Wall and wharf upgrades. The completed projects were valued at \$29,735,000.

Additional information about the State's capital assets is presented in Note 8 to the financial statements. Note 16 addresses the State's outstanding long-term contracts related to the construction of state and county roads, highways, and bridges, as well as building projects for various state agencies.

#### **Debt Administration**

As of June 30, 2016, outstanding general obligation debt for the State was \$4,399,445,000, including premiums. General Obligation Refunding bonds of \$1,720,648,000, Capital Improvements bonds of \$1,145,250,000, and Industry Incentive Financing bonds of \$354,690,000 comprise 73.2 percent of this outstanding debt. During the current fiscal year, the State issued \$298,895,000 in general obligation bonds which are reported in governmental activities. In addition, the State issued \$71,125,000 of refunding notes to advance refund notes payable which are reported in governmental activities. Within business-type activities, general obligation bonds decreased by \$2,974,000 as the Port Authority at Gulfport continued to repay its long-term debt.

Limited obligation bonds of \$200,000,000 were issued during fiscal year 2016 to provide funding for the repair, rehabilitation and replacement of bridges on state maintained highways. These bonds are to be repaid primarily from gaming revenue. As of June 30, 2016, outstanding limited obligation debt for the State was \$226,507,000 including premiums.

Mississippi has a rating of AA from Standard and Poor's, AA+ from Fitch, and Aa2 from Moody's. These ratings are based upon the State's conservative fiscal management practices, manageable debt levels, favorable effects of various budgetary reforms and the potential for future economic diversification.

The State's constitutional debt limit is established at one and one-half times the sum of all revenues collected by the State during any one of the four preceding fiscal years, whichever may be higher. Current practice restricts revenues included in the computation of this debt limitation to the following: taxes; licenses, fees and permits; investment income; rental income; service charges including net income from the Alcoholic Beverage Control Division; and fines, forfeitures and penalties. As of June 30, 2016, the State's constitutional legal debt limit remained at \$13,312,194,000, which significantly exceeds the amount of debt applicable to the debt limit. Additional information about the State's long-term debt can be found in Notes 9 through 13 to the financial statements.

#### **Economic Factors and Next Year's Budget**

Mississippi's average unemployment rate decreased from 6.5 percent for calendar year 2015 to 5.8 percent for calendar year 2016. The State continues to lag behind the 2016 national average of 4.9 percent. Personal income grew by 1.3 percent in calendar year 2016 as the economy continues to slowly improve.

Although Mississippi's economy is experiencing growth, it is not translating into more revenue. State law allows the Governor to reduce budgets and take funds from the Working Cash Stabilization Reserve Fund when revenue collections do not meet expectations. Early in FY 2017, the Governor took a proactive approach to resolve an error in the State's revenue projections by making General Fund budget adjustments of \$56,802,000. Additionally, as state tax collections were underperforming, budget cuts were made in January, February, and March totaling \$114,421,000. The adjustments and cuts reduced the FY 2017 budgets and achieved an aggregate savings of \$171,223,000.

The Governor also directed the State Fiscal Officer to transfer \$11,061,000 from the Working Cash Stabilization Reserve Fund to prevent deeper cuts. Mississippi law allows the State Fiscal Officer to transfer \$50 million per fiscal year to the State General Fund to stabilize the budget when the state is experiencing revenue shortfalls. Legislation was passed giving the authority for an additional \$50 million transfer in FY 2017, if needed. Therefore, \$88,939,000 of Working Cash Stabilization Reserve Fund authority remains if revenues do not pick up before the end of FY 2017.

Revenue collected by the Department of Revenue (DOR) continues to perform poorly compared to FY 2016. DOR collections from the beginning of FY 2017 through March 31, 2017 were down by \$142,246,000 or 3.85 percent. Total DOR collections cited do not include settlements from the Attorney General's office of \$68,393,000 or the transfers—previously mentioned—from the Working Cash Stabilization Reserve Fund. The state remains optimistic that revenue collections will see a future uptick; however, precautionary measures are being taken by state agencies to prepare for an uncertain FY 2018.

### **Governmental Funds**

# Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position

June 30, 2016 (Expressed in Thousands)		
Total fund balances for governmental funds		\$ 4,361,868
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and		
therefore are not reported in the governmental funds:		
Land	\$ 2,328,614	
Construction in progress	4,456,877	
Software	155,628	
Buildings	2,137,275	
Land improvements	272,761	
Machinery and equipment	714,920	
Infrastructure	10,571,501	
Accumulated depreciation	(4,918,600)	15,718,976
Deferred outflows of resources reported in governmental activities are not		
financial resources and therefore are not reported in the governmental funds:		
Refunding of debt	128,382	
Pensions	510,326	638,708
Deferred inflows of resources reported in governmental activities are not		
financial resources and therefore are not reported in the governmental funds		
Interest rate swaps	(782)	
Pensions	(138,587)	(139,369)
Some of the State's revenues will be collected after year-end but are not		
available soon enough to pay for the current period's expenditures and		
therefore are deferred in the funds as deferred inflows of resources.		746,556
Long-term liabilities and related accrued interest are not due and payable in the		
current period and therefore are not reported in the governmental funds:		
General obligation bonds and notes	(4,178,374)	
Limited obligation bonds	(200,000)	
Notes payable	(980,491)	
Unamortized premiums	(313,180)	
Derivative instruments	(50,201)	
Capital lease obligations	(13,565)	
Accrued compensated absences	(109,911)	
Pollution remediation obligation	(42,946)	
Net pension liability	(2,917,065)	
Other postemployment benefits payable	(174,154)	
Claims payable	(3,225)	
Accrued interest payable	(58,367)	(9,041,479)
Internal service funds are used by management to charge the costs of		
certain activities, such as insurance and telecommunications, to individual		
funds. The assets and liabilities of the internal service funds are included		
in governmental activities in the statement of net position.		318,040

The accompanying notes to the financial statements are an integral part of this statement.

Net position of governmental activities

12,603,300

Fund Balances - Ending	\$ 4,297,854 \$	64,014 \$	4,361,868

### Governmental Funds

# Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

For the Year Ended June 30, 2016 (Expressed in Thousands)

Net change in fund balances - total governmental funds		\$ 158,039
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlay Depreciation expense	\$ 853,664 (468,192)	385,472
Various capital asset related transactions affect the statement of activities but have no impact on governmental funds. These transactions include disposition of capital assets by sale, trade, or scrap.		(9,629)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net loss of the internal service funds is reported with governmental activities.		(13,912)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resource of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and the difference between the carrying value of refunded debt and the acquisition cost of refunded debt when debt is first issued. These amounts are deferred and amortized in the statement of activities.	ces	
Premiums on notes and refunding bonds and notes issued Bonds and notes issued Refunding notes issued Capital leases issued Payments of debt principal Payments to bond escrow agent Accrued interest payable Interest at refunding	(56,328) (498,895) (71,125) (3,420) 358,206 76,405 1,044 (1,119)	(195,232)
Some items reported in the statement of activities do not provide or require the use of current financial resources and therefore are not reported as revenues/expenditures in governmental funds. These activities include:		
Donations of equipment Change in claims payable Change in compensated absences Change in deferred revenues Change in other postemployment benefits payable Change in pollution remediation obligation Change in fair value of investment derivative Change in fair value of borrowing derivative Change in pension costs, net Amortization of premiums	1,028 444 7,325 589,712 (16,680) 143 (17,827) 6,610 (59,610) 28,449	
Amortization of deferred amount on refunding	(25,182)	 514,412
Change in net position of governmental activities		\$ 839,150

The accompanying notes to the financial statements are an integral part of this statement.

#### **Notes to the Financial Statements**

June 30, 2016

#### **Note 1 - Significant Accounting Policies**

The significant accounting policies applicable to the State of Mississippi are described below.

- A. Basis of Presentation The accompanying financial statements of the State have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles.
- B. Financial Reporting Entity For GAAP financial reporting purposes, the State's reporting entity includes all funds of the State's various commissions, departments, boards, elected officials, universities, and other organizational units (hereinafter referred to collectively as "agencies"). Management has considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete.

GASB has set forth criteria to be considered in determining financial accountability. These criteria include the following considerations: 1) appointment of a voting majority of an organization's governing authority and the ability of the primary government to either impose its will on that organization or the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government, or 2) an organization is fiscally dependent on the primary government and there is a potential for the organization to provide specific financial benefits or impose specific financial burdens on the primary government regardless of whether the organization has a separately elected governing board.

As required by GAAP, these financial statements present the primary government and its component units. Blended component units, although legally separate entities, are in substance part of the government's operations and so data from these units are combined with that of the primary government. The blended component unit is:

Public Employees' Retirement System of Mississippi (PERS) - The System was created having all the powers and privileges of a public corporation for the purpose of providing pension benefits for public employees of the State and its political subdivisions. The Board of Trustees is composed of the State Treasurer, one member appointed by the Governor and eight members elected by its members. The administrative expenses are subject to legislative budget controls. Its four pension trust funds and one agency fund are reported as part of the State using the blended component method. The funds were audited by independent auditors for the period ended June 30, 2016, and their report has been issued under separate cover. The Comprehensive Annual Financial Report may be obtained by writing to Public Employees' Retirement System, Accounting Department, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling 1-800-444-PERS.

Discretely presented component units, which are legally separate from the State, are reported in a separate column of the government-wide financial statements. The State reports the following major discretely presented component unit:

Universities - The Board of Trustees of State Institutions of Higher Learning (IHL), appointed by the primary government, consists of Alcorn State University, Delta State University, Jackson State University, Mississippi State University, Mississippi University for Women, Mississippi Valley State University, the University of Southern Mississippi, and the University of Mississippi. IHL is a body corporate and politic. The State provides financial support to IHL through state appropriations, tuition, federal grants, and private donations and grants. Also included in the Universities are the financial data of their significant fund-raising foundations. Because the restricted resources held by the foundations can only be used by, or for the benefit of, the specific universities, the foundations are considered component units of the Universities.

The State reports the following nonmajor discretely presented component units:

Mississippi Business Finance Corporation – This is a legally separate entity created and established as a body corporate and politic. The State appoints the voting majority of the board and a financial benefit/burden relationship exists. The Corporation and the State work together, providing support, one to the other, in the State's economic development.

Mississippi Coast Coliseum Commission – This is a legally separate entity created and established as a body corporate and politic. This is a political subdivision of the State. Expenditures are subject to legislative approval. The Commission is fiscally dependent on the primary government and a financial benefit/burden relationship exists. The Commission establishes, promotes, develops, locates, constructs, maintains and operates a multi-purpose coliseum and related facilities within Harrison County, Mississippi.

Mississippi Development Bank – This is a legally separate entity created and established as a body corporate and politic. The State appoints the voting majority of the board and a financial benefit/burden relationship exists. The Bank and the State work together, providing support, one to the other, in the State's economic development.

Mississippi Prison Industries Corporation – This is a legally separate entity created and established as a body corporate and politic. The State appoints the voting majority of the board and may impose its will on the corporation. A financial benefit/burden relationship exists. The Corporation leases and manages the prison industry programs of the Mississippi Correctional Industries.

Pat Harrison Waterway District – This is a legally separate entity created and established as a body corporate and politic. The State does not appoint the voting majority of the board. The District is fiscally dependent and a financial benefit/burden relationship exists. Expenditures are subject to legislative budget approval. The District provides flood relief along the Pascagoula River and its tributaries and preserves and protects these waters for future generations and for economic enhancement of the area and its industrial growth.

Pearl River Basin Development District – This is a legally separate entity created and established as a body corporate and politic. The State does not appoint the voting majority of the board but the District is fiscally dependent and a financial benefit/burden relationship exists. Expenditures are subject to legislative budget approval. The District handles the preservation, conservation, storage and regulation of the waters of the Pearl River and its tributaries and their overflow waters for domestic, commercial, municipal, industrial, agricultural and manufacturing purposes, for recreational uses, flood control, timber development, irrigation, navigation, and pollution abatement.

Pearl River Valley Water Supply District – This is a legally separate entity created and established as a body corporate and politic. The State appoints the voting majority of the board and may impose its will. A financial benefit/burden relationship exists. Expenditures are subject to legislative budget approval. The District operates and maintains the Ross Barnett Reservoir and surrounding district lands to provide water supply, flood reduction and recreational opportunities.

Tombigbee River Valley Water Management District – This is a legally separate entity created and established as a body corporate and politic. The State appoints the voting majority of the board and may impose its will. A financial benefit/burden relationship exists. Expenditures are subject to legislative budget approval. The District provides for a plan of conservation, recreation, water control and utilization, agricultural development and economic advancement within the district.

The discretely presented component units are audited by independent auditors, and their financial statements are issued under separate covers. The audited financial statements are available from each discretely presented component unit.

State officials are also responsible for appointing the members of the boards of other related organizations, but the primary government's financial accountability for these related organizations does not extend beyond making the appointments. These related organizations are Mississippi Hospital Equipment and Facilities Authority, Mississippi Home Corporation and Mississippi Industries for the Blind.

#### C. Government-wide and Fund Financial Statements

**Government-wide Financial Statements** - The Statement of Net Position and the Statement of Activities report information on all nonfiduciary activities of the primary government and its component units. The primary government is further subdivided between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position presents all of the State's nonfiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. GAAP requires that net position be subdivided into three categories:

Net investment in capital assets - capital assets net of accumulated depreciation and related deferred outflows of resources reduced by outstanding balances for bonds, notes and other debt net of unspent debt proceeds and related deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position - assets and deferred outflows of resources less any related liabilities and deferred inflows of resources that are restricted externally by creditors, grantors, contributors, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position - assets that are not classified as net investment in capital assets or restricted net position.

The Statement of Activities demonstrates the degree to which direct expenses of a given function are offset by program revenues. Direct expenses are those that are specifically associated with a service, program, or department and, thus, are clearly identifiable to a particular function. Certain indirect costs have been included as part of the program expenses

reported for the various functions and activities. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. General revenues include taxes and any sources of revenue that are not reported as program revenues.

**Fund Financial Statements** - Separate financial statements are provided for governmental funds, proprietary funds, fiduciary funds, and component units. Major individual enterprise funds are reported as separate columns in the fund financial statements.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation – The government-wide financial statements and the financial statements of the proprietary funds and fiduciary funds (excluding agency funds) are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds have no measurement focus, but use the accrual basis of accounting.

The revenues and expenses of proprietary funds are classified as operating or nonoperating. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's primary operations. All other revenues and expenses are reported as nonoperating.

Governmental fund financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. Current assets, deferred outflows of resources, current liabilities and deferred inflows of resources are included on the balance sheet. Revenues are recognized when measurable and available to finance operations of the current fiscal year. Available means collectible within the current year or soon enough after fiscal year end to liquidate liabilities existing at the end of the fiscal year. The State considers revenues received within 60 days after fiscal year end as available. Significant revenue sources that are susceptible to accrual include sales taxes, individual income taxes, corporate income taxes and federal grants. Licenses, fees, permits and other miscellaneous revenues are recognized when received since they normally are measurable only at that time. Expenditures are recognized upon receipt of goods and services.

The State reports the following major governmental fund:

The General Fund accounts for all activities of the State not specifically required to be accounted for in other Funds. Transactions are related to general government, education, health and social services, law, justice and public safety, recreation and resource development, regulation of business and professions, transportation, capital projects, and debt service.

The State reports the following major enterprise funds:

The Unemployment Compensation Fund accounts for the collection of unemployment insurance assessments from employers and the payment of unemployment benefits to eligible claimants. Funds are also provided by the federal government and investment income.

The Port Authority at Gulfport Fund accounts for operations of a public port providing facilities for foreign and domestic trade. Funding is provided by gross receipts from port operations, proceeds from bond issues and investment income. Expenses include port operation, construction and the payment of maturing bond interest and principal.

The Prepaid Affordable College Tuition Fund accounts for operations of a prepaid college tuition program. Funding is provided by the purchasers' specified actuarially determined payments and investment income.

Additionally, the State reports the following funds:

#### Governmental funds:

Permanent Funds account for transactions related to resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that benefit the government or its citizenry.

#### Proprietary Funds:

Enterprise Funds account for operations where the intent of the State is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or where periodic measurement of the results of operations is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Internal Service Funds account for the operations of state agencies that render services and provide goods to other state agencies or governmental units on a cost-reimbursement basis. These activities include personnel

services, information technology and risk management. In the government-wide financial statements, Internal Service Funds are included with governmental activities.

#### Fiduciary Funds:

Pension Trust Funds account for transactions, assets, liabilities and net position available for plan benefits of the State's Public Employee Retirement System.

Private-purpose Trust Fund accounts for operations of a college savings program under Section 529 of the Internal Revenue Code. Funding is provided by participants' contributions and investment earnings.

Agency Funds account for funds distributed to the various counties and municipalities of the State; for receipt of various taxes, refundable deposits, inventories, and other monies collected or recovered to be held until the State has the right or obligation to distribute them to state funds or to various entities or individuals; and for deposits to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

E. Equity in Internal Investment Pool and Cash and Cash Equivalents - Equity in internal investment pool is cash equity with the Treasurer and consists of pooled demand deposits and investments recorded at fair value. Cash and cash equivalents include bank accounts, petty cash, money market demand accounts, money market mutual funds and certificates of deposit with a maturity date within 90 days of the date acquired by the State.

In accordance with IHL policy, all highly liquid investments with an original maturity date of three months or less are included as cash and cash equivalents for the Universities, a major component unit.

- F. Fair Value Measurements Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GASB establishes a fair value reporting hierarchy to maximize the use of observable inputs when measuring fair value and defines the three levels of inputs as noted below:
  - Level 1 Assets or liabilities for which the identical item is traded on an active exchange, such as publicly-traded instruments or futures contracts.
  - Level 2 Assets and liabilities valued based on observable market data for similar instruments. Fair value is estimated using inputs other than quoted prices included within Level 1 that are observable for assets and liabilities, either directly or indirectly.
  - Level 3 Assets or liabilities for which significant valuation assumptions are not readily observable in the market and instruments, which are valued based on the best available data. Fair value is estimated using unobservable inputs that are significant to the fair value of the assets or liabilities. Level 3 assets may include instruments for which the determination of fair value requires significant management judgment or estimation.
- **G. Investments** Investments, including any land or other real estate held as investments by endowments, are recorded at fair value with all investment income, including changes in the fair value of investments, reported as revenue in the financial statements. Income from short-term interest bearing securities is recognized as earned. Changes in the fair value of investment derivative instruments, including derivative instruments that are determined to be ineffective as hedges, are reported as investment income in the government-wide Statement of Activities.

Investments of the pension trust funds are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Corporate bonds are valued based on yields currently available on comparable securities from issuers of similar credit ratings. Mortgage securities are valued on the basis of future principal and interest payments and are discounted at prevailing interest rates for similar instruments. Short-term investments are reported at fair value when published prices are available, or at cost plus accrued interest, which approximates fair value. The fair value of commingled real estate investment funds is based on independent appraisals, while Real Estate Investment Trusts (REIT) traded on a national or international exchange are valued at the last reported sales price at current exchange rates. For individual investments where no readily ascertainable fair value exists, the Public Employees' Retirement System, in consultation with its investment advisors and custodial bank, has determined the fair values.

- H. Receivables Receivables represent amounts due to the State for revenues earned that will be collected sometime in the future. Amounts expected to be collected in the next fiscal year are classified as "current" and amounts expected to be collected beyond the next fiscal year are classified as "noncurrent." Receivables are reported net of allowances for uncollectible accounts where applicable.
- Interfund Activity In general, eliminations have been made to minimize the double-counting of internal activity, including internal service fund type activity on the government-wide financial statements. Excess revenues or expenses from the internal service funds have been allocated to the appropriate function originally charged for the internal sale as part of this process. However, interfund services, provided and used between different functional categories, have not been eliminated

in order to avoid distorting the direct costs and program revenues of the applicable functions. Transfers between governmental and business-type activities are reported at the net amount on the government-wide financial statements.

In the fund financial statements, transactions for services rendered by one fund to another are treated as revenues of the recipient fund and expenditures/expenses of the disbursing fund. Reimbursements of expenditures/expenses made by one fund for another are recorded as expenditures/expenses in the reimbursing fund and as a reduction of expenditures/expenses in the reimbursed fund. Transfers represent flows of assets between funds of the primary government without equivalent flows of assets in return and without a requirement for payment.

- J. Interfund Balances Interfund receivables and payables have been eliminated from the government-wide Statement of Net Position, except for the residual amounts due between governmental and business-type activities. Fiduciary funds' receivables and payables have been reclassed to accounts receivable and accounts payable, respectively, on the government-wide Statement of Net Position.
- K. Inventories and Prepaid Items Inventories of supplies and materials are stated at cost, generally using the first-in, first-out method. Cost of inventories held for use by the Department of Transportation is determined by the weighted average method. Inventories of supplies and materials of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

- L. Restricted Assets Proprietary fund and component unit assets required to be held and/or used as specified in bond indentures, bond resolutions, trustee agreements, board resolutions and donor specifications have been reported as restricted assets.
- M. Capital Assets Capital assets are reported, net of depreciation, in the applicable governmental or business-type activities columns in the government-wide financial statements. Purchased or constructed capital assets are reported at cost. Donated capital assets are recorded at their acquisition value on the date of donation. Classes of capital assets and their related capitalization thresholds are: land cost or acquisition value on the date of donation, software \$1,000,000, buildings \$50,000, land improvements \$25,000, machinery and equipment \$5,000, infrastructure \$100,000, and construction in progress based on the project's class. Infrastructure acquired prior to July 1, 1980 is not reported in the basic financial statements. The costs of normal maintenance and repairs that do not add to the value of capital assets or materially extend their respective lives are not capitalized. Interest expenditures are not capitalized on capital assets.

Capital assets, excluding land and construction in progress, are depreciated using the straight-line method over the estimated service lives of the respective assets. Estimated service lives include 5 to 20 years for software, 40 years for buildings, 20 years for land improvements, 5 to 15 years for machinery and equipment, 3 years for computer equipment, 5 to 15 years for heavy and outdoor equipment, and 3 to 10 years for vehicles. The estimated service life varies from 12 to 50 years for infrastructure, based on the individual asset.

The State owns various collections, works of art and historical treasures that have not been capitalized because they are held for public exhibition, education or research, and are protected and preserved. The proceeds from sales of such items are used to acquire other items for the collections. These collections include paintings, photographs, various objects of art, historical and scientific artifacts, antique furniture, clothing, books, and relics.

N. Claims and Benefits Payable - In the government-wide and proprietary fund financial statements, a liability for an insurance claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss is reasonably estimable.

In the Prepaid Affordable College Tuition Fund (a major proprietary fund), claims and benefits payable represents the actuarially determined present value of future tuition obligations. In the Unemployment Compensation Fund (a major proprietary fund), claims and benefits payable represents amounts incurred prior to the reporting date.

O. Accumulated Unpaid Personal Leave and Major Medical Leave - State law authorizes payment for a maximum of 30 days accrued personal leave in a lump sum upon termination of employment. No payment is authorized for accrued major medical leave unless employees present medical evidence that their physical condition is such that they can no longer work in a capacity of state government.

The State's obligation for accumulated unpaid personal leave, up to the maximum of 30 days per employee, is reported as "Other Liabilities" in the government-wide financial statements, as well as proprietary and fiduciary fund financial statements. In the governmental funds, only the amounts that normally would be liquidated with expendable available financial resources are accrued as current year expenditures. The State uses the last-in, first-out method of recognizing use of compensated absences. The reported liability applicable to all funds includes the related fringe benefits that the State as employer is required to pay when the accrued compensated absences are liquidated.

Accumulated unpaid major medical leave is not accrued, except in the Universities, because it is not probable that the compensation will be paid in a lump sum other than in the event of severe illness. However, state law authorizes the

Universities to make payment for a maximum of 30 days in a lump sum upon termination of employment for nine-month faculty members eliqible to receive retirement benefits.

- P. Unearned Revenues and Deferred Inflows of Resources Unearned revenues are recognized when assets are received prior to being earned in an exchange transaction. Deferred revenues are reported in the governmental fund financial statements as deferred inflows of resources until such time as the revenues become available.
- Q. Pensions Net pension liability, deferred outflows of resources related to pensions, deferred inflows of resources related to pensions, and pension expense have been measured using the same basis as the PERS fiduciary net position. For the purpose of determining the PERS fiduciary net position, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension system reports investments at fair value.
- R. Net Position/Fund Balance Net Position is the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources on government-wide, proprietary and fiduciary funds financial statements and Fund Balance on governmental funds financial statements. Fund Balances of governmental funds are classified as:

Nonspendable - amounts that cannot be spent because they are not in a spendable form (not expected to be converted to cash) or are legally required to be maintained intact. Examples include inventories and permanent fund principal.

Restricted - amounts where legally enforceable constraints are imposed by an external party such as a grantor, or by the constitution, or by the State Legislature at the same time the revenue is created.

Committed - amounts where constraints are imposed by bills which become law after passage by the State Legislature, the highest decision-making authority in the State. These constraints are imposed separately from the creation of the revenue. The revenue cannot be used for any other purpose unless the State Legislature removes or changes the specified use by taking the same formal action that originally imposed the constraint.

Assigned - amounts where constraints are imposed on the use of resources through the intent of the State Legislature or by its delegation to each agency director.

Unassigned - the residual amount of the General Fund, which is the only fund that reports a positive unassigned fund balance.

When an expenditure is incurred for purposes in which all classifications of spendable fund balance are available, it is the State's general policy to use the fund balances in the following order: restricted, committed, assigned, and unassigned.

- S. Federal Grants Federal grants and assistance awards made on the basis of entitlement periods are recorded as receivables and revenues when entitlement occurs. Federal reimbursement type grants are recorded as revenues when the related expenditures are recognized. Use of grant resources is conditioned upon compliance with terms of the grant agreements and applicable federal regulations, which include subjecting grants to financial and compliance audits.
- T. Bonds and Notes Bond and note proceeds, premiums and discounts are reported as other financing sources or uses in the governmental fund financial statements. In the government-wide and proprietary fund financial statements, bond and note premiums and discounts, as well as refunding charges (the difference between the carrying amount of redeemed/defeased debt and its reacquisition price), are deferred and amortized over the life of the bonds and notes using the straight-line method. Bonds and notes payable are reported net of the applicable unamortized bond and note premium and discount while refunding charges are reported as deferred outflows or deferred inflows of resources. Issuance costs are recognized as debt service expenditures/expenses in the period incurred.
- U. Changes in Accounting Standards The State implemented the following standards issued by GASB in the current fiscal year as required: GASB Statement No. 72, Fair Value Measurement and Application, GASB Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments, and GASB Statement No. 79, Certain External Investment Pools and Pool Participants. The State early implemented GASB Statement No. 82, Pension Issues an amendment of GASB Statements No. 67, No. 68, and No. 73 in the current fiscal year. The provisions of these standards have been incorporated into the financial statements and the notes. The implementations of GASB Statements No. 76, No. 79, and No. 82 did not have a material impact on the State's financial statements and the notes.

#### **Note 2 - Other Accounting Disclosures**

- A. Net Position Restricted by Enabling Legislation The State's net position restricted by enabling legislation represent resources which a party external to government, such as citizens, public interest groups, or the judiciary, can compel the government to use only for the purpose specified by the legislation. The government-wide statement of net position reports \$4,431,757,000 of restricted net position, of which \$255,612,000 is restricted by enabling legislation.
- B. Deficit Net Position At June 30, 2016, the State Treasurer Prepaid Affordable College Tuition Fund (a major proprietary fund) has deficit net position of \$148,458,000. The deficit is a result of actual investment earnings being less than actuarial assumptions. The Department of Corrections Restaurants and Commissary Fund (a nonmajor enterprise fund) and Personnel Board (an internal service fund) have deficit net positions of \$695,000 and \$5,379,000, respectively. These deficits are results of the actuarially determined pension liability reported in the funds' financial statements.
- C. Working Cash Stabilization Reserve Account The Budget Reform Act of 1992 created the Working Cash Stabilization Reserve Account (Account) and required that 100% of the unencumbered General Fund cash balance be deposited into the Account at the close of each fiscal year until the balance reaches \$40,000,000. Thereafter, 50% of the unencumbered General Fund ending cash balance must be deposited into the Account until it reaches 7.5% of General Fund appropriations for the current fiscal year. As required by law, the Account is not considered as a surplus or available funds when adopting a balanced budget. For fiscal year 2016, the Account balance in excess of \$40,000,000 may be permanently transferred to the General Fund to cover deficits. These transfers are restored to the Account out of future annual General Fund ending cash balances until the 7.5% maximum is again attained. At June 30, 2016, the Account, as reported in the General Fund, has an unassigned fund balance of \$292,945,000.
- **D. Fund Balances** In previous years, the restricted fund balance as reported in the General Fund included an amount that had not been assigned to other funds. During fiscal year 2016, \$295,295,000 of the General Fund's fund balance in general government was reclassified from restricted to unassigned. At June 30, 2016, the State's restricted, committed and assigned fund balances are summarized by purpose as follows (amounts expressed in thousands):

		Restricted	Committed	Assigned
Governmental Funds General				
General Government				
Fiscal Affairs	\$	32,360	\$ 6,975	\$ 6,729
Regulatory		19,587	41	
Other		44,328	479	
Education		102,285	9,440	68
Health and Social Services		500,314		
Law, Justice and Public Safety

Total Permanent Fund		6,709		
Total Governmental Funds	\$	3,653,892	\$ 41,724	\$ 10,072

#### **Note 3 - Interfund Transactions**

At June 30, 2016, interfund receivables and interfund payables consisted of (amounts expressed in thousands):

				Due To			
Due From	General	Permanent	Internal Service	Unemployment Compensation	Port Authority at Gulfport	Nonmajor Enterprise	Total
Due i Tolli	General	remanent	Service	Compensation	at Guilport	Litterprise	TOtal
Governmental:							
General	\$	\$ 230 \$	27,121	\$ 6.5	41,133	\$ 10,289 \$	78,779
Internal Service	15,153		287	407		127	15,974
Proprietary:							
Unemployment							
Compensation	1,976						1,976
Prepaid Affordable							
College Tuition	2		1				3
Nonmajor Enterprise	 159		4,405				4,564
Total	\$ 17,290	\$ 230	31,814	\$ 413 \$	41,133	\$ 10,416 \$	101,296

Interfund receivables and payables are the results of 1) timing differences between the date expenses/expenditures occur and the date payments are made and 2) the accrual of tax distributions for taxes collected in the following fiscal year.

At June 30, 2016, amounts due from/to primary government and component units consisted of (amounts expressed in thousands):

						Due To				
	P	Primary Government Component Units								
				Internal						
Due From		General		Service		Universities		Nonmajor		Total
Primary Government:										
General	\$		\$		\$	47,652	\$	124	\$	47,776
Internal Service						2		43		45
Component Units:										
Universities		311		204						515
Nonmajor		81		1,477						1,558
Total	\$	392	\$	1,681	\$	47,654	\$	167	\$	49,894

Amounts due to and due from the primary government and component units are the results of timing differences between the date expenses/expenditures occur and the date payments are made.

At June 30, 2016, interfund transfers consisted of (amounts expressed in thousands):

					Transfer To			
Transfer From	General	Internal Service			Port Authority at Gulfport		Nonmajor Enterprise	Total
Governmental:								
General	\$	\$	299	\$	122,333	\$	8,672	\$ 131,304
Permanent	1,000							1,000
Internal Service	1,941							1,941
Proprietary:								
Unemployment Compensation	51							51
Nonmajor Enterprise	 1,090							1,090
Total	\$ 4,082	\$	299	\$	122,333	\$	8,672	\$ 135,386

Interfund transfers are primarily used to 1) move revenues from funds required to collect them to funds required to expend them, 2) use revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and 3) transfer capital facility construction and debt service expenditures to the funds making the payments.

During fiscal year 2016, the State Legislature authorized transfers of \$58,446,000 from the Working Cash Stabilization Reserve Account to the General Fund to cover deficits due to revenue shortfalls.

#### Note 4 - Deposits and Investments

The State Treasurer maintains a cash and short-term investment pool for all state treasury funds and for investments of certain other state agencies. In addition, the Public Employees' Retirement System (the System), and a small number of other agencies carry out investment activities separate from the State Treasurer. A discussion of statutory authority for these investments follows.

The State Treasurer is authorized to invest all excess treasury funds of the state under Section 27-105-33, Mississippi Code Ann. (1972). Funds in the Working Cash-Stabilization Reserve Account and the Education Improvement Trust Account are invested by the State Treasurer as authorized by Sections 27-103-203 and 7-9-103, respectively, Mississippi Code Ann. (1972).

As a result of the settlement of the State's lawsuit against tobacco companies in 1999, Section 43-13-409, Mississippi Code Ann. (1972) created the Health Care Trust Fund Board (the Board). This code designates the State Treasurer as chairman and gives the Board investment authority.

The System is authorized to invest funds under Section 25-11-121, Mississippi Code Ann. (1972). All investments are governed by the Board of Trustee's policy of the prudent person rule. The prudent person rule establishes a standard for all fiduciaries, to act as a prudent person would be expected to act, with discretion and intelligence, while investing for income and preservation of principal.

#### Primary Government Deposits (except for the System)

Section 27-105-5, Mississippi Code Ann. (1972) authorizes the State Treasurer to implement a statewide collateral pool program which secures all state and local public funds deposits through a centralized system of pledging securities to the State Treasurer. The program requires the State Treasurer as pledgee of all public funds to monitor the security portfolios of approved financial institutions and ensure public funds are adequately secured.

Section 27-105-5, Mississippi Code Ann. (1972) establishes the requirements for a financial institution to be approved as a qualified public funds depository. Generally, financial institutions make annual application to the State Treasurer for state funds by signing a contract and supplying the financial report as provided to its regulatory authority to assure the statutory required 5.5 percent primary capital to total assets ratio. When so approved by the State Treasurer, the financial institution is required to place on deposit with the State Treasurer collateral equal to at least 105 percent of the amount of public funds on deposit in excess of the amount insured by the Federal Deposit Insurance Corporation (FDIC). Collateral may be held by a third party custodian, with approval of the State Treasurer, if conditions are met which protect the State's interests.

Sections 27-105-5 and 27-105-6, Mississippi Code Ann. (1972) establish a public funds guaranty pool administered by the Guaranty Pool Board and the State Treasurer. The Guaranty Pool Board is composed of the State Treasurer, Commissioner of Banking and Consumer Finance, five members nominated by the Mississippi Bankers Association, one member nominated by the Mississippi Supervisors Association, and one member nominated by the Mississippi Municipal League. The Guaranty Pool Board is responsible for reviewing and recommending criteria to be used by the State Treasurer in order to protect public deposits and the depositories in the guaranty pool program.

Sections 27-105-5 and 27-105-6, Mississippi Code Ann. (1972) establish criteria for a financial institution that has been in existence for three years or more to be approved as a qualified public funds depository and a public funds guaranty pool member. Potential guaranty pool members must submit an application and supply financial information to the State Treasurer as provided to its regulatory authority to verify the institution meets certain financial criteria established in the law. In addition to the requirements in the law, the Guaranty Pool Board has established additional membership requirements pursuant to its statutory authority. Once approved as a member of the public funds guaranty pool, the members must submit quarterly financial information to the State Treasurer. The Guaranty Pool Board uses this information to monitor the financial status of each member and the fiscal soundness of the guaranty pool.

Under the criteria established by the Guaranty Pool Board, an approved guaranty pool member must meet the 90 percent security requirement by depositing eligible collateral with the State Treasurer (or an approved custodian). The agreement provides that if a loss to a public depositor in the guaranty pool is not covered by deposit insurance and the proceeds from the sale of securities pledged by the defaulting depository, the difference will be provided by an assessment against other guaranty pool members on a pro rata basis.

Custodial credit risk for deposits is the risk that in the event of the failure of a financial institution, the government will not be able to recover deposits or collateral securities that are in the possession of an outside party. As of June 30, 2016, of the statewide collateral pool cash deposits reported by the financial institutions, \$4,527,000 was uninsured and uncollateralized. Of the cash deposits not included in the statewide collateral pool, \$1,191,000 was uninsured and uncollateralized, and \$106,712,000 was uninsured and collateral held by the pledging financial institution's trust department or agent was not in the government's name.

#### Primary Government Investment Policies (except for the System)

The State Treasurer is authorized to invest all funds in the state pool in the following:

Certificates of deposit or term repurchase agreements with approved financial institutions, banks and savings associations domiciled in Mississippi;

Repurchase agreements and securities lending transactions (with at least 80 percent of the total dollar amount with qualified state depositories);

Direct U.S. Treasury obligations fully guaranteed by the U.S Government;

U.S. Government agency, U.S. Government instrumentality, or U.S. Government sponsored enterprise obligations, the principal and interest of which are fully guaranteed by U.S. Government, U.S. Government agency, U.S. Government instrumentality, or U.S. Government sponsored enterprise; and

Any open-end or closed-end management type investment company or investment trust registered under the provisions of 15 U.S.C. Section 80(a)-1 et seq., provided that the portfolio is limited to direct obligations issued by the U.S. (or its agencies, instrumentalities or sponsored enterprises) and to repurchase agreements fully collateralized by direct obligations of the U.S. (or its agencies, instrumentalities or sponsored enterprises). The total dollar amount of funds invested in all open-end and closed-end management type companies and investment trust cannot exceed 20 percent of total investments. Not more than \$500,000 may be invested with foreign financial institutions.

The State Treasurer, for the Working Cash-Stabilization Reserve Account, the Education Improvement Trust Account, the Mississippi Affordable College Tuition (MPACT) account, and the Mississippi Affordable College Savings (MACS) account; and the Board are authorized to invest in the following:

Bonds, notes, certificates and other valid general obligations of the State, or of any county, city, or supervisor's district of any county of the State;

School district bonds of the State;

Notes or certificates of indebtedness issued by the Veterans' Home Purchase Board, not to exceed five percent of total investments;

Highway bonds of the State;

Corporate bonds of Grade A or better as rated by Standard & Poor's Corporation (S&P) or by Moody's Investors Service. The Board may invest up to 5 percent of the book value of the total fixed income investment in corporate bonds of Grade BBB/Baa or better as rated by S&P or by Moody's Investors Service;

Short-term obligations of corporations, or of wholly-owned subsidiaries of corporations, whose short-term obligations are rated A-3 or better by S&P or rated P-3 or better by Moody's Investors Service;

Bonds of the Tennessee Valley Authority;

Bonds, notes, certificates and other valid obligations of the U.S. or any federal instrumentality that issues securities under authority of an act of Congress and are exempt from registration with the U.S. Securities and Exchange Commission (SEC):

Bonds, notes, debentures and other securities issued by any federal instrumentality and fully guaranteed by the U.S.;

Interest-bearing bonds or notes which are general obligations of any other state in the U.S. or any city or county therein, provided such city or county had a population as shown by the federal census next preceding such investment of not less than 25,000 inhabitants, and provided that such state, city, or county has not defaulted for a period longer than 30 days in the payment of principal or interest on any of its general obligation indebtedness during a period of ten calendar years immediately preceding such investment.

In addition, the Board is authorized to invest in the following:

Bonds rated A or better, stocks and convertible securities of established non-U.S. companies which are listed on primary national stock exchanges of foreign nations and foreign government securities rated A or better by a recognized rating agency. The Board is authorized to hedge such transactions through foreign banks and generally deal in foreign exchange through the use of foreign currency, interbank forward contracts, futures contracts, options contracts, swaps and other related derivative instruments;

Shares of stock, common and/or preferred, of corporations created by or existing under the laws of the U.S. or any state, district or territory thereof;

Covered call and put options on securities traded on one or more of the regulated exchanges;

Pooled or commingled funds managed by a corporate trustee or by a SEC registered investment advisory firm and shares of investment companies and unit investment trusts registered under the Investment Company Act of 1940, where such pooled or commingled funds or shares are comprised of common or preferred stocks, bonds, money market instruments or other authorized investments; and

Pooled or commingled real estate funds or real estate securities managed by a corporate trustee or by a SEC registered investment advisory firm retained as an investment manager by the Board.

#### Primary Government Investments (except for the System)

A. Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The primary government follows the statutes as previously discussed as its policy for limiting exposure to credit risk. The Moody's or S&P credit ratings for the primary government's investments as of June 30, 2016 are as follows (amounts expressed in thousands):

			Qu	ality Ratings		
Investment Type	AAA	AA		Α	BBB	Not Rated
Asset backed securities	\$ 3,138	\$ 2,487	\$	1,532 \$	1,860	\$
Collateralized mortgage obligations	94	1,273		755		337,365
Corporate bonds	1,080	4,539		20,286	3,857	
Mortgage pass-throughs						75,180
Mutual funds	51,937					71,333
State and local obligations		459				
U.S. Government agency obligations	4,781	1,807,752				91,452
Total	\$ 61,030	\$ 1,816,510	\$	22,573 \$	5,717	\$ 575,330

**B.** Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The primary government has no formal policy on limiting exposure to interest rate risk. As of June 30, 2016, the primary government had the following investments and maturities (amounts expressed in thousands):

		Fair Value		Inv	estment Maturiti	ies (in Years	s)	
Investment Type	(1	in thousands)	Less than 1		1 - 5	6 - 10		More than 10
Asset backed securities	\$	9,018	\$	\$	3,618 \$	2,710	\$	2,690
Collateralized mortgage obligations		423,357			1,381	2,537		419,439
Corporate bonds		33,340	2,430		18,400	5,670		6,840
Mortgage pass-throughs		79,984			9,989	24,800		45,195
State and local obligations		459			254	205		
Mutual funds		123,270	54,224		27,743	41,303		
Other Pass Through		179,553	171		24,946	13,102		141,334
U.S. Government agency obligations		1,916,634	169,411		1,523,791	218,011		5,421
U.S. Treasury Obligations		455,087	89,196		355,520	7,945		2,426
Zero coupon bonds		1,809	799		538	472		
Total Primary Government	\$	3,222,511	\$ 316,231	\$	1,966,180 \$	316,755	\$	623,345

Collateralized mortgage obligations (CMOs) are bonds that are collateralized by whole loan mortgages, mortgage passthrough securities or stripped mortgage-backed securities. Income is derived from payments and prepayments of principal and interest generated from collateral mortgages. Cash flows are distributed to different investment classes or tranches in accordance with that CMO's established payment order. Some CMO tranches have more stable cash flows relative to changes in interest rates while others are significantly sensitive to interest rate fluctuations.

Asset backed securities (ABS) are bonds or notes backed by loan paper or accounts receivable originated by banks, credit card companies, or other credit providers. The originator of the loan or accounts receivable paper sells it to a specially created trust, which repackages it as securities. Similar to CMOs, ABS have been structured as pass-throughs and as structures with multiple bond classes.

Mortgage pass-through securities are issued by the FNMA, FHLMC, and Government National Mortgage Association (GNMA). These investments are backed by mortgage loans in which the borrowers have the option of prepaying.

C. Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The primary government limits investment in the Veteran's Home Purchase Board notes or certificates to not more than five percent of total investment holdings. By statute, the Board's investments in stocks of any one corporation are limited to not more than three percent of the book value of their assets. The primary government has the following investments that represent more than five percent of net investments (amounts expressed in thousands):

Federal Home Loan Bank	\$ 414,635	10.03%
Federal Home Loan Mortgage Corporation	855,029	20.68
Federal National Mortgage Association	532,913	12.89
Federal Farm Credit Bank	487.372	11.79

- D. Investment Derivatives In a prior year, the State entered into interest rate swap agreements in connection with variable rate bonds with final maturity dates ranging from fiscal year 2026 to 2028 in order to hedge changes in cash flows. The 2012C and 2012D bonds have been refunded with new final maturities of November 1, 2017 and September 1, 2017, respectively. As a result of the refunding, the portions of the swap agreements attributable to payment dates beyond the maturity dates have no hedgeable item and therefore, are being accounted for as investment derivatives. Details of the June 30, 2016 fair values, changes in fair values, and risk disclosures of the investment derivatives are included in the derivative disclosures presented in Note 9 Long-term General and Limited Obligation Bonds.
- E. Fair Value Measurements The State categorizes its fair value measurements within the fair value hierarchy established by GASB Statement 72. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. As of June 30, 2016, the primary government has the following recurring fair value measurements (amounts expressed in thousands):

mousanus).			Fair Value Measu	ırem	ents Using:
	•	Act	oted Prices in ive Markets For entical Assets	_	nificant Other ervable Inputs
Investment by Fair Value Level	Fair Value		(Level 1)		(Level 2)
Debt securities:					
Asset backed securities	\$ 9,017	\$		\$	9,017
Collateralized mortgage obligations	423,357				423,357
Corporate bonds	33,340				33,340
Mortgage pass-throughs	79,984				79,984
Mutal funds	184,581		184,581		
Other pass throughs	179,554				179,554
State and local obligations	205				205
U.S. Government agency obligations	1,918,391				1,918,391
U.S. Treasury obligations	440,226		440,226		
U.S. Treasury bills	 2,400		2,400		
Total Debt Securities	3,271,055	\$	627,207	\$	2,643,848
Equity securities:					
Domestic equities	146,507		146,507		
Total Equity Securities	146,507		146,507		
Total Investments By Vair Value Level	 3,417,562	\$	773,714	\$	2,643,848
Open-ended comingled funds - foreign	56,962				
Real estate funds	16,306				
Total Investments Measured at NAV	73,268				
Total Investments Measured at Fair Value	\$ 3,490,830				
Investment derivative instruments:					
Interest rate swaps	42,727				42,727
Total Investment Derivative Instruments	\$ 42,727		•	\$	42,727
			=		

Certain investments that are measured at fair value using the Net Asset Value (NAV) per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts included above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position.

Investments measured at NAV per share (or its equivalent) are (amounts expressed in thousands):

			Redemption Frequency	
	 Fair Value	Unfunded Commitments	(If Currently Eligible)	Redemption Notice Period
Open-ended comingled funds - foreign	\$ 56,962 \$	-	Daily	Up to 30 days
Real estate funds	16,306	-	Daily	Up to 60 days
Total Investments at NAV	\$ 73,268	-		

Open-ended comingled funds include two investments that take both long and short positions, primarily in foreign common stocks. Real estate funds include three real estate funds that invest primarily in U.S. commercial real estate and timberland. The investment in the timberland fund can be redeemed upon maturity of the fund. Distributions from the timberland fund will be made as the underlying investments of the funds are liquidated. The U.S. commercial real estate funds have quarterly liquidity availability.

#### **System Deposits**

Section 25-11-121, Mississippi Code Ann. (1972), requires the System's Board of Trustees to determine the degree of collateralization necessary for both foreign and domestic demand deposits in addition to that which is guaranteed by federal insurance programs. These statutes also require that, when possible, the types of collateral securing deposits be limited to securities in which the System itself may invest. The Board of Trustees has established a policy to require collateral equal to at least 100 percent of the amount on deposit in excess of that which is guaranteed by federal insurance programs to the credit of the System for domestic demand deposit accounts. No collateral is required for foreign demand deposit accounts, and at June 30, 2016, the System had no deposits in foreign demand deposit accounts.

For deposits, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. Section 25-11-121, Mississippi Code Ann. (1972), provides that the deposits of the System in any U.S. bank shall, where possible, be safeguarded and guaranteed by the posting of bonds, notes, and other securities as security by the depository. The System's Board of Trustees has formally adopted a short-term investment policy that requires that the market value of securities guaranteeing the deposits shall at all times be equal to 100 percent of the amount of funds on deposit.

#### **System Investment Policies**

The System is authorized to invest in the following:

Bonds, notes, certificates and other valid general obligations of the State, or of any county, city, or supervisor's district of any county of the State;

School district bonds of the State;

Notes or certificates of indebtedness issued by the Veterans' Home Purchase Board, not to exceed five percent of total investments;

Highway bonds of the State;

Corporate bonds rated by S&P or by Moody's Investors Service;

Short-term obligations of corporations, or of wholly-owned subsidiaries of corporations, whose short-term obligations are rated A-3 or better by S&P or rated P-3 or better by Moody's Investors Service;

Bonds of the Tennessee Valley Authority;

Bonds, notes, certificates and other valid obligations of the U.S. or any federal instrumentality that issues securities under authority of an act of Congress and are exempt from registration with the SEC;

Bonds, notes, debentures and other securities issued by any federal instrumentality and fully guaranteed by the U.S.;

Bonds, stocks, and convertible securities of established foreign companies that are listed on primary national stock exchanges of foreign nations and in foreign government securities. The System is authorized to hedge such transactions through foreign banks and generally deal in foreign exchange through the use of foreign currency, interbank forward contracts, futures contracts, options contracts, swaps and other related derivative instruments;

Interest-bearing bonds or notes that are general obligations of any other state in the U.S. or any city or county therein, provided such city or county had a population as shown by the most recent federal census of not less than 25,000 inhabitants, and provided that such state, city, or county has not defaulted for a period longer than 30 days in the

payment of principal or interest on any of its general obligation indebtedness during a period of ten calendar years immediately preceding such investment;

Shares of common and/or preferred stock of corporations created by or existing under the laws of the U.S. or any state, district or territory thereof;

Covered call and put options on securities traded on one or more of the regulated exchanges;

Pooled or commingled funds managed by a corporate trustee or by a SEC registered investment advisory firm and shares of investment companies and unit investment trusts registered under the Investment Company Act of 1940, where such pooled or commingled funds or shares are comprised of common or preferred stocks, bonds, money market instruments or other authorized investments;

Pooled or commingled real estate funds or real estate securities managed by a corporate trustee or by a SEC registered investment advisory firm retained as an investment manager by the System. Section 25-11-121, Mississippi Code Ann. (1972), allows the System to invest up to ten percent of the total portfolio in real estate only via real estate securities and commingled funds. Direct ownership of real estate assets is prohibited. The portfolio is divided between core commingled and value added real estate fund investments, which directly invest in properties, and in managed portfolios of Real Estate Investment Trusts (REITs). REITs are exchange traded securities that provide indirect exposure to real estate properties and real estate management companies. Fair values of commingled fund properties are based on the most recent independent appraisal values. Independent appraisal firms which are Members of Appraisal Institute (MAI) are required to conduct valuations at least annually; and

Up to ten percent of the total book value of investments can be types of investments not specifically authorized by this section, if the investments are in the form of a separate account managed by a SEC registered investment advisory firm retained as an investment manager by the Board of Trustees, or a limited partnership, or commingled fund.

#### **System Investments**

A. Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The System follows the statutes as previously discussed as its policy for limiting exposure to credit risk. The Board of Trustees has adopted a short-term investment policy which further restricts commercial paper to be of corporations with long-term debt to be rated A or better by S&P or Moody's, and whose short-term obligations are of A-2 or P-2 or better ratings by S&P and Moody's, respectively. This applies to all short-term investments. In addition to the short-term investment policy, a policy adopted for the internally-managed short-term account requires that for any amount above the established core of \$30 million, no more than 25 percent may be invested in any issue having a rating lower than AA or A1/P1. Credit risk for derivatives results from the same considerations as other counterparty risk assumed by the System. Policy requires that the credit quality of the underlying asset must be rated A or better by Moody's or S&P. The lending agent is permitted to purchase asset-backed securities for the cash collateral fund that are only AAA rated.

The Moody's or S&P credit ratings for the System's investments as of June 30, 2016 are as follows (amounts expressed in thousands):

			Quality Ra	tings		
Investment Type	Aaa/AAA	Aa/AA	A/A	Baa/BBB	Ba/BB	B/B
Asset backed securities	\$ 1,685,390 \$	16,842 \$	54,553 \$	18,764 \$	9,361 \$	5,495

Repurchase agreements							50,701
Sovereign governments debt		22,774				5,770	3,931
Yankee/Global bonds							2,302
Total	\$	58,813 \$	1,230 \$	17 \$	12,109 \$	5,898 \$	105,497

B. Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Section 25-11-121, Mississippi Code Ann. (1972), requires that all investments be clearly marked as to ownership, and to the extent possible, shall be registered in the name of the System. Of the System's \$27,258,526,000 in investments at June 30, 2016, \$3,809,689,000 was exposed to custodial credit risk. These are cash collateral reinvestment securities held in the name of the custodian who acquired them as the lending agent/counterparty and the securities on loan for securities collateral that is held in the name of the lending agent. This is consistent with the securities lending agreement in place with the custodian.

The fair value of the System's cash collateral securities and the underlying securities on non-cash loans as of June 30, 2016, consisted of (amounts expressed in thousands):

Investment Type	Fair Value
Cash collateral securities	
Asset backed securities	\$ 1,620,508
Commercial paper	84,139
Corporate bonds	1,372,838
Repurchase agreements	242,627
Total cash collateral securities	3,320,112
Underlying securities on non-cash loans	_
Debt securities	20,412
Equities	464,353
Real Estates Investment Trusts	4,812
Total underlying securities on non-cash loans	489,577
Total	\$ 3,809,689

C. Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The System has no formal policy on limiting exposure to interest rate risk. As of June 30, 2016, the System had the following investments and maturities (amounts expressed in thousands):

Investment	N/1 - 4 · · · · · · · · · · · ·	/: V \
invesiment	Mathrities	iin tearsi

					( ,		
Investment Type		Fair Value	Less than 1	1 - 5	6 - 10	More than 10	
Asset backed securities	\$	1,809,959 \$	1,706,751 \$	27,674 \$	28,404 \$	47,130	
Collateralized mortgage obligations		621,518	196,539	12,517	8,815	403,647	
Commercial paper		84,139	84,139				
Corporate bonds		3,131,571	976,716	1,226,942	544,250	383,663	
Mortgage pass-throughs		524,149	4	718	5,884	517,543	
Repurchase agreements		380,412	380,412				
Sovereign governments debt		1,063,637	16,814	323,832	446,967	276,024	
State and local obligations		47,629		15,163	837	31,629	
U.S.Government agency obligations		87,094	57,242	15,265	413	14,174	
U.S. Treasury obligations		735,623	21,803	270,183	176,503	267,134	
Yankee/Global bonds		17,838	466	7,938	6,146	3,288	
Total	\$	8,503,569 \$	3,440,886 \$	1,900,232 \$	1,218,219 \$	1,944,232	

During fiscal year 2016, the investments in derivatives were exclusively in asset/liability based derivatives such as interest-only (IO) strips, CMOs and ABS. The System reviews fair values of all securities on a monthly basis and prices are obtained from recognized pricing sources. Derivative securities are held, in part, to maximize yields. IO and principal-only (PO) strips are transactions which involve the separation of the interest and principal components of a security. They are highly sensitive to prepayments by mortgagors which may result from a decline in interest rates. The System held IO strips valued at \$16,700,000 at fiscal year-end. The derivatives policy limits IO and PO strips to three percent of the investment portfolio.

CMOs are bonds that are collateralized by whole loan mortgages, mortgage pass-through securities or stripped mortgage-backed securities. Income is derived from payments and prepayments of principal and interest generated from collateral mortgages. Cash flows are distributed to different investment classes or tranches in accordance with that CMO's established payment order. Some CMO tranches have more stable cash flows relative to changes in interest rates while others are significantly more sensitive to interest rate fluctuations. In a declining interest rate environment, some CMOs may be subject to a reduction in interest payments as a result of prepayments of mortgages which make up the collateral pool. A reduction in interest payments causes a decline in cash flows and, thus a decline in the fair value of the CMO security. Rising interest rates may cause an increase in interest payments, thus an increase in the value of the security. The System held \$621,500,000 in CMOs at June 30, 2016. Of this amount, \$173,800,000 were tranches that are highly sensitive to future changes in interest rates. CMO residuals are prohibited under the derivatives policy.

ABS are bonds or notes backed by loan paper or accounts receivable originated by banks, credit card companies, or other credit providers. The originator of the loan or accounts receivable paper sells it to a specially created trust, which repackages it as securities. Similar to CMOs, ABS have been structured as pass-throughs and as structures with multiple bond classes. Of the \$1,800,000,000 in ABS held at June 30, 2016, \$26,900,000 are highly sensitive to changes in interest rates. ABS which are leveraged structures or residual interests are prohibited by the derivatives policy.

At June 30, 2016, the System has invested in \$524,200,000 in mortgage pass-through securities issued by the FNMA, FHLMC, and GNMA. These investments are moderately sensitive to changes in interest rates because they are backed by mortgage loans in which the borrowers have the option of prepaying.

D. Foreign Currency Risk - Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. The investment asset allocation policy does not limit foreign currency-denominated investments of the System. The Investment Committee of the Board of Trustees evaluates the actual investment asset allocation quarterly, in accordance with the adopted phase-in policy. Based on current market conditions, the Board adjusts the allocation as necessary. The System's exposure to foreign currency risk at June 30, 2016, is as follows (amounts expressed in thousands):

Currency	Cash and Equivalents		Equities and REITs		Debt Securities	Total Fair Value
Australian dollar	\$ (144,885)	\$	256,135	\$	19,106	\$ 130,356

E. Investment Derivatives - The System's derivatives policy limits foreign currency forwards to no more than 100 percent of the aggregate value of the portfolio securities denominated in the hedged currency. At June 30, 2016, the counterparties of the foreign currency forwards primarily had short term credit ratings of A as rated by the nationally recognized statistical rating organizations. The System's general policy requires that the counterparty has a long term credit rating of A or better and a short term credit rating of A1/P1 at a minimum. More specifically, the System's policy requires that all over-the-counter derivatives be rated AA or better by the nationally recognized statistical rating organizations. The counterparties of the to-be-announced securities were primarily rated A by the nationally recognized statistical rating organizations. The foreign currency forwards are presented in the foreign currency risk table, and the to-be-announced securities are disclosed in the interest rate risk table by years to maturity. The investment derivative instruments outstanding as of June 30, 2016, are as follows (amounts expressed in thousands):

Investment Type	Notional	Changes in Fai	r Value	Fair Value at June 30, 2016			
Investment Type	Amount	Classification	Amount	Classification	Amount		
Foreign currency forwards	\$ (74,666,420)	Investment income	\$ (6,302)	Investment	\$ (6,302)

F. Securities Lending Transactions - The Board of Trustees has authorized the System to lend its securities to broker-dealers with a simultaneous agreement to return the collateral for the same securities in the future. The System's custodian, pursuant to a written agreement, is permitted to lend all long-term securities to authorized broker-dealers subject to the receipt of acceptable collateral. The System lends securities for collateral in the form of either cash or other securities. The types of securities on loan at June 30, 2016, by the System are long-term U.S. Government and agency obligations, corporate bonds, REITs, and domestic and international equities. The contractual agreement with the custodian provides indemnification in the event the borrower fails to return the securities lent or fails to pay the System income distributions by the securities' issuers while the securities are on loan. There have been no significant violations of the provisions of the agreement during the period of this statement.

At the initiation of a cash loan, borrowers are required to provide collateral amounts of 102 percent on U.S. securities and international securities denominated in the same currency of the loaned security. For international securities that are denominated in a currency other than the currency of the loaned security, 105 percent collateral is required at the initiation of the loan. In the event the collateral fair value on U.S. securities and sovereign debt falls to less than 100 percent of the respective fair value of the securities lent, the borrower is required to provide additional collateral by the end of the next business day. In the event the collateral fair value falls below 102 percent for international same-currency transactions or 105 percent for cross-currency transactions, the borrower is required to provide additional collateral.

For non-cash loans, 110 percent collateral is required from the borrowers. The System cannot pledge, lend, or sell securities received as collateral unless the borrower defaults as such, these securities are not presented on the Statement of Fiduciary Net Position. Authorized securities' collateral includes U.S. and non-U.S. government debt obligations and securities, supranational debt obligations, U.S. and non-U.S. equity securities listed on specified indices, U.S. and non-U.S. corporate bonds, and convertible securities. Equities were held as collateral on the non-cash loans as of June 30 2016.

The maturities of the investments made with cash collateral generally do not match the maturities of the securities loans. All securities loans can be terminated on demand by either the System or the borrower, although the average term of these loans was two days at June 30, 2016. Cash collateral was invested in repurchase agreements, corporate bonds and ABS. The weighted average effective duration and the weighted average maturity of all collateral investments at June 30, 2016, were 28 days.

Securities lent at year end for cash and non-cash collateral are presented by type. Securities lent for securities collateral are classified according to the custodial credit risk category for the collateral. There were \$489,577,000 securities lent for securities collateral as of June 30, 2016. The investments purchased with the cash collateral are presented in the discussion of custodial credit risk, since the custodian, as agent, is the counterparty in acquiring these securities in a separate account for the System.

At year end, the System had no credit risk exposure to borrowers because the amount the System owed the borrowers exceeded the amount the borrowers owed the System. At June 30, 2016, the aggregate fair value of securities lending holdings, including accrued interest was \$3,322,858,000 and the aggregate fair value, including accrued interest, of the underlying securities lent was \$3,757,665,000. The value of the collateral pledged by borrowers at year end was \$3,867,110,000.

**G.** Fair Value Measurements - The System categorizes its fair value measurements within the fair value hierarchy established by GASB Statement 72. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the NAV value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The System's assessment of the significance of particular inputs to these fair value measurements requires judgment and

considers factors specific to each asset or liability. As of June 30, 2016, the System has the following recurring fair value measurements (amounts expressed in thousands):

		Fair Value Measurements Using:						
		Act	uoted Prices in tive Markets For entical Assets		gnificant Other servable Inputs	ι	Significant Jnobservable Inputs	
Investment by Fair Value Level	Fair Value		(Level 1)		(Level 2)		(Level 3)

**Debt and Equity** - The System's debt and equity securities in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Securities classified in Level 2 of the fair value hierarchy are valued using a proprietary pricing source. The primary proprietary pricing source utilizes continuous evaluations throughout the trading day based on factors such as dealer quotes and trades, trade execution data, and transaction reporting services. Along with market sources, relative credit information, observed market movements, and sector news is integrated and incorporated into evaluation pricing applications and models. Commercial and residential mortgage-backed securities classified in Level 3 are valued using discounted cash flow techniques. Collateralized debt obligations classified in Level 3 are valued using a proprietary model that monitors structured product markets, interest rate movements, new issue information, and other pertinent data. Evaluations of tranches (non-volatile and volatile) are based on market modeling, trading, and pricing conventions. New issue features are analyzed on data such as pricing speed, spread, and volatility. Information is also solicited from outside sources including secondary dealers, portfolio managers and research analysts.

**Derivative Instruments** – The System held derivative instruments in the form of U.S. Treasury strips, collateralized mortgage obligations, asset-backed securities, and currency conversions as of June 30, 2016.

**Real Estate** - The System's real estate funds include open-end funds and closed-end limited partnerships that invest primarily in US commercial real estate. The fair values of these investments have been determined using the NAV per share (or its equivalent) of the System's ownership interest in the fund or partners' capital, as applicable. The governing document for each open-end real estate fund provides investors the ability to request the redemption of all or part of their fund investments. The funds resulting from an investor's redemption request are raised by the sale of underlying real estate investments held by the open-end fund. Closed-end real estate funds, governed by limited partnership agreements, do not contain provisions for limited partner redemptions on demand. Closed-end funds have a finite life or term, which is defined in the limited partnership agreement. Typically, real estate investments must be made within the first three to four years of the partnership's lifespan, and liquidated by the end of the 10<sup>th</sup> year. As underlying real estate investments are sold over the life of the closed-end fund, pro-rata distributions of the proceeds are made to each partner in the fund partnership. The standard liquidation period of 10 years with the option of two one-year extensions applies to the one percent of the total portfolio invested in closed-end funds.

**Private Equity** – The System's private equity investments consist of two fund-of-funds (FOF) limited partnerships that invest in multiple private equity funds on behalf of the System. Private equity funds invest primarily in non-public companies whose prices are not quoted on a stock exchange; therefore, these investments are typically illiquid in nature. The System's ownership in the underlying private equity funds consists of limited partnership interests. Because these partnership interest are illiquid, the System's investments cannot be redeemed on demand. Instead pro-rata distributions are received through the liquidation of the assets of the underlying partnerships. Based on the terms of each limited partnership within the System's FOFs, all partnership assets should be liquidated over the 10-to-12 year life of the individual partnership.

As of June 30, 2016, it is probable that all the System's private equity underlying investments will be sold at an amount different from the NAV per share (or its equivalent) of the System's ownership interest in partners' capital. Therefore, the fair values of these underlying investments have been determined using recent observable transaction information for similar investments and non-binding bids received from potential buyers of the investments of each partnership. As of June 30, 2016, a buyer (or buyers) for these investments has not yet been identified. Each underlying private equity fund's general partner has full discretion for the disposition of each partnership investment. The general partner is solely responsible for determining the most appropriate timing for the sale of each investment and the best exit strategy to utilize. In addition, the general partner is responsible for identifying all buyers and approving all sale transactions of partnership investments.

Investments measured at the NAV (amounts expressed in thousands):

#### Note 9 - Long-term General and Limited Obligation Bonds

Bond indebtedness incurred by the State must be authorized by legislation governing the specific programs or projects to be financed. Such legislation provides the state bond commission authority to approve and authorize the sale and issuance of bonds. The state bond commission is comprised of the Governor as chairman, the State Attorney General as secretary, and the State Treasurer.

#### A. General Obligation Bonds

General obligation bonds are issued to provide funds for capital improvements which include repairing, renovating, or constructing state owned facilities, to provide loans and grants to local governments and other entities for economic development and capital improvements, and to provide grants to community colleges and universities for capital improvements. General obligation refunding bonds are issued to currently refund or advance refund certain outstanding bonds for both capital and non-capital related purposes, the majority of which are non-capital related. Certain general obligation refunding bonds issued by the State as of June 30, 2016 pay interest at variable rates. The remaining general obligation debt has fixed rates of interest.

The Tax Reform Act of 1986 requires governmental entities issuing tax-exempt bonds to refund to the U. S. Treasury interest earnings on bond proceeds in excess of the yield on those bonds. The State must comply with arbitrage rebate requirements in order for their bonds to maintain tax-exempt status. As of June 30, 2016, no arbitrage rebate liability existed.

General obligation bonds are backed by the full faith, credit and taxing power of the state. Although certain general obligation debt is being retired from the resources of the business-type activities and is, therefore, recorded in those funds, the State remains contingently liable for its payment.

#### **Defeased Bonds**

In prior years, the State defeased certain outstanding general obligation bonds of the primary government by depositing the proceeds in irrevocable trusts to be used solely for satisfying all future scheduled principal and interest payments on the refunded debt. Accordingly, for financial reporting purposes, the defeased bonds and related trust accounts are not included in the financial statements. At June 30, 2016, \$499,235,000 of outstanding general obligation bonds are considered defeased.

At June 30, 2016, the primary government's outstanding general obligation bonds as presented in governmental activities and business-type activities are (amounts expressed in thousands):

Purpose	Outstanding Amount	Interest Rates	Final Maturity Date	Original Amount
Governmental Activities:				
Milk Producers	\$ 855	5.02% - 5.17%	Dec. 2017	\$ 3,500
Technology Alliance	865	.64% - 3.73%	Oct. 2026	1,550

Total General Obligation Bonds	\$ 4,399,445			\$ 6,100,720

<sup>\*</sup> General obligation refunding bonds include \$60,335,000 of outstanding variable rate bonds with an associated interest rate swap agreement where the state pays the counterparty fixed rate payments ranging from 3.98% to 4.037% and receives variable rate payments computed based on the SIFMA swap index. Also included are \$100,000,000 of outstanding variable rate general obligation refunding bonds with an interest rate swap agreement where the state pays the counterparties fixed rate payments ranging from 5.248% to 5.708% and receives variable rate payments computed based on one-month LIBOR. The remaining outstanding general obligation bonds have fixed rates of interest.

At June 30, 2016, future general obligation debt service requirements for the primary government are (amounts expressed in thousands):

		Governmen		ctivities		Business-t	type Activities

#### **Derivative Instruments**

The State entered into interest rate swap agreements in connection with \$160,335,000 of outstanding variable rate debt in order to hedge changes in cash flows. At June 30, 2016, the State had the following pay-fixed interest rate swap derivative instruments reported in governmental activities, all of which had the objective of hedging the interest rate risk of the variable rate bonds.

Associated Bonds	Notional Amount	Effective Date	Final Maturity Date	Terms	Counterparty Credit Rating
2012C	\$ 50,000,000	Aug. 2012	Nov. 2017	Pay 5.708%; receive one-month LIBOR	AA-/Aa2/AA
2012C	50,000,000	Aug. 2012	Nov. 2017	Pay 5.248%; receive one-month LIBOR	A/A1/AA-
2012D	27,780,000	Aug. 2012	Sept. 2017	Pay 4.037%; receive SIFMA swap index	BBB+/A3/A
2012D	32,555,000	Aug. 2012	Sept. 2017	Pay 3.980%; receive SIFMA swap index	BBB+/A3/A

The swaps associated with the 2012C and 2012D variable rate bonds had an effectiveness determined using regression analysis on variable interest rate bonds. The variability of the cash flows of the bond coupons is affected by more than changes in the benchmark interest rate. For example, changes in the credit quality of the State's bonds would affect its interest rates. The State's specific objective, however, is to offset changes in the cash flows of the bond coupons attributable to changes in the benchmark interest rate (a cash flow hedge). The relevant benchmark interest rate indexes for the 2012C and 2012D variable rate bonds are LIBOR and SIFMA, respectively. For the 2012C and 2012D bonds, the swaps that the State entered into do not meet the criteria for the consistent critical terms method. Because the swaps are a hedge of interest rate risk as opposed to the risk of changes in overall cash flows associated with the bond coupons, the State is precluded from using the synthetic instrument method to evaluate effectiveness. Unable to apply either the consistent critical terms method or the synthetic instrument method, the State has chosen to apply the regression analysis method for financial reporting purposes as well as tax compliance purposes.

The regression analysis method evaluates effectiveness by considering the statistical relationship between the cash flows or fair values of the potential hedging derivative instrument and the hedgeable items. The changes in cash flows or fair values of the potential hedging derivative instrument substantially offset the changes in cash flows or fair values of the hedgeable item if all of the following criteria are met;

The R-squared of the regression analysis is at least 0.80

The F-statistic calculated for the regression model demonstrates that the model is significant using a 95 percent confidence interval.

The regression coefficient for the slope is between -1.25 and -.80.

Data was used from November and December 2013 through June 30, 2016, to determine if the potential hedging derivative instruments were effective as of June 30, 2016. The use of the regression analysis method requires appropriate interpretation and understanding of the statistical inferences.

The resulting calculation shows that using over 30 observations, the resulting adjusted R-square is .99, the F-statistic is zero and the regression coefficients for the slopes are between -0.991 and -0.986. Based on these parameters required to apply hedge accounting, the 2012C and 2012D hedges are deemed highly effective.

The hedging derivative instruments are considered hybrid instruments since the derivatives were "off-market" at the time of association with the 2012C and 2012D bonds. Additionally, as a result of the refunding, the resulting maturity date was revised to November 1, 2017 and September 1, 2017, for the 2012C and 2012D bonds, respectively. Therefore, the portion of each hedging derivative instruments value attributable to payment dates beyond the maturity date will be accounted for as an investment derivative, since there is no hedgeable item beyond that date.

Fair Value - Fair values for the swap transactions were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero – coupon bonds due on the date of each future net settlement on the swap.

The fair value balances at June 30, 2016 and the changes in fair value of pay fixed receive-variable interest rate swaps reported in governmental activities are (amounts expressed in thousands):

Associated	ssociated Notional Changes in Fair Value		Fair Value at Ju	ıne 30	ne 30, 2016		
Bonds		Amount	Classification	Amount	Classification		Amount
2012C	\$	50,000	Interest expense	\$ 2,414	Borrowing	\$	(3,221)
			Deferred outflows of resources	0	At-market derivative		33
			Investment revenue	(7,731)	Investment derivative		(19,715)
2012C		50,000	Interest expense	1,982	Borrowing		(2,642)
			Deferred outflows of resources	55	At-market derivative		(357)
			Investment revenue	(5,513)	Investment derivative		(13,355)
2012D		27,780	Interest expense	1,041	Borrowing		(1,115)
			Deferred inflows of resources	1,278	At-market derivative		1,143
			Investment revenue	(2,544)	Investment derivative		(4,725)
2012D		32,555	Interest expense	1,173	Borrowing		(1,278)
			Deferred outflows of resources	123	At-market derivative		(37)
			Investment revenue	(2,039)	Investment derivative		(4,932)
	\$	160,335		\$ (9,761)		\$	(50,201)

Hedged Debt and Derivative Instrument Payments - The interest and net swap payments shown assume that interest rates at year end will remain unchanged for the term of the bonds and the hedges. As interest rates vary, interest payments on the variable rate bonds and the net swap payments will change. At June 30, 2016, future debt service requirements on the hedged variable rate bonds and net payments on associated hedging derivative instruments are (amounts expressed in thousands):

					Net Swap			
Year Ending June 30		Principal		Interest	Payment	Total		
2017	\$	4,755	\$	1,732	\$ 7,225	\$	13,712	
2018		161,255		485	2,062		163,802	
	\$	166,010	\$	2,217	\$ 9,287	\$	177,514	

Interest Rate Risk - Although the interest rates on the bonds are synthetically fixed under the swap agreements, interest payments on the variable rate bonds and the net payments under the swap agreements will vary as interest rates change.

Credit Risk - The swap agreements and Section 31-18-11, Mississippi Code Ann. (1972), require that the counterparties have credit ratings by at least one nationally recognized statistical rating agency that are within the two highest investment grade categories, and credit ratings by all other nationally recognized statistical rating agencies that are within the three highest grade categories, otherwise the payment obligations of the counterparty shall be unconditionally guaranteed by an entity with such credit ratings. Section 31-18-11, Mississippi Code Ann. (1972), also requires that should the credit rating of the counterparty or of the entity unconditionally guaranteeing the counterparty's obligations fall below the required rating, that the obligations of such counterparty shall be fully and continuously collateralized by direct obligations of, or obligations the principal and interest on which are guaranteed by the United States of America, with a net market value of at least 102% of the net market value of the swap agreements and shall be deposited as directed by the State. Additionally, Section 31-18-11, Mississippi Code Ann. (1972 requires that the counterparty, or the entity guaranteeing the counterparty's obligations, have a net worth of at least \$100,000,000. The State is not exposed to credit risk at June 30, 2016, as all hedging and investment derivative instruments are in a liability position.

Basis Risk - The swap agreements expose the State to basis risk because the applicable interest rates under the swap agreements are based on LIBOR and SIFMA swap indexes, which may differ from the interest rates for the State's variable rate bonds. As of June 30, 2016, the weighted average variable interest rate paid on the bonds was 1.07266%, while the SIFMA swap index was .41% and one-month LIBOR was .4527%.

Termination Risk - The swap agreements are documented by using the International Swap Dealers Association Master Agreement which includes standard termination events, such as failure to pay and bankruptcy. The schedule to the Master Agreement includes additional termination events providing that the swap agreements may be terminated if either the State's or the counterparty's credit rating falls below certain levels. The State or the counterparties may terminate the swap agreements if the other party fails to perform under the terms of the contract. If one or more of the swap agreements are terminated, the State would no longer have a synthetic fixed rate with respect to the previously hedged bonds and would be exposed to these bonds' variable interest rates. Also, if at the time of termination the swap agreements have a negative fair value, the State would incur a loss and would be required to pay the swap agreements' fair value to the counterparty. If the swap agreements have a positive fair value at the time of termination, the State would realize a gain and would receive the swap agreements' fair value from the counterparty.

#### **B.** Limited Obligation Bonds

Limited obligation bonds are payable exclusively from specific pledged General Fund revenues. Such obligations are not secured by the full faith, credit and taxing power of the state, and holders of such obligations are not entitled to look to other state resources for payment.

During fiscal year 2016, the State issued limited obligation bonds, Series 2015E totaling \$200,000,000 to provide funding for road and bridge projects. These bonds mature serially from fiscal year 2017 through fiscal year 2036 with interest rates ranging from two to five percent.

At June 30, 2016, the primary government's outstanding limited obligation bonds as presented in governmental activities were \$200,000,000 with future debt service requirements as follows (amounts expressed in thousands):

Year Ending June 30	Principal	Interest
2017	\$ 3,405	\$ 9,692
2018	5,195	9,580
2019	6,755	9,367

#### Note 11 - Revenue Bonds and Notes

Revenue bonds and notes are backed by a pledge of resources derived from users of the related facilities and are not supported by the full faith and credit of the State.

At June 30, 2016, outstanding revenue bonds and notes are (amounts expressed in thousands):

(	Outstanding Interest Amount Rates		Final Maturity Date		Original Amount
\$	1,121,487	.29% - 6.84%	Sept. 2046	\$	1,534,761
	10,819	1.29% - 5.13%	Sept. 2039		30,402
\$	1,132,306			\$	1,565,163
	\$	\$ 1,121,487 10,819	Amount Rates  \$ 1,121,487	Outstanding Amount         Interest Rates         Maturity Date           \$ 1,121,487         .29% - 6.84%         Sept. 2046           10,819         1.29% - 5.13%         Sept. 2039	Outstanding Amount         Interest Rates         Maturity Date           \$ 1,121,487         .29% - 6.84%         Sept. 2046         \$ 10,819           \$ 1.29% - 5.13%         Sept. 2039

At June 30, 2016, future revenue bond and note debt service requirements are (amounts expressed in thousands):

_					
[∵OI	mpa	าทอ	nt	lln	iite

Year Ending June 30	Principal	Interest		
2017	\$ 40,670	\$ 45,148		
2018	36,746	44,243		
2019	38,541	43,604		
2020	38,828	42,583		
2021	40,782	41,458		
2022 - 2026	207,353	183,799		
2027 - 2031	228,315	139,991		
2032 - 2036	232,688	90,114		
2037 - 2041	193,215	37,201		
2042 - 2046	75,168	4,562		
	\$ 1,132,306	\$ 672,703		

#### Note 12 - Other Long-term Liabilities

- A. Compensated Absences The State's liability for compensated absences at June 30, 2016 is \$111,164,000 for governmental activities and \$632,000 for business-type activities. Internal service compensated absences of \$1,253,000 are included in governmental activities. For governmental activities, accrued compensated absences are generally paid out of the general fund. The component units' liability for compensated absences is \$129,115,000 of which \$128,310,000 is for the Universities. The reported liability includes related fringe benefits and excludes any obligations related to leave accumulations in excess of 30 days per employee (see Note 1-O).
- B. Pollution Remediation Obligation As of June 30, 2016, six Superfund sites in the State are in various stages of cleanup ranging from initial assessment of contamination to cleanup of chemical spills. Numerous leaking underground storage tank sites exist where motor fuels contaminate soil and groundwater, and present inhalation and explosive hazards. Under federal and state law, the State is legally obligated to remedy the detrimental effects of existing pollution through site investigation and assessment, restoration and replacement, cleanup, and monitoring.

At June 30, 2016, the primary government's pollution remediation obligation is \$42,946,000. This estimate is based on professional judgment, experience, historical cost data, and the use of the expected cash flow technique. Recoveries from other responsible parties, which would reduce the State's remediation liability, are not anticipated. Costs of pollution remediation are paid out of the general fund. Remediation obligation estimates may change over time. Estimated costs will vary due to changes in technology, fluctuation in prices, changes in potential responsible parties, and changes in regulations.

**C. Notes Payable -** At June 30, 2016, the primary government's outstanding notes payable as presented in governmental activities are (amounts expressed in thousands):

				Final	
	0	utstanding	Interest	Maturity	Original
Purpose		Amount	Rates	Date	Amount
Utility restoration	\$	75,420	5% - 5.45%	Jul. 2019	\$ 112,520
Energy efficiency		11,020	3.10% - 4.50%	Apr. 2026	14,698
Buildings		209,925	2% - 5.37%	Jul. 2031	217,970
Roads and bridges		684,126	1% - 6.59%	Jan. 2040	 762,266
Total		980,491			1,107,454
Premiums		75,298			
Total Notes Payable, Net	\$	1,055,789	•		\$ 1,107,454

#### **Refunding and Defeased Notes**

During fiscal year 2016, the State issued two refunding notes.

The State issued \$7,405,000 of refunding notes to advance refund notes payable reported in governmental activities. The advance refunding was undertaken to reduce debt service payments over the next 12 years by \$511,000, and obtain an economic gain (the difference between the present value of the debt service payments for the refunded and refunding notes) of \$450,000.

The State issued \$63,720,000 of refunding notes to advance refund notes payable reported in governmental activities. The advance refunding was undertaken to reduce debt service payments over the next 20 years by \$3,041,000, and obtain an economic gain (the difference between the present value of the debt service payments for the refunded and refunding notes) of \$2,220,000.

The net proceeds of the refunding issues were deposited in irrevocable trusts to be used solely for satisfying all future scheduled principal and interest payments on the refunded debt. Accordingly, for financial reporting purposes, the defeased notes and related trust accounts are not included in the financial statements. At June 30, 2016, \$162,770,000 of outstanding notes are considered defeased.

At June 30, 2016, future debt service requirements for notes payable as presented in governmental activities are (amounts expressed in thousands):

Year Ending June 30	Principal	Interest
2017	\$ 65,667	\$ 51,894
2018	68,395	48,901
2019	68,922	43,308
2020	70,846	39,962
2021	53,668	37,065
2022-2026	310,163	143,727
2027-2031	196,695	69,703
2032-2036	101,030	31,320
2037-2041	45,105	7,382
Total	 980,491	473,262
Premiums	75,298	
Total Debt Service, Net	\$ 1,055,789	\$ 473,262

D. Capital Lease Commitments - The State leases property with varying terms and options. Most leases contain a fiscal funding addendum stating that the lease shall terminate on the last day of the fiscal year if appropriated funds for the ensuing fiscal year are insufficient. However, if renewal is reasonably assured, leases requiring appropriation by the State Legislature are considered non-cancellable leases for financial reporting purposes.

At June 30, 2016, assets recorded under capital leases are as follows (amounts expressed in thousands):

	 Governmental Activities	Business-type Activities	
Land	\$	\$	700
Machinery and Equipment	18,506		293
Accumulated Depreciation	 (8,826)		(56)
Total	\$ 9,680	\$	937

Internal service funds predominately serve the governmental funds. Accordingly, internal service capital assets recorded under capital leases of \$2,490,000 are included in the governmental activities column. The discretely presented component units recorded capital assets acquired through capital leases of \$131,939,000.

At June 30, 2016, future minimum commitments under capital leases are (amounts expressed in thousands):

Year Ending June 30	ernmental ctivities	В	usiness-Type Activities	al Primary vernment	C	omponent Units
2017	\$ 6,030	\$	83	\$ 6,113	\$	11,338
2018	4,224		83	4,307		11,243
2019	2,860		42	2,902		10,167
2020	1,398			1,398		9,367
2021	1,086			1,086		9,474
2022-2026	708			708		49,005
2027-2031						35,323
2032-2036						29,516
2037-2041						2,360
Total Minimum Lease Payments	16,306		208	16,514		167,793
Less Interest	 1,044		10	1,054		64,003
Present Value of Minimum Lease Payments	\$ 15,262	\$	198	\$ 15,460	\$	103,790

Internal service future minimum lease payments of \$1,828,000 less interest of \$131,000 are included in the governmental activities column.

### Note 13 - Changes in Long-term Liabilities

Changes in the primary government's long-term liabilities for the year ended June 30, 2016 are summarized below (amounts expressed in thousands):

	Beginning Balance	Additions	F	Reductions	Ending Balance	ue Within One Year
Governmental Activities:						
General Obligation Bonds (Note 9)	\$ 4,172,435	\$ 298,895	\$	292,956	\$ 4,178,374	\$ 313,388
Premiums/Discounts (Note 9)	208,892	22,674		20,191	211,375	20,551
Limited Obligation Bonds (Note 9)		200,000			200,000	3,405
Premiums (Note 9)		27,460		953	26,507	1,374
Notes Payable (Note 12)	1,037,310	71,125		127,944	980,491	65,667
Premiums (Note 12)	76,684	6,194		7,580	75,298	7,079
Total Bonds and Notes	5,495,321	626,348		449,624	5,672,045	411,464
Derivative Instruments (Note 9)	40,440	9,761			50,201	
Capital Lease Obligations (Note 12)	20,209	3,420		8,367	15,262	5,607
Accrued Compensated Absences (Note 12)	118,498	62,056		69,390	111,164	10,220
Pollution Remediation Obligation (Note 12)	43,089	11,534		11,677	42,946	7,228
	\$ 5,717,557	\$ 713,119	\$	539,058	\$ 5,891,618	\$ 434,519
Business-type Activities:						
General Obligation Bonds (Note 9)	\$ 12,670	\$	\$	2,974	\$ 9,696	\$ 3,022
Capital Lease Obligations (Note 12)	272			74	198	77
Accrued Compensated Absences (Note 12)	685	404		457	632	52
	\$ 13,627	\$ 404	\$	3,505	\$ 10,526	\$ 3,151

Internal service funds predominantly serve the governmental funds. Therefore, long-term liabilities for internal service funds are included in the governmental activities totals. The beginning and ending balances of governmental activities capital lease obligations include \$2,778,000 and \$1,697,000, respectively, of internal service funds. The beginning and ending balances of governmental activities accrued compensated absences include \$1,262,000 and \$1,253,000, respectively, of internal service funds.

The current portion of accrued compensated absences is reported in accounts payable and other liabilities and the long-term portion is included in noncurrent other liabilities.

### Note 14 – Short-term Financing

A. General Obligation Note – During fiscal year 2016, the State issued a taxable general obligation note, Series 2015A totaling \$30,000,000 to provide short-term financing for the North Central Mississippi Municipal Rail Authority. The 2015A note was scheduled to mature on December 31, 2016, with an interest rate of 0.9%. This note was redeemed with the proceeds of Taxable General Obligation Bonds, Series 2015G dated November 15, 2015. At June 30, 2016, there were no outstanding general obligation notes. Changes in general obligation short-term note activity recorded in governmental activities during fiscal year 2016, are as follows (amounts expressed in thousands):

	Beginning				Ending
	 Balance	Additions	F	Reductions	Balance
General Obligation Note, Series 2015 A	\$ 0	\$ 30,000	\$	30,000	\$ 0

B. Credit Agreements - The Division of Medicaid, which is reported within the General Fund, is authorized to obtain a line of credit up to \$150,000,000 from any special source funds in the state treasury or commercial lenders to cover temporary cash flow shortfalls in providing health care services. This line of credit is secured by the first available funds received by the Division of Medicaid and is to be repaid by the end of the quarter following the loan origination. Changes in the line of credit activity during fiscal year 2016, are as follows (amounts expressed in thousands):

	Beginning					Ending	
		Balance		Additions	F	Reductions	Balance
Medicaid Line of Credit	\$	53,000	\$	0	\$	53,000	\$ 0

### Note 15 - Retirement Plans

#### **Plan Description**

In accordance with state statutes, Public Employees' Retirement System (PERS) Board of Trustees (System) administers four defined benefit plans. The defined benefit plans are the PERS, a cost-sharing multiple-employer public employee retirement system established in 1952, Mississippi Highway Safety Patrol Retirement System (MHSPRS), a single-employer public employee retirement system established in 1958, the Municipal Retirement Systems (MRS), which are agent multiple-employer defined benefit public employee retirement systems composed of 19 separate municipal retirement and fire and police disability and relief systems, and Supplemental Legislative Retirement Plan (SLRP), a single-employer public employee retirement system established in fiscal year 1990.

PERS, MHSPRS, MRS and SLRP are considered part of the State of Mississippi's financial reporting entity and are included in the accompanying financial statements as pension trust funds. The purpose of these plans is to provide pension benefits for all state employees, sworn officers of the state highway patrol, other public employees whose employers have elected to participate, and elected members of the State Legislature and the president of the Senate. The System issues a Comprehensive Annual Financial Report, which includes PERS, MHSPRS, MRS and SLRP, that is available from Public Employees' Retirement System of Mississippi.

#### Membership and Benefit Provisions

**Public Employees' Retirement System:** Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by the political subdivisions and instrumentalities of the State, membership is contingent upon approval of the entity's participation in PERS by the System's Board of Trustees. If approved, membership for these employees is a condition of employment and eligibility is granted to those who qualify upon hiring. A member who terminates employment from all covered employers and who is not eligible to receive monthly retirement benefits may request a refund of his or her accumulated member contributions plus interest. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions.

Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2 percent of their average compensation for each year of credited service up to and including 30 years (25 years for those who became members before July 1, 2011) plus 2.5 percent for each additional year of credited service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of credited service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. Benefit provisions are established by Section 25-11-1 et seq., Mississippi Code Ann. (1972) and may be amended only by the State Legislature.

A Cost-of-Living Adjustment (COLA) is made to eligible retirees and beneficiaries. The COLA is equal to 3 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3 percent compounded for each fiscal year thereafter. For the year ended June 30, 2016, the total annual COLA payments for PERS were \$559,888,000.

Mississippi Highway Safety Patrol Retirement System: Membership in MHSPRS is a condition of employment granted upon hiring for all officers of the Mississippi Highway Safety Patrol who have completed a course of instruction in an authorized highway patrol training school on general law enforcement and who serve as sworn officers of the highway patrol in the enforcement of the laws of the State. Participating members who withdraw from service at or after age 55 with at least five years of membership service, or after reaching age 45 with at least 20 years of credited service, or with 25 years of service at any age, are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.5 percent of average compensation during the four highest consecutive years of earnings, reduced 3 percent for each year below age 55 or 3 percent for each year under 25 years of service, whichever is less. MHSPRS also provides certain death and disability benefits. A member who terminates employment from the highway patrol and who is not eligible to receive monthly retirement benefits may request a refund of his or her accumulated employee contributions plus interest. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions. Benefit provisions for MHSPRS are established by Section 25-13-1 et seq., Mississippi Code Ann. (1972) and may be amended only by the State Legislature.

A COLA payment is made to eligible retirees and beneficiaries. The COLA is equal to 3 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60, with 3 percent compounded for each fiscal year thereafter. For the year ended June 30, 2016, the total annual COLA payments for MHSPRS were \$9,008,000.

**Municipal Retirement Systems:** Membership in the two general Municipal Retirement Systems and the 17 Fire and Police Disability and Relief Systems was granted to all municipal employees, fire fighters, and police officers who were not already members of PERS and who were hired prior to July 1, 1976. Two fire and police plans elected to extend the eligibility period for membership to July 1, 1987. Eligible employees hired after these periods automatically become members of PERS. The Municipal Retirement Systems were all closed to new members by July 1, 1987.

Regardless of age, participating employees who retire with at least 20 years of membership service are entitled to an annual retirement allowance payable monthly for life in an amount equal to 50 percent of their average monthly compensation and an additional 1.7 percent for each year of credited service beyond 20 years, not to exceed 66.67 percent of average monthly compensation, except as may otherwise be provided through local and private legislation. Average monthly compensation for the two Municipal Retirement Systems and the 17 Fire and Police Disability and Relief Systems is the monthly average for the last six months of service. Certain participating employers provide a minimum monthly retirement allowance. Benefits vest upon reaching 20 years of credited service. MRS plans also provide certain death and disability benefits. Members who terminate employment from all covered employers and are not eligible to receive monthly retirement benefits may request a full refund of employee contributions. Members covered by MRS do not receive interest on their accumulated contributions. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions. Benefit provisions are established by Sections 21-29-1 et seq., Articles 1, 3, 5 and 7, Mississippi Code Ann. (1972) and annual local and private legislation. Statutes may be amended only by the State Legislature.

The retirees and beneficiaries of MRS plans with provisions for COLAs, who are receiving a retirement allowance on July 1 of each fiscal year, may be entitled to a COLA. This payment is equal to the annual percentage change of the Consumer Price Index (CPI) but not to exceed 2.5 percent of the annual retirement allowance for each full fiscal year of retirement. Certain MRS plans may adopt a COLA other than one linked to the change in the CPI. These additional payments will be made only when funded by the employers. For the year ended June 30, 2016, the total COLAs for MRS plans were \$5,534,000.

**Supplemental Legislative Retirement Plan:** Membership in SLRP is composed of all elected members of the State Legislature and the president of the Senate. This plan is designed to supplement the provisions of PERS. Those serving when SLRP became effective July 1, 1989, had 30 days to waive membership. Those elected after July 1, 1989, automatically become members. Members and employers are statutorily required to contribute certain percentages of salaries and wages as specified by the Board of Trustees.

The retirement allowance is 50 percent of an amount equal to the retirement allowance payable by PERS, determined by credited service as an elected senator or representative in the State Legislature or as president of the Senate. Benefits vest upon completion of the requisite number of membership service years in PERS. SLRP also provides certain death and disability benefits. A member who terminates legislative employment and who is not eligible to receive monthly retirement benefits may request a refund of his or her accumulated employee contributions plus interest. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions. Benefit provisions for SLRP are established by Section 25-11-301 et seq., Mississippi Code Ann. (1972) and may be amended only by the State Legislature.

Retirees and beneficiaries of SLRP may receive COLAs calculated identically to PERS retirees and beneficiaries. For the year ended June 30, 2016, the total COLAs for SLRP were \$283,000.

#### **Contribution Requirements**

Contribution provisions for PERS, MHSPRS and SLRP are established by state statute. The adequacy of these rates is assessed annually by actuarial valuation. Contribution provisions for MRS are established by state statute and annual local and private legislation. State statutes may be amended only by the State Legislature.

The following table provides information concerning funding policies (amounts expressed in thousands):

	PERS	MHSPRS	MRS	SLRP
Contribution rates as a percent of covered payroll:				
State	15.75% *	37% *	N/A	7.4% *
Other employers	N/A	N/A	.87 – 7.79 mills****	N/A
Plan members	9%	7.25%	7% - 10%	3% **
Employer contributions made	\$ 1,021,261	\$ 14,755***	\$ 18,542	\$ 514

- \* In October 2012, the Board adopted a revised funding policy aimed at stabilizing the employer contribution rate and reducing the unfunded actuarial accrued liability. The revised policy established a goal to be 80% funded by 2042 and set the PERS employer rate at 15.75%, MHSPRS rate at 37%, and SLRP rate at 7.4%.
- \*\* In addition to 9% required by PERS.
- Includes fees authorized by the State Legislature, which are reported as other additions in the pension trust funds. Due to Senate Bill No. 2659 enacted in 2004, an estimated additional contribution of \$3,600,000 (13.3 percent of payroll) was used to calculate total required contributions for MHSPRS. The actual amount received in 2016 was \$3,894,000.
- \*\*\*\* Based on assessed property values.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the State reported a liability of \$2,811,832,000 for its proportionate share of the net pension liability in PERS. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's proportion of the net pension liability was based on a projection of the long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At the measurement date, the State's proportion was 18.19%.

At June 30, 2016, the State reported a net pension liability of \$154,596,000 and \$4,757,000 for MHSPRS and SLRP, respectively. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

#### Changes in the Net Pension Liability

The following table details the changes in the net pension liability from the beginning to the end of the measurement year for the single-employer plans, MHSPRS and SLRP (amounts expressed in thousands):

MHSPRS	Total Pension Plan Fiduciary Liability Net Positon		Net Pension Liability		
	 (a)		(b)		(a) - (b)
Balances at June 30, 2015	\$ 445,822	\$	326,032	\$	119,790
Changes for the Year:		-			
Service Cost	6,361				6,361
Interest	34,503				34,503
Difference between expected and					
actual experience	1,013				1,013
Changes in assumptions	19,176				19,176
Contributions - employer			13,695		(13,695)
Contributions - employee			1,938		(1,938)
Net investment income			10,812		(10,812)
Benefit payment, including refunds					
of employee contributions	(29,072)		(29,072)		0
Administrative expense			(198)		198
Net Changes	31,981		(2,825)		34,806
Balances at June 30, 2016	\$ 477,803	\$	323,207	\$	154,596

SLRP	Total Pension Liability	lan Fiduciary Net Positon	Net Pension Liability
	 (a)	 (b)	(a) - (b)
Balances at June 30, 2015	\$ 20,240	\$ 16,453	\$ 3,787
Changes for the Year:	_	_	
Service Cost	406		406
Interest	1,569		1,569
Difference between expected and			
actual experience	(333)		(333)
Contributions - employer		511	(511)
Contributions - employee		207	(207)
Net investment income		552	(552)
Benefit payment, including refunds			
of employee contributions	(1,257)	(1,257)	0
Administrative expense		(10)	10
Other Changes	 588		588
Net Changes	973	3	970
Balances at June 30, 2016	\$ 21,213	\$ 16,456	\$ 4,757

For the year ended June 30, 2016, the State recognized pension expense of \$260,915,000. At June 30, 2016, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (amounts expressed in thousands):

·	Deferred Outflows of Resources	Deferred Inflows of Resources
Governmental Activities:		
Difference between expected and actual experience	\$ 66,892	\$ 478
Net difference between projected and actual earnings on pension plan investments	58	87,111
Changes in proportion	1,522	51,736
Changes of assumptions	255,268	
Contributions subsequent to the measurement date	193,538	
Total Government Activities	517,278	139,325
Business-type Activities:		
Differences between expected and actual experience	541	
Net difference between projected and actual earnings on pension plan investments	500	885
Changes in proportions	1,051	990
Changes of assumptions	1,474	
Contributions subsequent to the measurement date	1,511	
Total Business-type Activities	5,077	1,875
Private Purpose Trust:		
Differences between expected and actual experience	3	
Net difference between projected and actual earnings on pension plan investments		4
Changes of assumptions	13	
Contributions subsequent to the measurement date	13	
Total Private Purpose Trust	29	4
Totals	\$ 522,384	\$ 141,204

Contributions subsequent to the measurement date of \$195,062,000, reported as deferred outflows of resources, will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (amounts expressed in thousands):

Governmental Activities		Business-Type Activities		Private Purpose Trust
Net Outflows & Inflows		Net Outflows & Inflows	•	Net Outflows & Inflows
of Resources		of Resources		of Resources
\$ 58,312	\$	733	\$	4
55,897		616		4
26,316		39		2
43,890		304		2
\$ 184,415	\$	1,692	\$	12
\$	Net Outflows & Inflows of Resources \$ 58,312 55,897 26,316 43,890	Net Outflows & Inflows of Resources \$ 58,312 \$ 55,897 26,316 43,890	Net Outflows & Inflows of Resources         Net Outflows & Inflows of Resources           \$ 58,312         \$ 733           55,897         616           26,316         39           43,890         304	Net Outflows & Inflows of Resources         Net Outflows & Inflows of Resources           \$ 58,312         \$ 733         \$ 55,897         616           26,316         39         304

### **Actuarial Assumptions**

The collective total pension liability was determined by an actuarial valuation as of June 30, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

	PERS	MHSPRS	SLRP
Inflation	3 %	3 %	3 %
Salary increases, including inflation	3.75% - 19 %	4.25% - 9.31 %	3.75 %
Investment rate of return*	7.75 %	7.75 %	7.75 %
Increases in benefits after retirement**	3 %	3 %	3 %

<sup>\*</sup> net of pension plan investment expense, including inflation

<sup>\*\*</sup> PERS and SLRP calculated 3% for each full fiscal year of retirement to age 60 (55 for those who became members before July 1, 2011), with 3% compounded for each fiscal year thereafter. MHSPRS calculated 3% simple interest to age 60, compounded each fiscal year thereafter.

Mortality rates for PERS, MHSPRS and SLRP were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2016, set forward two years for males.

The actuarial assumptions for PERS, MHSPRS and SLRP used in the June 30, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2010, to June 30, 2014. The experience report is dated May 4, 2015.

The long-term expected rate of return on pension plan investments for PERS, MHSPRS and SLRP was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2015, are summarized in the following table:

	Target Asset	Long-term Expected Real
Asset Class	Allocation	Rate of Return
U.S. Broad	34 %	5.20 %
International equity	19	5.00
Emerging markets equity	8	5.45
Fixed income	20	0.25
Real assets	10	4.00
Private equity	8	6.15
Cash	1	(0.50)
Totals	100 %	

#### **Changes of Assumptions**

For PERS, MHSPRS and SLRP in 2015 and later, the expectation of retired life mortality was changed to RP-2014 Healthy Annuitant Blue Collar Table projected to 2016 using Scale BB rather than the RP-2000 Mortality Table, which was used prior to 2015. In 2015, the expectation of disabled mortality was changed to the RP-2014 Disabled Retiree Table, rather than the RP-2000 Disabled Mortality Table, which was used prior to 2015. Pre-retirement mortality rates and service retirement rates were also adjusted to more closely reflect actual experience. In 2015, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience. Finally, the price inflation and investment rate of return assumptions were changed from 3.5% to 3% and 8% to 7.75%, respectively.

#### Single-Employer Benefit Plan Employees

The following employees were covered by the benefit terms of MHSPRS and SLRP at June 30, 2015:

	MHSPRS	SLRP
Inactive employees or beneficiaries currently receiving benefits	724	185
Inactive employees entitled to but not yet receiving benefits	59	51
Active employees	518	174
Totals	1,301	410

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that the plan member contributions will be made at the current contribution rate of 9%, 7.25% and 3% for PERS, MHSPRS and SLRP, respectively, and that employer contributions will be made at the current employer contribution rate 15.75%, 37% and 7.4% for PERS, MHSPRS and SLRP, respectively. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plans members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the State's proportionate share of the net pension liability using the discount rate of 7.75%, as well as what the plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate (amounts expressed in thousands):

			Current	
		1% Decrease	Discount Rate	1% Increase
Net Pension Liability		6.75%	7.75%	8.75%
PERS	\$	3,706,253	\$ 2,811,832	\$ 2,069,631
MHSPRS		213,337	154,596	105,895
SLRP	_	7,014	4,757	2,828
Total	\$	3,926,604	\$ 2,971,185	\$ 2,178,354

Detailed information about the PERS, MHSPRS and SLRP pension plans is available on the PERS of Mississippi website at <a href="https://www.pers.ms.gov">www.pers.ms.gov</a>.

### **Note 16 - Other Postemployment Benefits**

#### **Plan Description**

The State and School Employees' Health Insurance Management Board (the Board) administers the State's self-insured medical plan and life insurance program established by Section 25-15-3 et seq., Mississippi Code Ann. (1972), which may be amended only by the State Legislature. State law mandates that all state, public education, library, junior and community college and retiring employees be offered health and life benefit coverage through the State and School Employees' Life and Health Insurance Plan (the Plan). Since retirees may obtain health insurance by participating in a group with active employees and consequently receive a health insurance premium rate differential, the State has a postemployment healthcare benefit reportable under GASB Statement 45 as a single employer defined benefit healthcare plan. Effective July 1, 2007, the State implemented GASB Statement 45 prospectively, which requires reporting on an accrual basis the liability associated with other postemployment benefits. The State does not issue a publicly available financial report for the Plan.

#### **Funding Policy**

Employees' premiums are funded by the state and local school districts with additional funding provided by retired employees and by active employees for spouse and dependent medical coverage. The Plan is financed on a pay-as-you-go basis. The Board has the sole authority for setting health insurance premiums for the State and School Employees' Life and Health Insurance Plan. For governmental activities, the general fund is typically used to retire the OPEB obligation.

Per Section 25-15-15 (10), Mississippi Code Ann. (1972), any retired employee electing to purchase retiree life and health insurance will have the full cost of such insurance premium deducted monthly from his State retirement plan check or direct billed for the cost of the premium if the retirement check is insufficient to pay for the premium. If the board determines actuarially that the premium paid by the participating retirees adversely affects the overall cost of the Plan to the state, then the board may impose a premium surcharge, not to exceed fifteen percent, upon such participating retired employees who are under the age for Medicare eligibility and who were initially employed before January 1, 2006. For participating retired employees who are under the age for Medicare eligibility and who were initially employed on or after January 1, 2006, the Board may impose a premium surcharge in an amount the Board determines actuarially to cover the full cost of insurance. For the year ended June 30, 2016, retiree premiums range from \$180 to \$1,472 depending on plan election, dependent coverage, Medicare eligibility, and date of hire.

#### **Actuarial Valuation**

The State and School Employees' Life and Health Insurance Plan's Report of the Actuary on the Other Postemployment Benefits Valuation was prepared as of June 30, 2016. The Plan presently has an actuarial valuation performed annually in order to be in compliance with GASB Statement 45.

#### **Annual OPEB Cost and Net OPEB Obligation**

The State's annual OPEB cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC was determined assuming the Plan would fund the OPEB liability on a pay-as-you-go basis. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The current ARC of \$47,297,000 is 1.04 percent of annual covered payroll.

The following table presents the OPEB cost for the year, the amount contributed and changes in the OPEB Plan for fiscal year 2016 (amounts expressed in thousands):

Annual required contribution	\$ 47,297
Interest on prior year net OPEB obligation	7,086
Adjustment to annual required contribution	 (5,433)
Annual OPEB cost	48,950
Contributions made	 (32,270)
Increase in net OPEB obligation	16,680
Net OPEB obligation – Beginning of year	157,474
Net OPEB obligation – End of year	\$ 174,154

The following table provides the State's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for the last three fiscal years as restated (amounts expressed in thousands):

	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2014	\$ 45,253	67.4%	\$ 139,943
2015	49,776	64.8	157,474
2016	48.950	65.9	174.154

### **Funded Status and Funding Progress**

The following table provides funding information for the most recent actuarial valuation date (amounts expressed in thousands):

Actuarial Valuation Date	June 30, 2016
Actuarial Value of Assets	\$ 0
Actuarial Accrued Liability (AAL) Entry Age Normal	\$ 709,077
Unfunded AAL (UAAL)	\$ 709,077
Funded Ratio	0.0%
Annual Covered Payroll	\$ 4,552.979
UAAL as a Percentage of Annual Covered Payroll	15.6%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as RSI following the notes to the financial statements, is designed to present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

#### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Additional information as of the latest actuarial valuation follows:

Actuarial valuation date	June 30, 2016
Actuarial cost method	Entry age normal
Amortization method	Level percent of pay, oper
Remaining amortization period	30 years
Asset valuation method	Market value of assets
Actuarial assumptions:	
Investment rate of return*	4.5%
Projected salary increases**	4.5% - 15.0%
Healthcare cost trend rate*	6.25%
Ultimate trend rate	5.0%
Year of ultimate trend rate	2020
* Includes price inflation at	3.0%
** Includes wage inflation at	3.75%

### Note 17 - Commitments

#### A. Operating Leases

The State has entered into numerous agreements to lease land and buildings which are classified as operating leases. These agreements generally contain the provision that, at the expiration date of the lease, the State may renew the operating lease on a month-to-month basis. It is expected that in the normal course of business most of these leases will be renewed or replaced by similar leases. Although the lease terms vary, most leases are subject to annual appropriation by the State Legislature to continue the lease obligation. If an appropriation is reasonably assured, leases are considered non-cancellable for financial reporting purposes. Any escalation clauses, sublease rentals, and contingent rents are considered immaterial to the future minimum lease payments and current rental expenditures.

Operating lease payments are recorded as expenditures or expenses when paid or incurred. Future minimum commitments due under non-cancellable operating leases for land and buildings as of June 30, 2016 are as follows (amounts expressed in thousands):

Year Ending June 30	Amount
2017	21,052
2018	18,931
2019	15,074
2020	11,848
2021	9,155
2022 - 2026	32,797
2027 - 2031	18,262
2032 - 2036	9,258
2037 - 2041	187
2042 - 2046	152
2047 - 2051	 12
Total Minimum Commitments	\$ 136,728

Expenditures for rental of land and buildings under operating leases for the year ended June 30, 2016 amounted to \$24,783,000.

#### B. Contracts

At June 30, 2016, the Department of Transportation had contracts outstanding of approximately \$933,023,000 with performance continuing during fiscal year 2017. Of this amount \$37,294,000 is related to local public agencies, such as planning and development districts, counties and municipalities. These contracts were primarily for construction, repair and maintenance and will be paid through the General Fund. Approximately 56 percent of future expenditures related to these commitments are expected to be reimbursed from proceeds of federal grants when the actual costs are incurred. The remaining portion will be funded by specific gasoline taxes.

The State Aid Road Division had contracts of \$63,901,000 outstanding at June 30, 2016 for construction, repair and maintenance of state and county roads. These contracts will be paid through the General Fund. Approximately 61 percent of future expenditures related to these commitments are expected to be reimbursed from proceeds of federal grants when the actual costs are incurred. The remaining portion will be funded by specific tax levies.

The Office of Building, Grounds and Real Property Management had outstanding construction, repair and maintenance contracts of \$291,612,000 at June 30, 2016. These contracts will be paid from the General fund.

The Military Department had contracts outstanding of approximately \$6,529,000 at June 30, 2016. Approximately 100 percent of future expenditures related to these commitments are expected to be reimbursed from proceeds of federal grants when the actual costs are incurred.

The Port Authority at Gulfport (a major enterprise fund) had contracts outstanding of approximately \$94,025,000 at June 30, 2016. These contracts were primarily for construction costs related to the port. These contracts will be paid from Port Authority at Gulfport's revenues and federal grants.

The Department of Information Technology Services had contracts outstanding of approximately \$28,366,000 at June 30, 2016. These contracts were primarily for the construction of the Mississippi Wireless Information Network state-wide digital trunked land mobile radio system including enhancements which add broadband data capabilities. Approximately 95 percent of future expenditures related to these commitments are expected to be reimbursed from proceeds of federal grants when the actual costs are incurred. The remaining portion will be paid through the General Fund.

#### C. Encumbrances

Encumbrances represent executed but unperformed purchase orders that are reported within governmental funds as restricted, committed, or assigned fund balance. At June 30, 2016, the encumbrance amounts in the General Fund were \$25,201,000.

### Note 18 - Risk Management

The State has elected to finance most exposures to risk through the retention of risk. The exposures to risk retained by the State are health and life benefits, tort liability, unemployment benefits and workers' compensation benefits. The State utilizes the internal service Risk Management Fund to account for these activities with the noted exception in workers' compensation benefits. Estimates of liabilities for incurred but unpaid claims include both reported and unreported insured events. Nonincremental claims adjustment expenses have not been included as part of the liability for claims and judgments due to immateriality. Changes in claim liabilities recorded in governmental activities for fiscal years 2015 and 2016 are as follows (amounts expressed in thousands):

		Claims and		
	Beginning	Changes	Claims	Ending
	Balance	in Estimates	Payments	Balance
2015	\$ 191,861	\$ 697,167	\$ 713,235	\$ 175,793
2016	175,793	709,131	749,198	135,726

**Health and Life Benefits:** The State has elected to manage the health benefit through the retention of all exposure. The life benefit is purchased from a commercial insurance company for death benefit distribution under tax law but management of the risk is accomplished by self insuring within an insured shell. State law mandates that all state, public education, library, junior and community college and retiring employees be offered health and life benefit coverage through this plan.

Estimates of the liability for unpaid claims are actuarially determined using the development method. This method uses past observed patterns of time between claim incurral and payment to estimate incurred claims from available claims data. Liabilities are based on the estimated ultimate cost of settling the claims, including inflation and other factors, and provisions for estimated claims adjustment expenses.

**Tort Liability:** The State manages tort claims through the retention of all liability exposure. The State Legislature created the Tort Claims Board to administer these claims beginning in fiscal year 1994. Statutory regulations provide some protection, as well as a limitation of liability, for claims filed against state agencies and state employees. There is some limited purchase of commercial insurance by state agencies for excess auto liability and other lines of coverage to fulfill some contractual requirements on out of state operations. There is purchase of insurance for protection of some fleet vehicles, some specified watercraft and specific fixed wing aircraft. In the last three years, settled claims have not exceeded commercial coverage.

Claims payments are financed through an annual assessment to all state agencies based on amount of payroll and past loss history. Estimates of the liability for unpaid claims are actuarially determined based on observed patterns of claims payments, as well as the experience of similar programs in other states.

**Unemployment Benefits:** Unemployment benefits are established in statute and administered by the Mississippi Department of Employment Security. The State elects to manage the financial risk for state agencies through retention of all liability exposure. Benefits are financed through collection of premiums from agencies, which provides a stable cash flow for payment of claims.

Estimates of the liability for unpaid claims are actuarially determined based on observed patterns of claims payments, adjusted for changes in covered payrolls.

**Workers' Compensation Benefits:** Workers' compensation benefits are established in statute and the rules and regulations are established by the Mississippi Workers' Compensation Commission and the Mississippi State Agencies Self-Insured Workers' Compensation Trust Board of Trustees. Four major state agencies have been granted exemption from participation in the Risk Management Fund.

The exposure of risk in the Risk Management Fund is financed mostly through retention of all exposure, with limited purchase of commercial excess insurance. The benefits are financed through collection of premiums, based on an actuarial estimate, from agencies which provides a stable cash flow for claims payments. In the last three years, settled claims have not exceeded commercial coverage. Estimates of the liability for unpaid claims are actuarially determined based on observed patterns of claims payments and case reserves development. Liabilities are based on the ultimate costs of settling claims, including inflation and other factors, and include provisions for estimated claims adjustment expenses.

Exempted state agencies cover all claim settlements and judgments with the resources of the General Fund. Claim expenditures and estimates of the related liability are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated.

### Note 19 - Contingencies

A. Federal Grants - The State has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from an audit may become a liability of the State. The State estimates that the ultimate disallowance pertaining to these grants, if any, will be immaterial to its overall financial condition.

The Division of Medicaid, which is reported within the General Fund, has been notified by the Centers for Medicare and Medicaid Services (CMS) of a potential claim relative to potential overpayments by CMS under Medical Assistance Program grants that may have been made between 1981 and 2009 to a number of states, including Mississippi. CMS is working with the Division of Medicaid, as well as various other states, to resolve the discrepancies. The amount questioned by CMS for the Division of Medicaid is approximately \$28,000,000.

Additionally, the Division of Medicaid has been notified by the Office of the Inspector General (OIG) of a potential claim relative to unallowable school-based Medicaid administrative costs for federal fiscal years 2010 through 2012. The amount determined by the OIG to be unallowable was \$21,200,000.

- B. Litigation The State is party to various legal proceedings that arise in the normal course of governmental operations. The State's legal counsel believes that they will be successful in defending the State and its agencies in a majority of these cases. In the event that they are not successful in defending such cases, they do not believe that the total liability will exceed \$42,244,000. In the opinion of the State, the ultimate disposition of these matters will not have a material adverse effect on the financial position of the State.
- C. Loan Guarantees The Mississippi Development Authority (MDA), a state agency, is authorized by state law to provide loan guarantees through the Small Business Loan Guarantee Program, funded through the Federal State Small Business Credit Initiative, in order to increase the amount of capital made available by private lenders to small businesses. The length of the loan guarantees range from one to fifteen years. In the case of default by the borrower, following the private lender's normal collection procedures to seek reimbursement from the loan recipient, the State pays the private lender a percentage of the outstanding loan amount. At June 30, 2016, outstanding MDA loan guarantees totaled \$39,806,000.

The State has co-signed promissory notes issued by the Federal Emergency Management Agency under the Federal Community Disaster Loan Program (CDL) on behalf of local governments as authorized by state law. The program provides operational funding for local governments or political subdivisions of the State that incurred a significant loss in revenue due to a presidentially declared disaster that adversely affected their ability to provide essential governmental services. At June 30, 2016, the remaining outstanding CDL loan guarantees totaled \$2,862,000. The loan guarantees expire September 30, 2035.

D. Conduit Debt - The Mississippi Development Bank (a nonmajor component unit) issues special obligation bonds in order to provide funds for making loans to governmental units. Although the special obligation bonds bear the name of the Bank, the Bank is not responsible for the payment of the bonds but rather the bonds are secured only by the payments agreed to be paid by the governmental units under the terms of the loan agreements. The outstanding balance of special obligation bonds issued by the Bank was approximately \$1,932,344,000 at June 30, 2016. The faith, credit and taxing power of the State and the Bank are not pledged to the payment of such bonds.

### Note 20 - Subsequent Events

The Working Cash Stabilization Reserve Account and budgetary special funds may be used to meet cash flow needs throughout the year when the General Fund experiences projected cash flow deficiencies. As a result, the General Fund has accumulated borrowings outstanding of \$442,133,000 from the Working Cash Stabilization Reserve Account and \$280,770,000 from budgetary special funds as of April 21, 2017. In order to comply with State law, all borrowings must be repaid by the end of the fiscal year.

Subsequent to year end, the State entered into a financing agreement to advance refund a portion of a note payable reported in governmental activities. The agreement resulted in notes payable totaling \$108,255,000 with interest rates ranging from 1.098% to 5% and maturity dates between fiscal year 2017 and fiscal year 2028.

The State entered into a financing agreement on January 31, 2017 to accelerate the construction of a highway project. The agreement resulted in notes payable totaling \$43,785,000 maturing between fiscal year 2018 and fiscal year 2032. Interest rates range from 2% to 5%.

Subsequent to year end, the State issued the following bonds and notes:

Taxable General Obligation Note, Series 2016A dated July 7, 2016. The note was issued to provide funding for the Major Economic Impact Act. Advances may be drawn in \$5,000,000 increments not to exceed the total authorized of \$80,000,000. The current outstanding balance is \$20,000,000. Interest is payable semi-annually on the outstanding balance at the rate of 1.75%. The principal balance is payable on or before July 7, 2018.

General Obligation Bonds, Series 2016B totaling \$188,850,000 dated December 6, 2016. These bonds were issued to provide funding for Major Economic Impact and Capital Improvements. These bonds have principal payments beginning in December 2025 and will mature serially through December 2036 with an interest rate of 5%.

Taxable General Obligation Bonds, Series 2016C, totaling \$81,500,000 dated December 6, 2016. The Series 2016C bonds were issued for the purpose of providing funding for Major Economic Impact, Capital Improvements, Mississippi Technology Alliance, Economic Development Highway, ACE Fund, Small Municipalities and Limited Population Counties, and the State Shipyard Improvements. These bonds have principal payments beginning in December 2017 and will mature serially through December 2025 with interest rates ranging from 1.21% to 3.137%.

## Notes to Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) - All Budgetary Funds

For the Year Ended June 30, 2016

The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) - All Budgetary Funds presents the original legally adopted budget, as well as comparisons of the final legally adopted budget with actual data on a budgetary basis. The State's basis of budgeting is the cash basis plus commitments. The State has established three budgetary fund groups to account for its budgetary activities and functions. The General Fund group is established to receive and distribute general tax revenues and other general fund revenues and interest generated thereon. The Education Enhancement Fund group is established to receive specific tax revenues to support various educational programs. The Special Fund group is established to receive federal grants, fees, proceeds from the sale of goods and services, taxes levied for specific purposes and interest generated thereon, and to support the functional activities of the agencies that generate such revenues.

General Fund and Education Enhancement Fund original budget revenues represent the General Fund and Education Enhancement Fund revenue estimates adopted by the Legislative Budget Office at the date of sine die adjournment. Special Fund revenue estimates include anticipated revenues during the year and the amount of beginning cash balances on hand at the beginning of the year that are anticipated to be expended for special fund purposes.

Due to the complexity of the State's budget, a separate *Annual Report of Budgetary Basis Expenditures* has been prepared to present final budget to actual comparisons at the legal level of control. This budgetary report is available at the Department of Finance and Administration.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of differences between budgetary and GAAP presentations for the year ended June 30, 2016 is presented below (amounts expressed in thousands):

Budgetary Funds	 General	Education Enhancement	Special
Financial Statement Major Fund	 General		
Net Change in Budgetary Fund Balances Reclassifications:	\$ (41,886) \$	(7,364) \$	119,215
Budgetary fund excesses are reclassified to the General Fund for GAAP reporting The State reports amounts in the budgetary funds that are reported in other major and	110,264	7,364	(117,628)
nonmajor funds			(1,587)
Adjustments: The financial reporting fund structure includes funds			
that are not part of the budgetary fund structure Financial statements are presented using a modified accrual basis of accounting while budgetary basis	142,639		
is cash plus commitments	 (54,318)		
Net Change in GAAP Fund Balances	\$ 156,699 \$	0 \$	0

## Schedule of Employer Contributions Mississippi Highway Safety Patrol Retirement System

Last 10 Fiscal Years (Amounts Expressed in Thousands)\*

	 2016	2015
Actuarially required employer contribution	\$ 14,755 \$	13,695
Contributions in relation to actuarially required contribution	 (14,755)	(13,695)
Contribution deficiency (excess)	\$ 0 \$	0
Covered payroll	\$ 27,380 \$	25,505
Actual contributions as a percentage of covered payroll	53.89%	53.7%

#### Notes to Schedule of Employer Contributions:

**Method and assumptions used in calculations of actuarially determined contributions.** The actuarially determined contribution rates in schedule of employer contributions are calculated as of June 30, 2014, two years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method	Entry Age
Amortization method	Level percentage of payroll, open
Remaining amortization period	36.5 years
Asset valuation method	5-year smoothed market
Price Inflation	3.5%
Salary increase	4.75% to 9.84%, including inflation
Investment rate of return	8%, net of pension plan investment expense, including inflation

<sup>\*</sup>Only two fiscal years are presented because 10-year data is not yet available.

### APPENDIX C

FORM OF CONTINUING DISCLOSURE CERTIFICATE

#### CONTINUING DISCLOSURE CERTIFICATE

This Continuing Disclosure Certificate (this "Disclosure Certificate") is executed and delivered by the State of Mississippi (the "Issuer" or the "State") in connection with the issuance of the \$442,775,000 State of Mississippi General Obligation Refunding Bonds, Series 2017A (the "Series 2017A Bonds"). The Series 2017A Bonds are being issued pursuant to a resolution of the State Bond Commission of the State dated October 26, 2016, as amended and restated on November 21, 2016 (the "Resolution"). The Issuer covenants and agrees as follows:

**SECTION 1. Purpose of the Disclosure Certificate.** This Disclosure Certificate is being executed and delivered by the Issuer for the benefit of the holders of the Series 2017A Bonds and the beneficial owners of the Series 2017A Bonds and in order to assist the Participating Underwriters in complying with SEC Rule 15c2-12(b)(5)(i)(C).

**SECTION 2. Definitions.** In addition to the definitions set forth in the Resolution, which apply to any capitalized term used in this Disclosure Certificate unless otherwise defined herein, the following terms shall have the following meanings:

"Annual Report" shall mean any Annual Report provided by the Issuer pursuant to, and as described in, Sections 3 and 4 of this Disclosure Certificate.

"Dissemination Agent" shall mean FSC Disclosure Services, a division of First Southwest Company, LLC, and any successors thereto, which has been designated by the Department of Finance and Administration, an agency of the State, to serve as Dissemination Agent to the State.

"EMMA" shall mean the Electronic Municipal Market Access System found at http://emma.msrb.org which is the electronic format prescribed by the MSRB pursuant to the Rule.

"Listed Events" shall mean any of the events listed in Section 5 of this Disclosure Certificate.

"MSRB" shall mean the Municipal Securities Rulemaking Board. The electronic filings with the MSRB shall be through EMMA.

"Participating Underwriters" shall mean any of the original underwriters of the Series 2017A Bonds required to comply with the Rule.

"Repository" shall mean the MSRB and each State Repository, if any.

"Rule" shall mean Rule 15c2-12(b)(5)(i)(C) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended and supplemented.

"State Repository" shall mean any public or private repository or entity designated by the State as a state repository for the purpose of the Rule. As of the date of this Disclosure Certificate, there is no State Repository.

SECTION 3. Provision of Annual Reports. The Issuer shall, or shall cause the Dissemination Agent to, not later than February 1 of each year, provide to each Repository an Annual Report which is consistent with the requirements of Section 4 of this Disclosure Certificate. Not later than fifteen (15) business days prior to said date, the Issuer shall provide the Annual Report to the Dissemination Agent. The Annual Report may be submitted as a single document or as separate documents comprising a package, and may cross-reference other information as provided in Section 4 of this Disclosure Certificate; provided that the audited financial statements of the Issuer may be submitted separately from the balance of the Annual Report. If the audited financial statements of the Issuer are publically unavailable on February 1 of each year, the Issuer agrees to provide unaudited financial statements and such audited financial statements if and when publically available.

If the Issuer is unable to provide the Repositories an Annual Report by the date required in the immediately preceding paragraph, the Issuer shall send a notice to each Repository.

The Dissemination Agent shall determine each year prior to the date for providing the Annual Report the name and address of each Repository.

**SECTION 4. Content of Annual Reports.** The Issuer's Annual Report shall be the Comprehensive Annual Financial Report of the State prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

### SECTION 5. Reporting of Significant Events.

- (a) This Section 5 shall govern the giving of notices of the occurrence of any of the following events in a timely manner not in excess of ten (10) business days after the occurrence thereof, if material. All fifteen (15) events mandated by the Rule are listed below; however, some may not apply to the Series 2017A Bonds:
  - (1) Principal and interest payment delinquencies;
  - (2) Non-payment related defaults;
  - (3) Unscheduled draws on debt service reserves reflecting financial difficulties;
  - (4) Unscheduled draws on the credit enhancements reflecting financial difficulties;
  - (5) Substitution of credit or liquidity providers or their failure to perform;
  - (6) Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the security, or other material events affecting the tax status of the security;
  - (7) Modification to rights of security holders;
  - (8) Bond calls;
  - (9) Tender offers;
  - (10) Defeasances;
  - (11) Release, substitution or sale of property securing repayment of the securities;
  - (12) Rating changes;
  - (13) Bankruptcy, insolvency, receivership or similar event of the State;
  - (14) Consummation of a merger, consolidation, or acquisition involving the State or the sale of all or substantially all of the assets of the State, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms; and
  - (15) The appointment of a successor or additional trustee or the change of name of a trustee.
- (b) Any Listed Event under subsection (a)(1), (3), (4), (5), (6), (9), (10), (12), or (13) of this Section will always be deemed to be material.

**SECTION 6. Termination of Reporting Obligation.** The Issuer's obligations under this Disclosure Certificate shall terminate upon the legal defeasance or payment in full of all of the Series 2017A Bonds.

SECTION 7. Dissemination Agent. The Issuer has engaged the Dissemination Agent to assist it in disseminating information hereunder. The Issuer shall send the information required by Section 4 hereof and event notices required by this Disclosure Certificate to the Dissemination Agent. Unless otherwise agreed to, the Dissemination Agent shall, as soon as practicable but not later than five (5) days after receipt of such information, forward the same to (i) the MSRB and State Repository, if any, as described herein, and (ii) any beneficial holder of the Series 2017A Bonds who requests such information in writing to the Dissemination Agent or the Issuer. The Dissemination Agent shall have no duty to review the materials described in this paragraph prior to disseminating such materials.

The initial Dissemination Agent shall be FSC Disclosure Services, a division of First Southwest Company, LLC. The Issuer may discharge the Dissemination Agent or any successor Dissemination Agent, but

in such event shall take steps necessary to appoint a successor Dissemination Agent who shall be responsible for undertaking all responsibilities of Dissemination hereunder.

**SECTION 8.** Amendment; Waiver. Notwithstanding any other provision of this Disclosure Certificate, the Issuer may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, if such amendment or waiver is supported by an opinion of counsel expert in federal securities laws, to the effect that such amendment or waiver would not, in and of itself, cause the undertakings herein to violate the Rule if such amendment or waiver had been effective on the date hereof but taking into account any subsequent change in or official interpretation of the Rule.

**SECTION 9.** Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the Issuer from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the Issuer chooses to include any information in any notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Certificate, the Issuer shall have no obligation under this Disclosure Certificate to update such information or include it in any future notice of occurrence of a Listed Event.

**SECTION 10. Default.** In the event of a failure of the Issuer to comply with any provision of this Disclosure Certificate any holder of a Series 2017A Bonds or the Participating Underwriter may take such actions as may be necessary and appropriate, including seeking mandamus or specific performance by court order, to cause the Issuer to comply with its obligations under this Disclosure Certificate. A default under this Disclosure Certificate shall not be deemed an "event of default" under the Resolution, and the sole remedy under this Disclosure Certificate in the event of any failure of the Issuer to comply with this Disclosure Certificate shall be an action to compel performance.

SECTION 11. Duties, Immunities and Liabilities of Dissemination Agent. The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate. The obligations of the Issuer under this Section shall survive resignation or removal of the Dissemination Agent and payment of the Series 2017A Bonds.

**SECTION 12. Beneficiaries.** This Disclosure Certificate shall inure solely to the benefit of the Issuer, the Dissemination Agent, the Participating Underwriters, holders from time to time of the Series 2017A Bonds, and beneficial owners of the Series 2017A Bonds and shall create no rights in any other person or entity.

SECTION 13. Prior Disclosure. The Issuer is current with its previous continuing disclosure undertakings under the Rule. However, there have been some instances in the previous five years in which the Issuer filed its annual undertakings late. Due to a change in the Issuer's accounting system, although the Issuer's unaudited financial statement was filed timely along with its annual report, the Issuer's CAFR for fiscal year 2015 was not filed on EMMA until May 31, 2016. In addition, although the State timely filed a notice of failure to timely file its CAFR for fiscal year 2016, the State's CAFR for fiscal year 2016 was not filed on EMMA until May 5, 2017. Likewise, the Issuer has in the past failed to timely file certain event notices such as ratings changes and refunding notices and has also on occasion failed to link its filings to all of its CUSIPs. The Issuer has taken steps to ensure that it will timely comply with all undertakings in the future. Specifically, the Issuer has approved a "State of Mississippi Debt Management Policy" which provides detailed procedures for the timely filing of continuing disclosure by the Issuer. Also, the Issuer has engaged the Dissemination Agent to assist compliance with the terms of this Disclosure Certificate.

	State Bond Commission

# APPENDIX D FORM OF OPINION OF ATTORNEY GENERAL

#### STATE OF MISSISSIPPI

### OFFICE OF THE ATTORNEY GENERAL OFFICIAL ATTORNEY GENERAL'S OPINION

#### [FORM OF OPINION OF ATTORNEY GENERAL]

June 28, 2017

JIM HOOD ATTORNEY GENERAL

State Bond Commission State of Mississippi Jackson, Mississippi

Re: \$442,775,000 State of Mississippi General Obligation Refunding Bonds, Series 2017A, dated as of the date of their delivery (the "Series 2017A Bonds")

#### Commission Members:

The opinion as hereinafter set forth is submitted regarding several matters pertaining to the sale and issuance of the above referenced Series 2017A Bonds of the State of Mississippi (the "State").

There are three members of the State Bond Commission (the "Commission") and, in addition to being a member of the Commission, the Attorney General is legal advisor to the Commission.

The Commission is authorized to issue the Series 2017A Bonds under the provisions of Sections 31-27-1 *et seq.*, Mississippi Code of 1972, as amended and supplemented (the "Act") and a resolution adopted by the members of the Commission on October 26, 2016, as amended and restated on November 21, 2016 (the "Resolution").

The existing State Constitution is the Mississippi Constitution of 1890. Protection for the contractual obligations owed holders of the Series 2017A Bonds arising from the issuance of the Series 2017A Bonds is expressed in the provisions of Section 16 of the Constitution:

Ex post facto laws, or laws impairing the obligation of contracts shall not be passed.

I am of the opinion that when the Series 2017A Bonds are validated, issued and delivered, such Series 2017A Bonds shall constitute a contract as contemplated by Section 16, supra, and shall enjoy the full protection thereof.

The Series 2017A Bonds have been subjected to validation by a competent State court. Validation procedure is prescribed by statue and requires that the submission for validation shall be accompanied by the written opinion of the State's Bond Attorney, an attorney appointed by the Governor of the State and who shall possess the same qualifications for office as the Attorney General.

Section 31-13-7, Mississippi Code of 1972, as amended and supplemented, provides that when a decree shall be entered confirming and validating bonds and there shall be no appeal from the decree, or if on appeal

the Supreme Court enters its decree confirming and validating such bonds, the validity of such bonds shall never be called in question in any court in the State.

A Certificate of Non-litigation shall be rendered by the Attorney General certifying the finality of validation prior to delivery of the Series 2017A Bonds.

As to general obligations, the Act and the Resolution provide generally:

The bonds issued under the provisions hereof are general obligations of the State, and for the repayment thereof the full faith and credit of the State is irrevocably pledged. If the funds appropriated by the Legislature are insufficient to pay the principal of and the interest on such bonds as they become due, then the deficiency shall be paid by the State Treasurer from any funds in the State Treasury not otherwise appropriated.

It is my opinion that the Series 2017A Bonds have been duly and validly authorized, issued, executed and delivered by and on behalf of the State, that the Series 2017A Bonds constitute valid and binding general obligations of the State enforceable in accordance with the terms thereof (except to the extent that the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted and to the exercise of judicial discretion in accordance with general principles of equity), and that for the payment thereof, the full faith, credit and taxing power of the State is irrevocably pledged.

In connection with the sale and issuance of the Series 2017A Bonds, the State will deliver its Continuing Disclosure Certificate dated as of the date of the issuance and delivery of the Series 2017A Bonds. The Continuing Disclosure Certificate will be delivered by the State for the benefit of the holders of the Series 2017A Bonds and in order to assist the participating underwriters in complying with Rule 15c2-12(b)(5) of the Securities and Exchange Commission.

It is my opinion that the Continuing Disclosure Certificate has been duly and validly authorized, executed and delivered by and on behalf of the State and constitutes a valid and binding obligation of the State enforceable in accordance with the terms thereof (except to the extent that the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights heretofore or hereafter enacted and to the exercise of judicial discretion in accordance with general principles of equity).

The Mississippi Legislature enacted Section 11-46-1 *et seq.*, Mississippi Code of 1972, as amended and supplemented, to address the tort liability of the State and its political subdivisions. This act creates an immunity and then waives this immunity except in certain situations up to a maximum of five hundred thousand dollars (\$500,000.00) per occurrence.

When the Attorney General of the State shall give his opinion in writing to an officer, board, commission, department or person authorized to require such written opinion, there shall be no liability, civil or criminal, accruing to or against such body or person who in good faith follows the direction of such opinion and acts in accordance therewith, unless a court of competent jurisdiction, after a full hearing, shall publicly declare that such opinion is manifestly wrong and without any substantial support.

This opinion is being rendered in connection with the issuance of the Series 2017A Bonds and in anticipation that it will be relied upon by Bond Counsel, in rendering its opinion with respect to the Series 2017A Bonds, and such reliance is hereby specifically authorized.

Very truly	yours,	

# APPENDIX E FORM OF OPINION OF BOND COUNSEL

#### FORM OF OPINION OF BOND COUNSEL

June 28, 2017

State Bond Commission State of Mississippi Jackson, Mississippi

#### Commission Members:

We have examined the Constitution and statutes of the State of Mississippi (the "State"), including particularly Sections 31-27-1 *et seq.*, Mississippi Code of 1972, as amended and supplemented (the "Act"), and certified copies of the proceedings had by the State Bond Commission (the "Commission"), including the adoption of a resolution October 26, 2016, as amended and restated on November 21, 2016 (the "Resolution"), and other proofs submitted, relative to the sale and issuance by the State, acting by and through the Commission, of

### \$442,775,000 STATE OF MISSISSIPPI GENERAL OBLIGATION REFUNDING BONDS, SERIES 2017A

dated the date of delivery thereof, and maturing in such amounts and at such times, bearing interest and subject to redemption, all as set forth in the Resolution (the "Series 2017A Bonds"). The Series 2017A Bonds are being issued for the purpose of (a) currently and advance refunding and defeasing certain maturities of prior outstanding indebtedness of the State, and (b) paying the costs incident to the sale, issuance and delivery of the Series 2017A Bonds, all as authorized under Act and the Resolution.

As to questions of fact material to our opinion, we have relied upon such certified proceedings and other certifications of public officials furnished to us, including, without limitation, representations and covenants as to the use and investment of the proceeds of the Prior Bonds (as defined in the Resolution), without undertaking to verify the same by independent investigation. We have also examined s specimen of one of the Series 2017A Bonds

Based on the foregoing and subject to the qualifications that follow, we are of the opinion on the date hereof that:

- 1. Such proceedings and proofs show lawful authority for the sale and issuance of the Series 2017A Bonds by the State pursuant to the Constitution and laws of the State, including the Act, and the provisions of the Resolution.
- 2. The Series 2017A Bonds have been duly authorized, executed and delivered under the provisions of the Resolution and are entitled to the pledge and security of the Resolution.
- 3. The Series 2017A Bonds are legal, valid and binding general obligations of the State and, as authorized by the Act, the full faith and credit of the State has been pledged for the payment thereof.
- 4. Under existing statutes, regulations, rulings and court decisions, subject to the assumption stated below, interest on the Series 2017A Bonds is excludable from gross income for federal income tax purposes. Furthermore, interest on the Series 2017A Bonds is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations; however, interest on the Series 2017A Bonds is taken into account in determining adjusted current earnings for purposes of computing the alternative minimum tax imposed on corporations. We express no opinion regarding other federal tax consequences resulting from the ownership of, receipt or accrual of interest on, or disposition of the Series 2017A Bonds. In rendering the opinion contained in this paragraph 4, we have assumed continuing compliance with the requirements of the Internal Revenue Code of 1986, as amended (the "Code") that must be met after the issuance of the Series 2017A Bonds in order that interest on the Series 2017A Bonds not be includable in gross income for federal income tax purposes. The failure to meet such requirements may cause interest on the

Series 2017A Bonds to be included in gross income for federal income tax purposes retroactive to the date of issuance of the Series 2017A Bonds. The State has covenanted to comply with or to require compliance with the requirements of the Code in order to maintain the excludability of interest on the Series 2017A Bonds from gross income for federal income tax purposes. Owners of the Series 2017A Bonds should consult their own tax advisors as to the applicability and effect on their federal income taxes of the alternative minimum tax, the environmental tax, the branch profits tax and the tax on passive investment income of corporations, as well as the applicability and effect of any other collateral federal income tax consequences.

5. Under and pursuant to the Act, the Series 2017A Bonds and interest thereon are exempt from all income taxes imposed by the State.

It is to be understood that the rights of the holders of the Series 2017A Bonds and the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium or other similar laws affecting creditors' rights heretofore or hereinafter enacted and that their enforcement may be subject to the exercise of judicial discretion in accordance with general principles of equity.

In this opinion letter issued in our capacity as Bond Counsel, we are opining only upon those matters set forth herein, and we are not passing upon the accuracy, adequacy or completeness of the State's Official Statement or other statements made in connection with any offer or sale of the Series 2017A Bonds or upon any federal or state tax consequences arising from the receipt or accrual of interest on or the ownership or disposition of the Series 2017A Bonds, except those specifically addressed herein or upon any federal or state law with respect to the sale or distribution of the Series 2017A Bonds.

In rendering this opinion letter, we have acted as Bond Counsel for the sole purpose of rendering an opinion with respect to the legality and validity of the Series 2017A Bonds under the laws of the State and with respect to the excludability of the interest on the Series 2017A Bonds from federal and State income taxation.

This opinion letter is an expression of professional judgment regarding the matters expressly addressed herein. It is neither a guarantee of result nor an insurance policy with respect to the transaction or the future actions or performance of any party or entity. Our services have not included any financial or other non-legal advice. We express no opinion other than as herein expressly stated in this letter, and no expansion of our opinion may be made by implication or otherwise. The opinions herein are given as of the date hereof and are based upon statutes, regulations, rulings and court decisions in effect on the date hereof and not as of any future date. It should be noted that material changes regarding matters of fact and applicable law may hereafter occur. We expressly disclaim any undertaking or responsibility to review, revise, update or supplement this opinion letter subsequent to its date for any reason or to advise you of any change in the law, whether by reason of legislative or regulatory action, by judicial decision or otherwise, or of any change of facts or circumstances or of any facts or circumstances that may hereafter come to our attention or for any other reason.

Respectfully submitted,

BUTLER SNOW LLP

### APPENDIX F

BOOK-ENTRY-ONLY SYSTEM

#### **BOOK-ENTRY-ONLY SYSTEM**

The information provided under this APPENDIX F has been provided by The Depository Trust Company ("DTC"). No representation is made by the State as to the accuracy or adequacy of such information, or as to the absence of material adverse changes in such information subsequent to the date hereof.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC. National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of \$442,775,000 State of Mississippi General Obligation Refunding Bonds, Series 2017A (the "Series 2017A Bonds") under the DTC system must be made by or through Direct Participants, which will receive a credit for such Series 2017A Bonds on DTC's records. The ownership interest of each actual purchaser of each Series 2017A Bond (a "Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2017A Bonds are to be accomplished by entries made on the books of Direct or Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Series 2017A Bonds, except in the event that use of the book-entry system for the Series 2017A Bonds is discontinued.

To facilitate subsequent transfers, all Series 2017A Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2017A Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2017A Bonds. DTC's records reflect only the identity of the Direct Participants to whose accounts the Series 2017A Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Series 2017A Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2017A Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Series 2017A Bond documents. For example, Beneficial Owners of Series 2017A Bonds may wish to ascertain that the nominee holding the Series 2017A Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices are to be sent to DTC. If less than all of the Series 2017A Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Series 2017A Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Paying and Transfer Agent as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Series 2017A Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, principal and interest payments, if any, on the Series 2017A Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detailed information from the State or the Paying and Transfer Agent, on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC nor its nominee, the Paying and Transfer Agent or the State, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, principal and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the State or the Paying and Transfer Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Series 2017A Bonds at any time by giving reasonable notice to the State or the Paying and Transfer Agent. Under such circumstances, in the event that a successor depository is not obtained, Series 2017A Bond certificates are required to be printed and delivered.

The State may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Series 2017A Bonds in definitive form will be printed and delivered. See the caption "DESCRIPTION OF THE SERIES 2017A BONDS - Registration" in this Official Statement.

THE STATE AND THE UNDERWRITERS CANNOT AND DO NOT GIVE ANY ASSURANCE THAT THE DIRECT PARTICIPANTS OR THE INDIRECT PARTICIPANTS WILL DISTRIBUTE TO THE BENEFICIAL OWNERS OF THE SERIES 2017A BONDS (a) PAYMENTS OF PRINCIPAL OR INTEREST ON THE SERIES 2017A BONDS; (b) CERTIFICATES REPRESENTING AN OWNERSHIP INTEREST OR OTHER CONFIRMATION OF BENEFICIAL OWNERSHIP INTERESTS IN THE SERIES 2017A BONDS; OR (c) REDEMPTION OR OTHER NOTICES SENT TO DTC OR CEDE & CO., ITS NOMINEE, AS THE REGISTERED OWNER OF THE SERIES 2017A BONDS, OR THAT THEY WILL DO SO ON A TIMELY BASIS, OR THAT DTC OR DIRECT OR INDIRECT PARTICIPANTS WILL SERVE AND ACT IN THE MANNER DESCRIBED IN THIS OFFICIAL STATEMENT. THE CURRENT "RULES" APPLICABLE TO DTC ARE ON FILE WITH THE SEC AND THE CURRENT "PROCEDURES" OF DTC TO BE FOLLOWED IN DEALING WITH DTC PARTICIPANTS ARE ON FILE WITH DTC.

THE STATE AND THE UNDERWRITERS WILL NOT HAVE ANY RESPONSIBILITY OR OBLIGATIONS TO SUCH DTC PARTICIPANTS OR THE BENEFICIAL OWNERS WITH RESPECT TO (a) THE SERIES 2017A BONDS; (b) THE ACCURACY OF ANY RECORDS MAINTAINED BY DTC OR ANY DTC PARTICIPANT; (c) THE PAYMENT BY ANY DTC PARTICIPANT OF ANY AMOUNT DUE TO ANY BENEFICIAL OWNER IN RESPECT OF THE PRINCIPAL AMOUNT OF AND INTEREST ON THE SERIES 2017A BONDS; (d) THE DELIVERY BY ANY DTC PARTICIPANT OF ANY NOTICE TO ANY BENEFICIAL OWNER WHICH IS REQUIRED OR PERMITTED UNDER THE TERMS OF THE RESOLUTIONS TO BE GIVEN TO HOLDERS OF THE SERIES 2017A BONDS; OR (e) ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY DTC AS HOLDER OF THE SERIES 2017A BONDS.
